Regulating Womanhood Reproduction And Motherhood:

Regulating Womanhood Carol Smart, 2002-09-11 Sexuality motherhood and marriage were matters of public policy throughout the nineteenth and early twentieth centuries They were prominent areas in the regulation of women but the idea that the law merely reflected what was normal and natural obscured the extent of this regulation Regulating Womanhood poses historically and culturally specific questions about the mechanisms that have controlled and restricted women It shows not merely how laws and policies have set boundaries to the lives of women but also how the category of woman has been constructed as a specific object for legal and social policy and how women came to be seen as needing special regulation In addition Regulating Womanhood explores how children and the organisation of reproduction and sexuality operated to normalise and make acceptable the degree of regulation to which women were subjected Yet this is not a catalogue of the unmitigated subjection of women in history The contributors focus on women's resistance and activity and on the shift in modes of regulation to challenge the idea of an unchanging history of the legal oppression of women Regulating Womanhood Carol Smart, 2002 *Reproductive Health and Maternal Sacrifice* Pam Lowe, 2016-06-29 This book demonstrates that the symbol of maternal sacrifice is the notion that proper women put the welfare of children whether born in utero or not conceived over and above any choices and desires of their own The idea of maternal sacrifice acts as powerful signifier in judging women's behaviour that goes beyond necessary care for any children The book traces its presence in various aspects of reproductive health from contraception to breastfeeding Pam Lowe shows how although nominally choices are presented to women around reproductive health maternal sacrifice is used to discipline women into conforming to specific norms reasserting traditional forms of womanhood This has significant implications for women's autonomy Women can resist or reject this disciplinary position when making reproductive decisions but in doing so they may be positioned as transgressing and or need to justify their decisions The book will be of great interest to scholars of sociology gender studies and health studies **Motherhood and Choice** Amrita Nandy, 2017-10-02 How can women live fully If autonomy is critical for humans why do women have little or no choice vis vis motherhood Do women know they have a choice if they do How free are these choices in a context where the self is socially mired and deeply enmeshed into the familial What are implications of motherhood on how human relatedness and belonging are defined These questions underlie Amrita Nandy's remarkable research on motherhood as an institution one that conflates woman with mother and personal with political As the bedrock of human survival and an unchallenged norm of normal female lives motherhood expects and even compels women to be mothers symbolic and corporeal Even though the ideology of pronatalism and motherhood reinforce reproductive technology and vice versa the care work of mothering suffers political neglect and economic devaluation However motherhood and non motherhood is not just physiological As the pivot to a web of heteronormative institutions such as marriage and the family motherhood bears an overwhelming and decisive influence on women's lives Against the weight of traditional and

contemporary histories socio political discourse and policies this study explores how women as embodiments of multiple identities could live stigma free authentic lives without having to abandon reproductive self determination Published by Zubaan Sourcebook on Feminist Jurisprudence Hilaire Barnett,2012-10-02 This book is a comprehensive analysis of the relationship between feminist theories and the law and the way in which developments of the former have affected and been affected by the latter The book takes as its starting point a study of women and culture on an international level which demonstrates how religious and cultural influences have been fundamental in establishing contemporary legal and social mores This provides the setting for an investigation into legal and social discrimination and inequality and how this has been addressed by the emergence of feminism A number of critiques and developments are examined **Reproductive**

Restraints Sanjam Ahluwalia,2010-10-01 Reproductive Restraints traces the history of contraception use and population management in colonial India while illuminating its connection to contemporary debates in India and birth control movements in Great Britain and the United States Sanjam Ahluwalia draws attention to the interactive and relational history of Indian birth control by including western activists such as Margaret Sanger and Marie Stopes alongside important Indian campaigners In revealing the elitist politics of middle class feminists Indian nationalists western activists colonial authorities and the medical establishment Ahluwalia finds that they all sought to rationalize procreation and regulate women while invoking competing notions of freedom femininity and family Ahluwalia s remarkable interviews with practicing midwives in rural northern India fills a gaping void in the documentary history of birth control and shows that the movement has had little appeal to non elite groups in India Finding that Jaunpuri women s reproductive decisions are bound to their emotional cultural and economic reliance on family and community Ahluwalia presents the limitations of universal liberal feminist categories which often do not consider differences among localized subjects She argues that elitist birth control efforts failed to account for Indian women s values and needs and have worked to restrict reproductive rights rather than liberate subaltern Indian women since colonial times Married, Middlebrow, and Militant Teresa Mangum,1998 Examines the life

and work of this daring nineteenth century author and women s rights advocate Sex Acts Jennifer M. Harding,1998-09-24 This interdisciplinary work identifies a series of key issues in discourses on sexuality essentialism versus construction gender and sexuality concepts of identity Foucault s notion of discourse and Butler s theory of gender performance **The**

Illusions Of Post-Feminism Vicki Coppock,Deena Haydon,Ingrid Richter,2014-09-03 First Published in 1995 As feminists reflect on the impact of the second wave of feminism and assess the gains of the last thirty years invariably they have questioned whether claims that women have achieved equality are justified In the late 1980s there was a proliferation of popular imagery of new men and post feminist women with the concept of post feminism reinforcing and emphasizing the differences between independent upwardly mobile career orientated women and those women who choose the more natural role of wife and mother The Illusions of Post Feminism New Women Old Myths maintains that post feminism is a myth

Through in depth interviews with women about four major areas of their lives education work the media and the family the authors challenge and expose the myths implicit in the concept of post feminism The research illustrates that women s discontent continues despite the assumption that gender equality would result from equal opportunities legislation The chapters highlight the ineffective nature of liberal reformism and demonstrate how power relations still lie at the root of the oppression of women With its provoking and challenging analysis this revealing book breaks the silence of women s real experiences by showing the actuality of women s lives today

Abuse, Power and Fearful Obedience Jennifer G. Bird,2013-05-01

Jennifer G Bird analyzes the construction of wives subjectivity in 1 Peter working primarily with what is referred to as the Haustafel household code section and engaging feminist critical questions postcolonial theory and materialist theory in her analysis Bird examines the two crucial labels for understanding Petrine Christian identity aliens and refugees and royal priesthood and holy nation And finds them to stand in stark contrast with the commands and identity given to wives in the Haustafel section Similarly the command to honour the Emperor which immediately precedes the Haustafel engenders a rich discussion of the text's socio political implications The critical engagement of several symptomatic irruptions within the commands to the wives uncovers the abusive dynamic underlying this section of the letter Finally Bird considers the present day implications of her study Publisher description *A Woman's Right to Know* Jesse Olszynko-Gryn, 2024-06-11 The history of pregnancy testing and how it transformed from an esoteric laboratory tool to a commonplace of everyday life Pregnancy testing has never been easier Waiting on one side or the other of the bathroom door for a positive or negative result has become a modern ritual and rite of passage Today the ubiquitous home pregnancy test is implicated in personal decisions and public debates about all aspects of reproduction from miscarriage and abortion to the biological clock and IVF Yet only three generations ago women typically waited not minutes but months to find out whether they were pregnant *A Woman's Right to Know* tells for the first time the story of pregnancy testing one of the most significant and least studied technologies of reproduction Focusing on Britain from around 1900 to the present day Jesse Olszynko Gryn shows how demand shifted from doctors to women and then goes further to explain the remarkable transformation of pregnancy testing from an obscure laboratory service to an easily accessible though fraught tool for every woman Lastly the book reflects on resources the past might contain for the present and future of sexual and reproductive health Solidly researched and compellingly argued Olszynko Gryn demonstrates that the rise of pregnancy testing has had significant and not always expected impact and has led to changes in the ways in which we conceive of pregnancy itself *Infanticide* Mark Jackson, 2018-10-24 The history of infanticide from the 16th through to the late 20th century is the subject of this volume Collectively the contributions explore how the concealment of pregnancy birth and death particularly by unmarried women became a central preoccupation of witnesses doctors courts and legislatures concerned with suspicious infant deaths While the emphasis is upon Britain original and stimulating accounts of infanticide accusations and trials in France Germany and South Africa provide compelling comparative analyses Presenting a series of case studies successive chapters expose striking continuities across both time and space in the social history of infanticide Clearly written focusing on a range of original cases and documents and addressing critical historiographical questions *Infanticide* will be invaluable to historians and students researching the social history of medicine law crime and gender In addition it will appeal to lawyers doctors and others interested in understanding the historical roots of modern debates about infanticide *Criminalized Mothers, Criminalizing Mothering* Joanne Minaker, 2015-02-01 As the fastest growing prison population worldwide more and more

women are living in cages and most of them are mothers This alarming trend has huge ramifications for women children and communities across the globe Empathy for mothers behind bars and concern for criminalized mothers in the community is in short supply Mothers are criminalized for their vulnerabilities and for making unpopular but difficult choices under material and ideological conditions not of their own choosing Criminalized Mothers Criminalizing Mothering shines a spotlight on mothers who are by law or social regulation criminalized and examines their troubles and triumphs This book offers a critical and compassionate lens on social in justice mass incarceration and collective miseries women experience i e economic inequality gendered violence devalued care work lone parenting etc This book is also about mothers encounters with systems of control confinement and criminalization but also their experiences of care **Binding Men** Lois S. Bibbings, 2014-03-26 Binding Men tells stories about men violence and law in late Victorian England It does so by focusing upon five important legal cases all of which were binding not only upon the males involved but also upon future courts and the men who appeared before them The subject matter of Prince 1875 Coney 1882 Dudley and Stephens 1884 Clarence 1888 and Jackson 1891 ranged from child abduction prize fighting murder and cannibalism to transmitting gonorrhoea and the capture and imprisonment of a wife by her husband Each case has its own chapter depicting the events which led the protagonists into the courtroom the legal outcome and the judicial pronouncements made to justify this as well as exploring the broader setting in which the proceedings took place In so doing Binding Men describes how a particular case can be seen as being a part of attempts to legally limit male behaviour The book is essential reading for scholars and students of crime criminal law violence and gender It will be of interest to those working on the use of narrative in academic writing as well as legal methods Binding Men s subject matter and accessible style also make it a must for those with a general interest in crime history and in particular male criminality **Families and Social Workers** Pat Starkey, 2000-01-01 Families and Social Workers examines the origins development and impact of Family Service Units FSU a voluntary social work agency that during the post war period exercised an influence on the development of social work practice and training out of all proportion to its size and resources Originating in the activities of conscientious objectors in Liverpool Manchester and Stepney during the Second World War FSU s innovative methods of working with poor families led to the establishment of units in towns and cities throughout Britain This study shows how FSU met the challenges and opportunities presented by the introduction of state run social services evaluates its successes and failures in terms of the aims that units set themselves and examines the conflicts that arose between FSU s commitment to independence and innovation and its dependence on local authority funding **Bad Mothers: Regulations, Representatives and Resistance** Hughes Michelle Miller, 2017-03-01 While the image or construct of the good mother has been the focus of many research projects the bad mother as a discursive construct and also mothers who do bad things as complicated agentic social actors have been quite neglected despite the prevalence of the image of the bad mother across late modern societies The few researchers who

address this powerful social image point out that bad mothers are culturally identified by what they do yet they are also socially recognized by who they are Mothers become potentially bad when they behave or express opinions that diverge from or challenge social or gender norms or when they deviate from mainstream white middle class heterosexual nondisabled normativity When suspected of being bad mothers women are surveilled and may be disciplined punished or otherwise excluded by various official agents i e legal medical and welfare institutions as well as by their relatives friends and communities Too often women are judged and punished without clear evidence that they are neglecting or abusing their children Frequently they are blamed for the marginal sociocultural context in which they are mothering This anthology presents empirical theoretical and creative works that address the construct of the bad mother and the lived realities of mothers labeled as bad Throughout the volume the editors consider voices and acts of resistance to bad mother constructions demonstrating that mothers across time and across domains have individually and collectively taken a stand against this destructive label
