**Regional Variation in Modern Greece and Cyprus** Muriel Dimen, Ernestine Friedl, 1976      **Landscape and People of the Franchthi Region** Tjeerd Hendrik van Andel, Susan B. Sutton, 2018-10-26 With the long awaited publication of these three volumes we have the first thorough documentation of one of the most important prehistoric sites in the Mediterranean that of Franchthi Cave in the Argolid Peninsula of Greece American Anthropologist the archaeological and paleoenvironmental data from Franchthi Cave are unique in providing a site specific record of the cultural responses to great environmental changes Quarterly Research This volume describes the evolution of the landscape around Franchthi Cave over 25 000 years its impact on prehistoric inhabitants and theirs on it      *Journal of Greek Archaeology Volume 3 2018*, 2018-10-31 True to its initial aims the latest volume of the Journal of Greek Archaeology runs the whole chronological range of Greek Archaeology while including every kind of material culture      Regional Variation in Modern Greece and Cyprus Muriel Dimen, Ernestine Friedl, 1976      Karagiozis Linda Myrsiades, Kostas Myrsiades, 2021-12-14 Karagiozis a form of comic folk drama employing stock puppet figures was immensely popular in Greece until recent years when newer forms of entertainment have virtually eclipsed it Derived from ancient Byzantine and Greek sources it takes its name from the principal puppet character the clever humpbacked fool hero Karagiozis who appears in many guises surrounded by a cast of folk caricatures from all walks of life Kostas and Linda Myrsiades present here a tripartite view of Karagiozis a translation of a typical text taken directly from a live performance interviews with one of the last master Karagiozis puppeteers and an analysis of the place of this indigenous genre in Greek life and culture The first part of the book examines critical issues concerning the context of Karagiozis performance its place as an expression of an unofficial social world as a gender statement that reveals the split vision of its culture as an expression of a pluralistic society and as an indigenous event shaped by economic geographic political and social forces The second portion offers insights from interviews with Giorgos Haridimos until his retirement Greece s preeminent Karagiozis player and a translation of his classic text Karagiozis Baker reflecting an actual performance by Haridimos Through novel verbal and typographic devices Kostas Myrsiades succeeds in preserving the full flavor of his oral source its rhythms and intonations its linguistic nuances and even audience reactions to convey the actual experience of the theatergoer This unique translation thus establishes a model for collecting and disseminating oral theatrical tradition Folklorists cultural historians and students of theater will appreciate this introduction to an ancient but little known folkloric form      *Area Handbook for Greece* Eugene K. Keefe, 1977 General study of Greece covers historical and geographical aspects demographic aspects and social structures ethnic groups languages living conditions culture education religion the political system political parties international relations communication the economic structure agriculture industry labour force labour relations trade public finance banking the administration of justice defence etc Bibliography pp 253 to 267 glossary maps and statistical tables      **Rural Lives and Landscapes in Late Byzantium**

Sharon E. J. Gerstel, 2015-07-15 This is the first book to examine the late Byzantine peasantry through written archaeological ethnographic and painted sources. Investigations of the infrastructure and setting of the medieval village guide the reader into the consideration of specific populations. The village becomes a micro society with its own social and economic hierarchies. In addition to studying agricultural workers, mothers and priests, lesser known individuals such as the miller and witch are revealed through written and painted sources. Placed at the center of a new scholarly landscape, the study of the medieval villager engages a broad spectrum of theorists including economic historians creating predictive models for agrarian economies, ethnoarchaeologists addressing historical continuities and disjunctions, and scholars examining power and female agency.

**Gender and Power in Rural Greece** Jill Dubisch, 2019-01-29 Women in contemporary Greek society have been conventionally depicted as oppressed and socially inferior, circumscribed in behavior and segregated from the world of men. In 1967 Ernestine Friedl's classic article "The Position of Women: Appearance and Reality" argued that this view was overly simplified and that in Greek villages women in fact exercise power in household decisions and in determining the economic and marital future of their children. Since that article, feminists and anthropologists have continued to discuss the appearances of prestige vs the realities of power. In this volume, scholars from a variety of backgrounds return the debate to the setting of Greece for the first time since Friedl's work. Introduced by Jill Dubisch, the book contains eight original essays and a republication of the Friedl article. Among other topics, the essays examine changes now occurring in Greek gender roles, the ways women deal with oppression and act as mediators between the domestic sphere and life outside the home, and the extension of the language and symbolism of gender beyond male and female roles. The contributors are Juliet du Boulay, Anna Caraveli, Muriel Dimen, Jill Dubisch, Michael Herzfeld, Robinette Kennedy, Elftérios Pavlides, and Jana Hesser. S. D. Salamone and J. B. Stanton. Jill Dubisch is Associate Professor of Anthropology at the University of North Carolina in Charlotte. Originally published in 1986, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

**The Olive and the Caper** Susanna Hoffman, 2004-08-01 This is the year it's Greek to me. It becomes the happy answer to what's for dinner. My Big Fat Greek Wedding, the upcoming epic Troy, the 2004 Summer Olympics returning to Athens, and now yet another reason to embrace all things Greek. The Olive and the Caper, Susanna Hoffman's 700-plus page serendipity of recipes and adventure. In Corfu, Ms. Hoffman and a taverna owner cook shrimp fresh from the trap, and for us she offers the boldly flavored Shrimp with Fennel, Green Olives, Red Onion, and White Wine. She gathers wild greens and herbs with neighbors, inspiring Big Beans with Thyme and Parsley and Field Greens and Ouzo Pie. She learns the secret to chewy country bread from the baker on Santorini, and

translates it for American kitchens Including 325 recipes developed in collaboration with Victoria Wise her co author on The Well Filled Tortilla Cookbook with over 258 000 copies in print The Olive and the Caper celebrates all things Greek Chicken Neo Avgolemeno Fall off the bone Lamb Shanks seasoned with garlic thyme cinnamon and coriander Siren like sweets from world renowned Baklava to uniquely Greek preserves Rose Petal Cherry and Grappa Apricot and Metaxa In addition it opens with a sixteen page full color section and has dozens of lively essays throughout the book about the origins of Greek food about village life history language customs making this a lively adventure in reading as well as cooking The Death Rituals of Rural Greece Loring M. Danforth, Alexander Tsiaras, 2020-09-01 This compelling text and dramatic photographic essay convey the emotional power of the death rituals of a small Greek village the funeral the singing of laments the distribution of food the daily visits to the graves and especially the rite of exhumation These rituals help Greek villagers face the universal paradox of mourning how can the living sustain relationships with the dead and at the same time bring them to an end in order to continue to live meaningfully as members of a community That is the villagers dilemma and our own Thirty one moving photographs reproduced in duotone to do justice to their great beauty combine with vivid descriptions of the bereaved women of Potamia and with the words of the funeral laments to allow the reader an unusual emotional identification with the people of rural Greece as they struggle to integrate the experience of death into their daily lives Loring M Danforth s sensitive use of symbolic and structural analysis complements his discussion of the social context in which these rituals occur He explores important themes in rural Greek life such as the position of women patterns of reciprocity and obligation and the nature of social relations within the family **Ours Once More** Michael

Herzfeld, 2020-06-16 When this work one that contributes to both the history and anthropology fields first appeared in 1982 it was hailed as a landmark study of the role of folklore in nation building It has since been highly influential in reshaping the analysis of Greek and European cultural dynamics In this expanded edition a new introduction by the author and an epilogue by Sharon Macdonald document its importance for the emergence of serious anthropological interest in European culture and society and for current debates about Greece s often contested place in the complex politics of the European Union

*House Life* Donna Birdwell-Pheasant, Denise Lawrence-Züniga, 2020-06-04 This book which fills a gap on the materiality of lived relations examines households within the context of their immediate physical surroundings of home and shows how human interactions are reflected in built forms Houses are dynamic participants in family life in many ways They often pre date the origins and outlast the life spans of their inhabitants but they can exert a powerful influence on the organization of behaviors and the values of family members as well as on the forms and flows of family life across the generations Constituting wealth investment security and inheritance they are an objective in and of themselves in many domestic strategies Drawing on developments within anthropology archaeology architecture and social history the authors demonstrate through detailed case studies how household or family relations can usefully be mined to re situate social theory

in both space and time Space boundaries family cycles historic changes migration patterns ethnicity memory and gender are all interrogated for the light they shed on how people interact with the physical world around them and what this means culturally and symbolically Europe is an especially rich focus for this kind of analysis because it is distinguished by its long well documented history and a recent period of intense change

**Anthropology Through the Looking-Glass** Michael Herzfeld, 1987 Despite having emerged in the heyday of a dominant Europe of which Ancient Greece is the hallowed spiritual and intellectual ancestor anthropology has paradoxically shown relatively little interest in contemporary Greek culture In this innovative and ambitious book Michael Herzfeld moves Greek Ethnography from the margins to the centre of anthropological theory revealing the theoretical insights that can be gained by so doing He shows that the ideology that originally led to the creation of anthropology also played a large part in the growth of the modern Greek nation state and that Greek ethnography can therefore serve as a mirror for an ethnography of anthropology itself He further demonstrates the role that scholarly fields including anthropology have played in the construction of contemporary Greek culture and Greek identity

*The Plain of Phaistos* Harriet Blitzer, Despoina Hadzi-Vallianou, L. Vance Watrous, 2005-02-01 The Plain of Phaistos presents the results on an interdisciplinary regional field project 1984-1987 carried out on the island of Crete This volume traces the changing patterns of settlement and cycles of social complexity from the Late Neolithic period to the present day within the heartland of the state of Phaistos The authors and contributors publish geological archaeological environmental botanical historical and ethnographic studies that establish the regional identity of the Western Mesara Using a combination of empirical processual and post processual theoretical approaches the volume investigates a central problem how and why did the Bronze Age and Classical states arise at Phaistos

Women's Work and Lives in Rural Greece Gabriella Lazaridis, 2016-02-17 This new volume explores the limits and possibilities of economic change in transforming the lives of women in rural Greece at a time of great economic and political change It is based on ethnographic research conducted in two communities of Western Crete Nohia and Platanos where Lazaridis concentrates on three activities women are involved in handcrafts market gardening and olive growing

**Translating Cultures** Abraham Rosman, Paula G. Rubel, 2020-06-15 The task of the anthropologist is to take ideas concepts and beliefs from one culture and translate them into first another language and then into the language of anthropology This process is both fascinating and complex Not only does it raise questions about the limitations of language but it also challenges the ability of the anthropologist to communicate culture accurately In recent years postmodern theories have tended to call into question the legitimacy of translation altogether This book acknowledges the problems involved but shows definitively that translating cultures can successfully be achieved The way we talk write read and interpret are all part of a translation process Many of us are not aware of translation in our everyday lives but for those living outside their native culture surrounded by cultural difference the ability to translate experiences and thoughts becomes a major issue Drawing on case studies and theories from a wide range of disciplines including anthropology philosophy linguistics art history folk

theory and religious studies this book systematically interrogates the meaning complexities and importance of translation in anthropology and answers a wide range of provocative questions such as Can we unravel the true meaning of the Christian doctrine of trinity when there have been so many translations What impact do colonial and postcolonial power structures have on our understanding of other cultures How can we use art as a means of transgressing the limitations of linguistic translation Translating Cultures Perspectives on Translation and Anthropology is the first book fully to address translation in anthropology It combines textual and ethnographic analysis to produce a benchmark publication that will be of great importance to anthropologists philosophers linguists historians and cultural theorists alike

### **Classical Archaeology in**

**Context** Donald Haggis, Carla Antonaccio, 2015-05-19 This book compiles a series of case studies derived from archaeological excavation in Greek cultural contexts in the Mediterranean ca 800 100 B C addressing the current state of the field the goals and direction of Greek archaeology and its place in archaeological thought and practice Overviews of archaeological sites and analyses of assemblages and contexts explore how new forms of data methods of data recovery and analysis and sampling strategies have affected the discourse in classical archaeology and the range of research questions and strategies at our disposal Recent excavations and field practices are steering the way that we approach Greek cultural landscapes and form broader theoretical perspectives while generating new research questions and interpretive frameworks that in turn affect how we sample sites collect and study material remains and ultimately construct the archaeological record The book confronts the implications of an integrated dialogue between realms of data and interpretive methodologies addressing how reengagement with the site assemblage or artifact from the excavation context can structure the way that we link archaeological and systemic contexts in classical archaeology

### **Ancient Greek Agriculture** Signe Isager, Jens Erik

Skydsgaard, 2013-04-03 The initial focus of Ancient Greek Agriculture is firmly on the art of agriculture proper the tools and the technique the plants cultivated and the animals reared Thereafter Isager and Skydsgaard focus on the position of agriculture in the society of gods and men in the Greek city states The arguments of Ancient Greek Agriculture are strengthened by the book's close adherence to contemporary Greek sources literary as well as archaeological avoiding the use of later as well as Roman material
