Tucker, 2022-10-24 *Nazi UFOs* tells the strange tale of how following the first alleged flying saucer sightings made in the USA in 1947 a series of fantasists and neo fascists came forward to create a media myth that the Nazis may have invented these incredible craft as a means for winning the Second World War a plan which was tantalisingly close to completion before the Allies conquered Berlin in 1945 Today the fantasy of Nazi UFOs has grown into an entire mythology in books on TV and online Did Germany back engineer anti gravity craft and even a full blown time machine by stripping technology from a crashed alien saucer Did the SS secretly invent Green technology for use in their star ship engines and was this planet saving discovery later suppressed at the behest of a sinister Big Oil conspiracy Did Himmler try to develop lightning weapons for use in aerial combat By contrasting the fake military industrial pseudo histories of Nazi UFO theorists with details of real life Nazi aerospace achievements the author demonstrates both how this modern day mythology came about and how it cannot possibly be more than fractionally true For the first time this fake alternative military history is laid out in full This book features an appealing cast of con men and spies complete madmen real life Nazis and completely made up ones operating

right across the globe from South America to wartime Europe and Japan A good example may be the mad professor Viktor Schauberger who actually genuinely did manage to gain a personal audience with Adolf Hitler in order to try and convince him that he had discovered and then exploited some amazing new source of natural free energy which could make objects such as saucers in the opinion of some float Hitler dismissed his plan but it does nonetheless show how close some bizarre schemes came to being implemented in Nazi Germany

Invisible Residents Ivan T. Sanderson, 2005 This book is a groundbreaking contribution to the study of the UFO enigma originally published over 30 years ago In this book Sanderson a renowned zoologist with a keen interest in the paranormal puts forward the curious theory that a oeOINTS Other Intelligences live under the Eartha TM s oceans This underwater parallel civilization may be twice as old as Homo sapiens he proposes and may have a oedeveloped what we call space flight Sanderson postulates that the OINTS are behind many UFO sightings as well as the mysterious disappearances of aircraft and ships in the Bermuda Triangle What better place to have an impenetrable base than deep within the oceans of the planet Yet if UFOs or at least some of them are coming from beneath our oceans or lakes does it necessarily mean that there is another civilization besides our own that is responsible In fact could it be that since WWII a number of underwater UFO bases have been constructed by the very human governments of our planet Whatever their source Sanderson offers here an exhaustive study of USOs Unidentified Submarine Objects observed in nearly every part of the world He presents many well documented and exciting case studies of these unusual sightings more
