Regional Security In Southeast Asia Beyond The Asean Way:

Regional Security in Southeast Asia Mely Caballero Anthony, 2005 The book examines ASEAN's mechanisms in managing challenges and threats to regional security. Its extensive analyses of the ASEAN story of managing regional security cover the different phases of ASEAN's development as a regional organization and explore the perceptible changes that have occurred in regional mechanisms of conflict management. The book also examines the roles of relevant actors beyond the states of ASEAN and the key interactions that have evolved over time which have been instrumental in moving regional mechanisms beyond the ASEAN way. The book argues that the ASEAN way has not been impervious to change. As the association finds its way through periods of crises and continues to confront the many challenges ahead, ASEAN and its mechanisms are already being transformed beyond the narrow confines of the modalities associated with the ASEAN way. The changes in the political and security landscape of the region as well as the democratic transitions taking place in some member states have set the stage for a much more dynamic set of regional actors and processes that bring into question the kind of regionalism that is now taking place in the region. The way regionalism is changing in Southeast Asia. **Hard Choices** Donald K Emmerson, 2009 The region's most powerful organisation ASEAN is being challenged to ensure security and encourage democracy while simultaneously reinventing itself as a model of Asian regionalism. Ten analysts from six countries address the pressing questions that Southeast Asia faces in the 21st century. Constructing a Security Community in Southeast Asia Amitav Acharya, 2001 This book contains the most comprehensive and critical account available of the evolution of The Association of Southeast Asian Nations (ASEAN) norms and the viability of the ASEAN way of conflict management. **Myanmar in ASEAN** Mya Than, 2005-01-05 Myanmar was admitted to ASEAN in 1997 despite an allegedly poor human rights record. This text discusses the formation and evolution of ASEAN with an overview of the political and economic development of Myanmar. It analyses the political security and economic impact and implications for Myanmar. Key ASEAN agreements are included for reference. *Regional Cooperation in South Asia and Southeast Asia* Kripa Sridharan, 2007 Provides a comparative sketch of regional cooperation in South and Southeast Asia in the light of various political, economic and social developments in the two regions. *Order and Security in Southeast Asia* Ralf Emmers, Joseph Liow, 2006-04-07 Michael Leifer, who died in 2001, was one of the leading scholars of Southeast Asian international relations. He was hugely influential through his extensive writings and his contacts with people in government and business in the region. In this book, many of Leifer's students, colleagues and friends come together to explore the key themes of his work on Southeast Asia, including the notion of order, security, maritime law and foreign policy. The book concludes with an overall assessment of Leifer's background, worldview and impact on his field. A scholarly and personal volume devoted to Leifer's vast contributions to the discipline of international relations, this text is a must-read for students and scholars specializing in the region. **Whose Ideas Matter?** Amitav Acharya, 2011-07-22 Asia is a crucial battleground for power and influence in

the international system It is also a theater of new experiments in regional cooperation that could redefine global order Whose Ideas Matter is the first book to explore the diffusion of ideas and norms in the international system from the perspective of local actors with Asian regional institutions as its main focus There s no Asian equivalent of the EU or of NATO Why has Asia and in particular Southeast Asia avoided such multilateral institutions Most accounts focus on U S interests and perceptions or intraregional rivalries to explain the design and effectiveness of regional institutions in Asia such as SEATO ASEAN and the ASEAN Regional Forum Amitav Acharya instead foregrounds the ideas of Asian policymakers including their response to the global norms of sovereignty and nonintervention Asian regional institutions are shaped by contestations and compromises involving emerging global norms and the preexisting beliefs and practices of local actors Acharya terms this perspective constitutive localization and argues that international politics is not all about Western ideas and norms forcing their way into non Western societies while the latter remain passive recipients Rather ideas are conditioned and accepted by local agents who shape the diffusion of ideas and norms in the international system Acharya sketches a normative trajectory of Asian regionalism that constitutes an important contribution to the global sovereignty regime and explains a remarkable continuity in the design and functions of Asian regional institutions

has boosted confidence The progress of SAARC is more evident in the less controversial areas of human security such as poverty alleviation health and safety human resources development and higher education Notwithstanding enthusiastic commitments reflected in agreements and action plans there is a gulf between rhetoric and implementation most notably in sensitive areas relating to traditional security In the light of the findings of this study the author proposes that greater cooperation in common human security areas has a potential to pave the way for a cooperation on issues of a contentious nature particularly terrorism

explicit incorporation of both private sector and civil society organisations into the policy processes In short ASEAN 3 is seeking to develop new norms and processes for its networks and institutions This book explores the pressures currently influencing East Asian regionalist policy debates analysing the trend towards deeper integration and the emergence of a governance model for managing regional processes Combining state and subnational perspectives in conjunction with an examination of the role of the business community and civil society organisations this book highlights the policy challenges confronting regionalism and governance in East Asia including key issues such as the rule of law financial cooperation and a case study on disaster management ASEAN and Regional Order Amitav Acharya, 2021-05-30 Founded in 1967 the Association of Southeast Asian Nations ASEAN has emerged as one of the most successful regional organizations in the world This book discusses the future of ASEAN against a backdrop of a growing US China rivalry and the security implications of COVID 19 Chapters in this book move through a history of ASEAN and its multilateral institutions including the ASEAN Regional Forum ARF and the East Asia Summit EAS featuring rare photographic material to contextualize both recent developments in regional security and projections for ASEAN's prospects Key concepts and terms are unpacked throughout with the chapters focusing on rapidly changing international and regional environments economic insecurities such as trade conflicts human rights and ASEAN identity and providing extensive analysis of the factors challenging the principle ASEAN Centrality and the Indo Pacific security architecture The concept of security community frames this book despite being subject to change if intraregional discord and institutional stagnation take hold As a discussion of the role and future of ASEAN in a pivotal period of world history ASEAN and Regional Order will prove vital to both students and scholars of international relations regional organizations and Asian studies more broadly The Asia-Pacific Security Lexicon David H. relations theory and Southeast Asian studies as well as policymakers and the media *The United Nations and the Regions* Philippe Lombaerde, Francis Baert, Tânia Felício, 2012-02-07 This unique book investigates the implications of the rising importance of supra national regional organizations for global governance in general and for the United Nations in particular It touches upon issues such as regional representation at the UN high level dialogues with regional organisations as well as the coordination of UN member states voting behaviour in the UN General Assembly and the UN Security Council The book further explores the regional dimension and coordination of UN operations in areas such as peace and security human rights and sustainable development The contributions to the book are both in depth chapters and shorter viewpoints written by a combination of academics policy makers at regional organizations and experts from international think tanks The book is essential reading for anyone interested in the future of global governance **Theorizing Southeast Asian Relations** Amitav Acharya, Richard Stubbs, 2013-10-31 The recent proliferation of theories of international relations has transformed analyses of Southeast Asia s international affairs A new generation of scholars has promoted a lively and illuminating debate which has seen the traditional realist neorealist approach which continues to hold centre stage challenged by constructivist analyses In turn constructivists have found themselves under fire from an array of competing approaches This collection engages this emerging debate It underscores the point that Southeast Asia is now an important site for applying new theories of international relations It also demonstrates that theoretical frameworks originally developed in North America and Europe have to be adapted to the specific circumstances found in places like Southeast Asia and that this process can enrich theory building The chapters in this book focus on the realist neorealist constructivist English School and critical approaches The resulting debate helps to shed light on ways of analysing Southeast Asian relations as well as on the evolution of these key theoretical frameworks This book was published as a special issue of The Pacific Review *The New ASEAN in Asia Pacific and Beyond* Shaun Narine, 2018 Traces ASEAN s political and economic development and explores its impact both within Southeast Asia and beyond **Constructing Global Order** Amitav Acharya, 2018-03-22 Examines how ideas of sovereignty and security from the non Western world contribute to order and change in world politics
