Regional Development In The Ussr:

Regional Development in Russia Hans Westlund, Aleksandr Grigor'evich Granberg, Folke Snickars, 2000 Reporting the findings of a joint Swedish Russian research project economists overview Russia's regional development during the entire Soviet period and analyze the array of regional problems facing Russia at the birth of the 21st century For the Soviet period they reveal that the development of heavy industry actually reduced regional inequalities but that disparities widened as the economy diversified and that the science of regional planning never achieved practical application during a regime of central planning Among the important factors contributing to cohesion and disintegration in Russia today they cite ethnicity religion and Russian nationalism Annotation copyrighted by Book News Inc Portland OR

Soviet Economic Development from Lenin to Khrushchev Robert William Davies, 1998-03-28 This book provides a comprehensive survey of Soviet economic development from 1917 to 1965 in the context of the pre revolutionary economy In these years the Soviet Union negotiated the first stages of modern industrialisation and then after the defeat of Nazi Germany and its allies emerged as one of the two world superpowers This was also the first attempt to construct a planned socialist order These developments resulted in great economic achievements at great human cost Using the results of recent Russian and Western research Professor Davies discusses the inherent faults and strengths of the system and pays particular attention to the major controversies Was the Russian Revolution doomed to failure from the outset Could the mixed economy of the 1920s have led to a democratic socialist economy What was the influence of Soviet economic development on the rest of the world

Soviet Economic Development Since 1917 Maurice Dobb, 2012 This book follows on from the author's volume *Russian Economic Development* and although it encompasses some of the same material it charts the history and progress of the Soviet economy down to the efforts at reconstruction after The Second World War A new chapter was added which covers the post war decade from the end of the war to the announcement of the Sixth Year Plan

The Rise and Fall of the The Soviet Economy Philip Hanson, 2014-09-11 Why did the Soviet economic system fall apart Did the economy simply overreach itself through military spending Was it the centrally planned character of Soviet

socialism that was at fault Or did a potentially viable mechanism come apart in Gorbachev s clumsy hands Does its failure mean that true socialism is never economically viable The economic dimension is at the very heart of the Russian story in the twentieth century Economic issues were the cornerstone of soviet ideology and the soviet system and economic issues brought the whole system crashing down in 1989 91 This book is a record of what happened and it is also an analysis of the failure of Soviet economics as a concept Regional Development Oksana Dmitrieva,1996 A volume in the Changing Eastern Europe series this account of the long term functioning of an extreme regional policy framework is informed by economic and sociological field studies and statistical analysis by a leading Russian scholar **The Development Century** Stephen J. Macekura,Erez Manela,2018-09-06 Offers cutting edge perspectives on how international development has shaped the global history of the modern world *WORLD REGIONAL GEOGRAPHY. (PRODUCT ID 23958336).* CAITLIN. FINLAYSON,2019 **Planning in the Soviet Union** Judith Pallot,Denis J. B. Shaw,2021-12-24 Originally published in 1981 and based on the authors own research this book provides a comprehensive review of planning in the Soviet Union up until the early 1980s for both geographers and Soviet specialists Planning was particularly important in the Soviet Union since not only most spatial change but all economic planning was the product of a systematic socio political ideology Planning was therefore the key to understanding the Soviet economy society and spatial change When it was first published this was the first study in which the focus had been directed specifically at spatial planning in the Soviet Union in any systematic way

Planning in the Soviet Union Philippe J. Bernard,2013-10-22 Planning in the Soviet Union compiles the result of M Bernard s two month visit to the USSR in 1961 for the purpose of investigating regional planning on behalf of the French Government Planning Office This compilation deals with the Soviet planning apparatus including its organization and administration together with the reforms that have been at work since 1957 furnishing a broad outline of the many economic and social problems forming the essence of Soviet thinking and planning This book provides a very clear picture of the complexity of problems involved particularly with the USSR government battling with the concepts of centralization decentralization and in industry between a vertical and horizontal structure The topics that include economic growth investment location of industry transport manpower use of available local resources and migration are discussed only in broad outline of the magnitude of problems in the Soviet economic system The efficiency of investments choice of criteria problem of priorities productivity in highly integrated units rationalization specialization and cooperation are also deliberated in this selection This publication is intended for the average informed reader particularly those who are interested in administering the planning apparatus in the near future *Law And Economic Development In The Soviet Union* Peter B. Maggs,2019-03-04 In the past Soviet policymakers planners and jurists in their enthusiasm for economic and technological development devoted little attention to the often negative consequences of modernization New concerns however have become apparent in recent literature statutes and decrees In this book political scientists and experts on Soviet law address

many of those concerns analyzing the legal issues associated with economic modernization in the USSR The central themes of the book are the increasingly centralized nature of the policymaking process in the USSR and Eastern Europe and the marked tendency to rely on law as a principal mechanism for managing the undesirable consequences of scientific and technological progress The authors also assess the impact of the scientific technical revolution on Soviet East European relations and East West relations emphasizing the foreign policy consequences of increased financial and technological interdependence The study does not deal with narrow legalistic issues of technical progress rather its focus on policy questions reflects the inclination of Soviet and Eastern European governments to view those questions in terms of law and legislative activity and to see law as an instrument of social engineering

The Outlook for Regional Development in the Soviet Union David J. M. Hooson, 1972 *Developpement Regional en USSR*, 1979 *The Economic Development of the USSR* Roger Munting, 2023-06-14

The Economic Development of the USSR 1982 examines the economic advances the Soviet Union made as the first major economy to adopt full scale socialist planning It argues that the Soviet experience demonstrates that remarkable quantitative economic progress can be achieved but at a price which Western democracies would not tolerate Moreover while the planning and control mechanism of the USSR produced striking results in the case of agriculture it often failed to produce satisfactory results The book provides an impartial assessment of the merits and defects of the Soviet planning system which also served as a model for many other Communist countries
