## **Regule The Rule And Summa The Summa:**

**Regule** Robertus de Handlo,1991-01-01 The Regule of Robertus de Handlo and the Summa of Johannes Hanboys are among the few major texts of medieval English music theory The first directly influenced the latter and both deal with unique notational practices found in English music of the fourteenth century These two texts were edited by Edmon de Coussemaker in the nineteenth century in editions that have come to be recognized as seriously deficient Now Peter M Lefferts has paired them in a new critical edition that is far superior in its accuracy and scholarly underpinnings The Regule of 1326 provides one of the two most comprehensive views of late ars antiqua notational developments Handlo takes as his point of departure the first part on notation of one of those widely circulated abbreviated versions of the teachings of Franco of Cologne that begin in most sources with the motto Gaudent brevitare moderni The Summa of Hanboys written around 1375 takes Handlo as a point of departure and incorporates an abbreviated redaction of the Regule along with citations of other later English authorities into an exhaustively systematic survey of ars nova forms and rests Building on a line of development in English theory Hanboys expanded the mensural system to a total of eight figures For this edition Lefferts has thoroughly reexamined edited and appraised the single extant source of each treatise Full descriptions of these sources are provided and the documents are illustrated with a plate from each Each treatise is presented in its original Latin with a fully annotated translation on facing pages Leffert s introduction discusses the authors places the treatise in the context of the theoretical traditions of fourteenth century France and England and reviews their contents in detail Indexes of terms names and subjects are included Appendixes provide a concordance to the music examples from the Regule that recur in the Summa and transcriptions of two English motet fragments that exhibit insular notational practices discussed in the treatises Leffert s work will be seen as a major contribution to our understanding of medieval English music

Piers Plowman and the Reinvention of Church Law in the Late Middle Ages Arvind Thomas,2019-03-14 It is a medieval truism that the poet meddles with words the lawyer with the world But are the poet s words and the lawyer s world really so far apart To what extent does the art of making poems share in the craft of making laws and vice versa Framed by such questions Piers Plowman and the Reinvention of Church Law in the Late Middle

Ages examines the mutually productive interaction between literary and legal makynys in England's great Middle English poem by William Langland Focusing on Piers Plowman's preoccupation with wrongdoing in the B and C versions Arvind Thomas examines the versions representations of trials confessions restitutions penalties and pardons Thomas explores how the literary informs and transforms the legal until they finally cannot be separated Thomas shows how the poem's narrative voice metaphor syntax and style not only reflect but also act upon properties of canon law such as penitential procedures and authoritative maxims Langland's mobilization of juridical concepts Thomas insists not only engenders a poetics informed by canonist thought but also expresses an alternative vision of canon law from that proposed by medieval jurists and today's medievalists *Procedure and Evidence Relating to Indictable Offences, and Certain Rules and Maxims of the Criminal Law* Samuel Prentice, 1882 *A New and Copious Lexicon of the Latin Language* Frederick Percival Leverett, 1842 *French Motets in the Thirteenth Century* Mark Everist, 2004-11-11 This is the first full length study of the vernacular motet in thirteenth century France The motet was the most prestigious type of music of that period filling a gap between the music of the so called Notre Dame School and the Ars Nova of the early fourteenth century This book takes the music and the poetry of the motet as its starting point and attempts to come to grips with the ways in which musicians and poets treated pre existing material creating new artefacts The book reviews the processes of texting and retexting and the procedures for imparting structure to the works it considers the way we conceive genre in the thirteenth century motet and supplements these with principles derived from twentieth century genre theory The motet is viewed as the interaction of literary and musical modes whose relationships give meaning to individual musical compositions **Code of Federal Regulations**, 1993 Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries **Regula placitandi.
