Psychosocial Aspects of Disability Irmo Marini, PhD, DSc, CRC, CLCP, Noreen M. Graf, RhD, CRC, Michael J. Millington, PhD, CRC, 2011-07-27

What a marvelous and amazing textbook Drs Marini Glover Graf and Millington have done a remarkable job in the design of this highly unique book that comprehensively and very thoughtfully addresses the psychosocial aspects of the disability experience These highly respected scholars have produced a major work that will be a central text in rehabilitation education for years to come From the Foreword by Michael J Leahy Ph D LPC CRC Office of Rehabilitation and Disability Studies Michigan State University This is an excellent book but the best parts are the stories of the disabled which give readers insights into their struggles and triumphs Score 94 4 Stars Doody's Medical Reviews What are the differences between individuals with disabilities who flourish as opposed to those who never really adjust after a trauma How are those born with a disability different from individuals who acquire one later in life This is the first textbook about the psychosocial aspects of disability to provide students and practitioners of rehabilitation counseling with vivid insight into the experience of living with a disability It features the first person narratives of 16 people living with a variety of disabling conditions which are integrated with sociological and societal perspectives toward disability and strategies for counseling persons with disabilities Using a minority model perspective to address disability the book focuses on historical perspectives cultural variants regarding disability myths and misconceptions the attitudes of special interest and occupational groups the psychology of disability with a focus on positive psychology and adjustments to disability by the individual and family A wealth of counseling guidelines and useful strategies are geared specifically to individual disabilities Key Features Contains narratives of people living with blindness hearing impairments spinal cord injuries muscular dystrophy polio mental illness and other disabilities Provides counseling guidelines and strategies specifically geared toward specific disabilities including dos and don'ts Includes psychological and sociological research relating to individual disabilities Discusses ongoing treatment issues and ethical

dilemmas for rehabilitation counselors Presents thought provoking discussion questions in each chapter Authored by prominent professor and researcher who became disabled as a young adult      **Handbook of Crisis Counseling, Intervention, and Prevention in the Schools** Jonathan H. Sandoval,2001-10 Featuring new chapters on bullying sexual assault natural disasters eating disorders and cultural considerations the second edition of this highly popular Handbook provides a one stop reference for mental health professionals who face a bewildering variety of school based crises Key features include a focus on both prevention and intervention and ongoing discussions of the research that underlies best practice Like the first edition chapters follow a parallel structure that includes the incidence prevalence and impact of the crisis theories regarding precipitating factors discussion of who is at risk for encountering the crisis primary prevention activities methods of working with high risk clients developmentally appropriate methods and intervention activities for individuals and developmentally appropriate methods and activities for groups The result is an unusually coherent volume that is suitable for graduate work in school psychology school counseling school social work and school nursing or as a reference work for in service practitioners      **Psychological Practices with the Physically Disabled** James F. Garrett,Edna Simon Levine,1962 Looks at the growth of rehabilitation for the physically disabled after World War II when one of the major developments was the utilization of a team approach where medical professionals work together with psychologists sociologists and economists to assist patients      Handbook of Research-Based Practices for Educating Students with Intellectual Disability Karrie A. Shogren,2016-10-14 The Handbook of Research Based Practices for Educating Students with Intellectual Disability provides an integrated transdisciplinary overview of research based practices for teaching students with intellectual disability This comprehensive volume emphasizes education across life stages from early intervention in schools through the transition to adulthood and highlights major educational and support needs of children and youth with intellectual disability The implications of history recent research and existing information are positioned to systematically advance new practices and explore promising possibilities in the field Driven by the collaboration of accomplished nationally recognized professionals of varied approaches and philosophies the book emphasizes practices that have been shown to be effective through multiple methodologies so as to help readers select interventions based on the evidence of their effectiveness      **The Surgeon General's Call to Action to Improve the Health and Wellness of Persons with Disabilities** U. S. Department of Health and Human Services,Office of the Surgeon General,2012-07-23 Since 1900 the nation has witnessed unprecedented improvement in the health of its people thanks in large part to the public health movement that works to prevent disease and its spread and to promote mental physical and emotional well being As a result of a century of public health initiatives such as vaccinations improved nutrition and sanitation and new treatments to combat acute illnesses millions of people have led longer healthier lives As a result the emphasis of the nation s work in public health has shifted from a focus solely on acute illnesses to a more balanced approach that has added attention to

chronic medical conditions and the factors that cause them The perception of disability a condition of the body mind or senses of a person of any age that may affect the ability to work learn or participate in community life also is in transition With the recognition that disability is not an illness the emphasis increasingly is on continuity of care and the relationship between a person with a disability and the environment at the physical emotional and environmental levels This approach is based on the knowledge that good health means the same thing for everyone and that the best possible health status and quality of years of life should be a goal for everyone whether experiencing a disability or not Today 54 million Americans more than one fifth of us are living with at least one disability Some individuals are born with a disability others acquire disabilities over the course of their lifetime At any time each of us is at risk for acquiring a disability whether through an illness an injury genetics or any number of other causes This Call to Action to Improve the Health and Wellness of Persons with Disabilities is built on the need to promote accessible comprehensive health care that enables persons with disabilities to have a full life in the community with integrated services consistent with the President s New Freedom Initiative Persons with disabilities must have accessible available and appropriate health care and wellness promotion services They need to know how to and to be able to protect preserve and improve their health in the same ways as everyone else This Call to Action encourages health care providers to see and treat the whole person not just the disability educators to teach about disability a public to see an individual s abilities not just his or her disability and a community to ensure accessible health care and wellness services for persons with disabilities This volume provides a roadmap for change It delineates the challenges and strategies to address this critical public health concern Because it is based on input not only from health specialists in the disability field but also from individuals with disabilities and their family members this Call to Action presents not just a scientific perspective on disability but also the reality experienced by those living daily with disabilities This Call to Action can and must resonate with community leaders in both the public and private sectors including employers and the media and with policymakers who craft or influence the creation of community programs The principle and goals of this document can both incentivize and yield dividends for employers of persons with disabilities including greater productivity and lower overall health costs by preventing illnesses and injuries secondary to a disability Advocates for persons with disabilities can use this Call to Action to promote the involvement of individuals with disabilities as equal partners in all aspects of American life With concerted action undertaken through public private partnerships spanning all levels of government and all service education and research systems the full potential of legal health policy and health program initiatives to improve access to health and wellness services by persons with disabilities can be realized
