The Registrum Antiquissimum of the Cathedral Church of Lincoln Lincoln Cathedral, 1953 The Registrum Antiquissimum of the Cathedral Church of Lincoln Lincoln Cathedral, 1973 Miscellanies , 1925 Miscellanies - The Jewish Historical Society of England Jewish Historical Society of England, 1925 **The Medieval English Landscape, 1000-1540** Graeme J. White, 2012-09-06 The landscape of medieval England was the product of a multitude of hands While the power to shape the landscape inevitably lay with the Crown the nobility and the religious houses this study also highlights the contribution of the peasantry in the layout of rural settlements and ridge and furrow field works and the funding of parish churches by ordinary townsfolk The importance of population trends is emphasised as a major factor in shaping the medieval landscape the rising curve of the eleventh to thirteenth centuries imposing growing pressures on resources and the devastating impact of the Black Death leading to radical decline in the fourteenth century Opening with a broad ranging analysis of political and economic trends in medieval England the book progresses thematically to assess the impact of farming rural settlement towns the Church and fortification using many original case studies The concluding chapter charts the end of the medieval landscape with the dissolution of the monasteries the replacement of castles by country houses the ongoing enclosure of fields and the growth of towns The Archaeology of the Lower City and Adjacent Suburbs Jenny Mann, Alan Vince, Jane Young, 2016-04-30 This volume contains reports on excavations undertaken in the lower walled city at Lincoln which lies on sloping ground on the northern scarp of the Witham gap and its adjacent suburbs between 1972 and 1987 and forms a companion volume to LAS volumes 2 and 3 which cover other parts of the historic city The earliest features encountered were discovered both near to the line of Ermine Street and towards Broadgate Remains of timber storage buildings were found probably associated with the Roman legionary occupation in the later 1st century AD The earliest occupation of the hillside after the foundation of the colonia towards the end of the century consisted mainly of commercial premises modest residences and storage buildings It seems likely that the boundary of the lower enclosure was designated before it was fortified in the later 2nd century with the street pattern belonging to the earlier part of the century Larger aristocratic residences came to dominate the hillside with public facilities fronting on to the line of the zigzagging main route In the 4th century the fortifications were enlarged and two new gates inserted Examples of so called Dark Earth deposits were here dated to the very latest phases of Roman occupation Elements of some Roman structures survived to be reused in subsequent centuries There are hints of one focus in the Middle Saxon period in the area of St Peter s church but occupation of an urban nature did not recommence until the late 9th century with the first phases of Anglo Scandinavian occupation recorded here Sequences of increasingly intensive occupation from the 10th century were identified with plentiful evidence for industrial activity including pottery metalworking and other crafts as well as parish churches Markets were established in the 11th century and stone began to replace timber for residential structures from the mid 12th century with

clear evidence of the quality of some of the houses With the decline in the city s fortunes from the late 13th century the fringe sites became depopulated and there was much rebuilding elsewhere including some fine new houses There was a further revival in the later post medieval period but much of the earlier fabric and surviving stretches of Roman city wall were swept away in the 19th century Ancestral Roots of Certain American Colonists who Came to America Before 1700 Frederick Lewis Weis,1992 A Brotherhood of Canons Serving God David Lepine,1995 A study of the lives of cathedral clergy in the middle ages The Acts and Letters of the Marshal Family David Crouch,2015-08-20 The surviving documents of the Marshals the most powerful magnate dynasty in thirteenth century England Ireland and Wales **Simon de Montfort** J. R. Maddicott,1996-06-20 Partly a study of the politics of Henry III s reign 1216-72 this study looks at Simon de Montfort s lands finances following and religious ideals It draws on unusual sources making his biography as much a study of temperament and character as a political career Bishop and Chapter in Twelfth-Century England Everett U. Crosby,2003-10-30 This book is the first detailed examination on a comparative basis of the economic and political relations between the bishops and their cathedral clergy in England during the century and a half after the Conquest In particular it is a study of the structure and historical development of the mensal endowments and the redistribution of wealth which led in the course of time to the establishment of the chapter as a largely independent body with substantial political power A description of the constitutional importance of the mensa and its treatment in recent scholarly writing is followed by a discussion of property rights and liberties in the church and the role of the bishop in ecclesiastical and civil government The core of the book consists of an analysis based on contemporary sources of the episcopal and capitular organisation in each of the ten monastic and seven secular sees The Clergy in the Medieval World Julia Barrow,2015-01-15 The first broad ranging social history in English of the medieval secular clergy **Plantagenet Ancestry: A Study In Colonial And Medieval Families, 2nd Edition, 2011** , **Singing the New Song** Katherine Zieman,2008-02 Differing from previous studies by changing the focus from writing to reading this examination of the institutions and practices of the liturgy places them as central to changes in late medieval English understandings of the written word Urban Archaeology in Britain John Schofield,Roger Leech,1987 **Boston, Lincolnshire** John Minnis,Katie Charmichael,Clive Fletcher,Mary Anderson,2015-11-15 This book examines the history of Boston in Lincolnshire as reflected in its buildings and townscape from medieval times to the present day Boston has a position as an important market from medieval times and as a major port with links with Europe and America The homes and warehouses of its citizens show the evidence of this Boston s religious and public buildings are discussed and its physical expansion throughout the 19th and into the 20th century are examined Other important influences on the town s development include fen drainage the role of agriculture and manufacturing and transport links Bringing the story up to date problems created by the town s remoteness from large centres of population a low wage agricultural economy and the impact of 1970s redevelopment are discussed where they

have affected the physical appearance of the town A final chapter looks at how successful regeneration projects have been in Boston and how these can be built upon to promote a more prosperous future for the town that recognises the important role heritage can play in achieving it

Adrian IV The English Pope (1154-1159) Brenda Bolton, Anne J. Duggan, 2017-05-15 The year 2000 witnessed the 900th anniversary of the birth of Adrian IV the only Englishman to sit on the papal throne His short pontificate of four and a half years distracted by crisis and controversy and followed as it was by an 18 year schism could be judged a low point in the history of the papacy The studies in this book challenge the view that Adrian was little more than a cipher the tool of powerful factions in the Curia This is the first large scale work on Adrian since 1925 and is supported by a substantial appendix of relevant sources and documents in facing translation Relations with the Empire the Norman kingdom and the Patrimony are all radically reassessed and the authenticity of *Laudabiliter* reconsidered At the same time the spiritual educational and devotional contexts in which he was operating are fully assessed his activities in Catalonia and his legatine mission to Scandinavia are examined in the light of recent research and his special relationship with St Albans is explored through his privileges to this great abbey These studies by leading scholars in the field together with the introductory chapter by Christopher Brooke reveal an active and engaged pope reacting creatively to the challenges and crises of the Church and the world

The English and the Normans Hugh M. Thomas, 2003-04-10 Since the Anglo Norman period itself the relations between the English and the Normans have formed a subject of lively debate For most of that time however complacency about the inevitability of assimilation and of the Anglicization of Normans after 1066 has ruled This book first challenges that complacency then goes on to provide the fullest explanation yet for why the two peoples merged and the Normans became English Drawing on anthropological theory the latest scholarship on Anglo Norman England and

sources ranging from charters and legal documents to saints lives and romances it provides a complex exploration of ethnic relations on the levels of personal interaction cultural assimilation and the construction of identity As a result the work provides an important case study in pre modern ethnic relations that combines both old and new approaches and sheds new light on some of the most important developments in English history Henry I (Penguin Monarchs) Edmund King,2018-07-26 To be a medieval king was a job of work This was a man who knew how to run a complex organization He was England s CEO The youngest of William the Conqueror s sons Henry I came to unchallenged power only after two of his brothers died in strange hunting accidents and he had imprisoned the other He was destined to become one of the greatest of all medieval monarchs both through his own ruthlessness and through his dynastic legacy Edmund King s engrossing portrait shows a strikingly charismatic intelligent and fortunate man whose rule was looked back on as the real post conquest founding of England as a new realm wealthy stable bureaucratised and self confident
