Aelred the Peacemaker Jean Truax, 2017 In addition to being a prolific spiritual writer and the abbot of the premier Cistercian monastery in northern England Aelred of Rievaulx somehow found the time and the stamina to travel extensively throughout the Anglo Norman realm acting as a mediator a problem solver and an adviser to kings His career spanned the troubled years of the civil war between King Stephen and the Empress Matilda and reached its zenith during the early years of the reign of Henry II In this work Jean Truax focuses on the public career of Aelred of Rievaulx placing him in his historical context deepening the reader's understanding of his work and casting additional light on his underappreciated role as politician mediator and negotiator outside his abbey's walls The State of the Church in the Reigns of Elizabeth and James I as Illustrated by Documents Relating to the Diocese of Lincoln Church of England. Diocese of Lincoln, 1926 *A History of Lincoln Minster* Dorothy Owen, 1994-04-14 This is an illustrated volume of specially commissioned studies of the history of the cathedral foundation of Lincoln which traces its historical development architectural evolution and musical history from its post Norman foundation to the present day The book synthesises the findings of modern scholarship and presents an important and comprehensible interdisciplinary survey for anyone interested in English cathedral history and architecture and above all for anyone who visits or frequents this great landmark of England's heritage *Miscellanies - The Jewish Historical Society of England* Jewish Historical Society of England, 1925 The Registrum Antiquissimum of the Cathedral Church of Lincoln Lincoln Record Society, 1945 *Excommunication in Thirteenth-Century England* Felicity Hill, 2022-05-12 Excommunication was the medieval church's most severe sanction used against people at all levels of society It was a spiritual social and legal penalty Excommunication in Thirteenth Century England offers a fresh perspective on medieval excommunication by taking a multi dimensional approach to discussion of the sanction Using England as a case study Felicity Hill analyzes the intentions behind excommunication how it was perceived and received at both national and local level the effects it had upon individuals and society The study is structured thematically to argue that our understanding of excommunication should be shaped by how it was received within the community as well as the intentions of canon law and clerics Challenging past assumptions about the inefficacy of excommunication Hill argues that the sanction remained a useful weapon for the clerical elite bringing into dialogue a wide range of source material allows effectiveness to be judged within a broader context The complexity of political communication and action are revealed through public conflicting accepted and rejected excommunications Excommunication could be manipulated to great effect in political conflicts and was an important means by which political events were communicated down the social strata of medieval society Through its exploration of excommunication the book reveals much about medieval cursing pastoral care fears about the afterlife social ostracism

shame and reputation and mass communication The Publications of the Lincoln Record Society ,1929 **The Engineering of Medieval Cathedrals** Lynn T. Courtenay,2016-12-05 The great cathedrals and churches of the medieval West continue to awe How were they built and why do they remain standing What did their builders know about what they were doing These questions have given rise to considerable controversy which is fully reflected in the papers selected here The first section of the book is concerned with the medieval builders and their design methods the second focuses on engineering issues in the context of the infamous collapse of the choir at Beauvais in 1284 The following papers extend the analysis into the 15th century looking for example at Brunelleschi s dome for Florence Cathedral and deal with the often neglected structures of roofs towers and spires *Episcopal Appointments in England, c. 1214-1344* Katherine Harvey,2016-05-13 In 1214 King John issued a charter granting freedom of election to the English Church henceforth cathedral chapters were theoretically to be allowed to elect their own bishops with minimal intervention by the crown Innocent III confirmed this charter and in the following year the right to electoral freedom was restated at the Fourth Lateran Council In consequence under Henry III and Edward I the English Church enjoyed something of a golden age of electoral freedom during which the king might influence elections but ultimately could not control them Then during the reigns of Edward II and Edward III papal control over appointments was increasingly asserted and from 1344 onwards all English bishops were provided by the pope This book considers the theory and practice of free canonical election in its heyday under Henry III and Edward I and the nature of and reasons for the subsequent transition to papal provision An analysis of the theoretical evidence for this subject including canon law royal pronouncements and Lawrence of Somercote s remarkable 1254 tract on episcopal elections is combined with a consideration of the means by which bishops were created during the reigns of Henry III and the three Edwards The changing roles of the various participants in the appointment process including but not limited to the cathedral chapter the king the papacy the archbishop and the candidate are given particular emphasis In addition the English situation is placed within a European context through a comparison of English episcopal appointments with those made in France Scotland and Italy Bishops were central figures in medieval society and the circumstances of their appointments are of great historical importance As episcopal appointments were also touchstones of secular ecclesiastical relations this book therefore has significant implications for our understanding of church state interactions during the thirteenth and fourteenth centu *Miscellanies* ,1925 Durham, 1153-1195 M. G. Snape,2002 The latest volume of *Acta* presents 75 Latin texts with notes that record the charters of Hugh of le Puiset Bishop of Durham from 1153 1195 The introduction also serves Volume 25 which will cover the years 1196 1237 and includes discussions of the households of all four bishops who held office between 1153 and 1237 and the types of *Acta* featured **Law as Profession and Practice in Medieval Europe** Ms Melodie Harris Eichbauer,Professor Kenneth Pennington,2013-07-28 This volume brings together papers by a group of scholars distinguished in their own right in honour of James Brundage The essays are

organised into four sections each corresponding to an important focus of Brundage's scholarly work. The first section explores the connection between the development of medieval legal and constitutional thought. Thomas Izbicki, Kenneth Pennington and Charles Reid Jr explore various aspects of the jurisprudence of the *Ius commune* while James Powell, Michael Gervers and Nicole Hamonic, Olivia Robinson and Elizabeth Makowski examine how that jurisprudence was applied to various medieval institutions. Brian Tierney and James Muldoon conclude this section by demonstrating two important points: modern ideas of consent in the political sphere and fundamental principles of international law attributed to sixteenth-century jurists like Hugo Grotius have deep roots in medieval jurisprudential thought. Patrick Zutshi, R. H. Helmholz, Peter Landau, Marjorie Chibnall and Edward Peters have written essays that augment Brundage's work on the growth of the legal profession and how traces of a legal education began to emerge in many diverse arenas. The influence of legal thinking on marriage and sexuality was another aspect of Brundage's broad interests. In the third section, Richard Kay, Charles Donahue Jr and Glenn Olsen explore the intersection of law and marriage and the interplay of legal thought on a central institution of Christian society. The contributions of Jonathan Riley-Smith and Robert Somerville in the fourth section round out the volume and are devoted to Brundage's path-breaking work on medieval law and the crusading movement. The volume also includes a comprehensive bibliography of Brundage's work.

Simon de Montfort J. R. Maddicott, 1996-06-20. Partly a study of the politics of Henry III's reign 1216-72, this study looks at Simon de Montfort's lands, finances, following and religious ideals. It draws on unusual sources, making his biography as much a study of temperament and character as a political career.

Kings, Barons and Justices Paul Brand, 2003-08-07. This book is a study of two important and related pieces of thirteenth-century English legislation: the Provisions of Westminster of 1259 and the Statute of Marlborough of 1267, and is the first on any of the statutes of this period of major legislative change.

Deeds of the Abbots of St Albans James G. Clark, 2019. The Deeds of the abbots of St Albans records the history of one of the most important abbeys in England, closely linked to the royal family and home to a school of distinguished chroniclers including Matthew Paris and Thomas Walsingham. It offers many insights into the life of the monastery, its buildings and its role as a maker of books, and covers the period from the Conquest to the mid-fifteenth century. The Deeds of the abbots of St Albans is the longest continuous chronicle of a medieval monastery in England, following its fortunes from its first foundation in the wake of the first Viking raids to its status as a proud and prosperous pillar of the church establishment more than six centuries later. More than merely a common conventual annal, the Deeds drew contributions from the most accomplished chroniclers of the St Albans school, including Matthew Paris, Thomas Walsingham and perhaps William Rishanger. It is a history of one of the most important abbeys under royal patronage and always at the apex of the church hierarchy; it also offers a glimpse of life inside the monastic community from the Conquest to within a century of the Dissolution. There are detailed descriptions of the building and rebuilding of the abbey church and recounts the abbey's commitment to the making of books from the first flowering of the scriptorium in the

twelfth century when a famous psalter was made for the anchorite Christina of Markyate to its Indian summer in the years before 1400 under Thomas Walsingham himself There are rare snapshots of the daily routine of the monks their liturgical observances their interactions with their staff tenants townspeople and guests And it captures the colour and character of the celebrated figures seen at the abbey from King John to Edward the Black Prince **Thirteenth Century England III: Proceedings of the Newcastle Upon Tyne Conference 1989** Simon D. Lloyd, Peter R. Coss, 1991 Thirteen papers from the 1989 Newcastle upon Tyne conference The Origins of Open Field Agriculture Trevor Rowley, 2019-06-26 Originally published in 1981 The Origins of Open Field Agriculture looks at the problems connected with open field agriculture the origins of strip cultivation the three field system the adaptation of Celtic fields and the development of ploughing techniques The book looks at the challenges to traditional ideas on the origins of settlement and their associated economy and casts new light on understandings of village development The book suggests that conventional views of the nucleated village in the midst of open field strips as a product of the Anglo Saxon migration is no longer tenable The book brings together the work of distinguished archaeologists historians and historical geographers and opens up a new perspective on the early development of medieval agriculture
