Ikaria Diane Kochilas, 2014-10-14

The remote and lush island of Ikaria in the northeastern Aegean is home to one of the longest living populations on the planet, making it a blue zone. Much of this has been attributed to Ikaria's stress-free lifestyle and Mediterranean diet: daily naps, frequent sex, a little fish, and meat-free, flowing wine; mindless exercise like walking and gardening; hyper-local food; strong friendships; and a deep-rooted disregard for the clock. No one knows the Ikarian lifestyle better than Chef Diane Kochilas, who has spent much of her life on the island. Part cookbook, part travelogue, Kochilas's *Ikaria* is an introduction to the food as life philosophy and a culinary journey through luscious recipes, gorgeous photography, and captivating stories from locals. Capturing the true spirit of the island, Kochilas explains the importance of shared food, the health benefits of raw and cooked salads, the bean dishes that are passed down through generations, the greens and herbal teas that are used in the kitchen and in the teapot as medicine, and the nutritional wisdom inherent in the ingredients and recipes that have kept Ikarians healthy.
