Regulating Law:

Comparative Environmental Law and Regulation Nicholas A. Robinson, Elizabeth Burleson (LL. M.), Lin Heng Lye, 1996 Regulatory Law and Policy Sidney A. Shapiro, Joseph P. Tomain, 1998 This book's central theme is the conception that the practice of regulatory law involves the interrelationship of law policy analysis politics It explores regulatory decisionmaking but unlike the traditional coursebook in administrative law it focuses on the substance of government regulation Teacher's Manual available **International Banking Law and Regulation** Dennis Campbell, Center for International Legal Studies, 2000 A comprehensive resource on International Banking Law and regulation *Law as Punishment / Law as Regulation* Austin Sarat, Lawrence Douglas, Martha Merrill Umphrey, 2011-08-29 Law depends on various modes of classification How an act or a person is classified may be crucial in determining the rights obtained the procedures employed and what understandings get attached to the act or person Critiques of law often reveal how arbitrary its classificatory acts are but no one doubts their power and consequence This crucial new book considers the problem of law's physical control of persons and the ways in which this control illuminates competing visions of the law as both a tool of regulation and an instrument of coercion or punishment It examines various instances of punishment and regulation to illustrate points of overlap and difference between them and captures the lived experience of the state's enterprise of subjecting human conduct to the governance of rules Ultimately the essays call into question the adequacy of a view of punishment and or regulation that neglects the perspectives of those who are at the receiving end of these exercises of state power *Regulating Content on Social Media* Corinne Tan, 2018-03-26 How are users influenced by social media platforms when they generate content and does this influence affect users compliance with copyright laws These are pressing questions in today's internet age and *Regulating Content on Social Media* answers them by analysing how the behaviours of social media users are regulated from a copyright perspective Corinne Tan an internet governance specialist compares copyright laws on selected social media platforms namely Facebook Pinterest YouTube Twitter and Wikipedia with other regulatory factors such as the terms of service and the technological features of each platform This comparison enables her to explore how each platform affects the role copyright laws play in securing compliance from their users Through a case study detailing the content generative activities undertaken by a hypothetical user named Jane Doe as well as drawing from empirical studies the book argues that in spite of copyright's purported regulation of certain behaviours users are nudged by the social media platforms themselves to behave in ways that may be inconsistent with copyright laws Praise for *Regulating Content on Social Media* This book makes an important contribution to the field of social media and copyright It tackles the real issue of how social media is designed to encourage users to engage in generative practices in a sense effectively seducing users into practices that involve misuse or infringement of copyright whilst simultaneously normalising such practices Melissa de Zwart Dean of Law Adelaide Law School Australia This timely and accessible book examines the

regulation of content generative activities across five popular social media platforms Facebook Pinterest YouTube Twitter and Wikipedia Its in depth critical and comparative analysis of the platforms growing efforts to align terms of service and technological features with copyright law should be of great interest to anyone studying the interplay of law and new media Peter K Yu Director of the Center for Law and Intellectual Property Texas A M University **Food Regulation** Neal D.
