Reign Of Al Mutawakkil:

The Reign of Al-Mutawakkil M. Shamsuddin Miah,1969 **The Abbasid Caliphate** Tayeb El-Hibri,2021-04-22 A history of the Abbasid Caliphate from its foundation in 750 and golden age under Harun al Rashid to the conquest of Baghdad by the Mongols in 1258 this study examines the Caliphate as an empire and an institution and its imprint on the society and culture of classical Islamic civilization *The Shaping of 'Abbasid Rule* Jacob Lassner,2017-03-14 In order to understand the transition between the revolutionary movement that propelled the Abbasids to power and the imperial government that later took root Jacob Lassner studies those elements that served to shape the political attitudes and institutions of the emerging regime during its formative years Originally published in 1980 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Reinterpreting Islamic Historiography Tayeb El-Hibri,1999-11-25 The history of the early Abbasid Caliphate has long been studied as a factual or interpretive synthesis of various accounts preserved in the medieval Islamic chronicles Tayeb El Hibri s book breaks with the traditional approach applying a literary critical reading to examine the lives of the caliphs By focusing on the reigns of Harun al Rashid and his successors the study demonstrates how the various historical accounts were not in fact intended as faithful portraits of the past but as allusive devices used to shed light on controversial religious political and social issues of the period The analysis also reveals how the exercise of decoding Islamic historiography through an investigation of the narrative strategies and thematic motifs used in the chronicles can uncover new layers of meaning and even identify the early narrators This is an important book which represents a landmark in the field of early Islamic historiography *The Life of Imam Ali [Naqi] Al-Hadi, Study and Analysis* Baqir Sharif Al-qarashi,2017-05-16 This book is one of the many Islamic publications distributed by Mustafa Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world Mustafa Organization is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world and it welcomes your involvement and support Its objectives are numerous yet its main goal is to spread the truth about the Islamic faith in general and the Shi a School of Thought in particular due to the latter being misrepresented misunderstood and its tenets often assaulted by many ignorant folks Muslims and non Muslims Organization s purpose is to facilitate the dissemination of knowledge through a global medium the Internet to locations where such resources are not commonly or easily accessible or are resented resisted and fought Consorts of the Caliphs is a seventh thirteenth century compilation of anecdotes about thirty eight

women who were as the title suggests consorts to those in power most of them concubines of the early Abbasid caliphs and wives of latter day caliphs and sultans This slim but illuminating volume is one of the few surviving texts by Ibn al Sa i d 674 H 1276 AD Ibn al Sa i was a prolific Baghdadi scholar who chronicled the academic and political elites of his city and whose career straddled the final years of the Abbasid dynasty and the period following the cataclysmic Mongol invasion of 656 H 1258 AD

The History of al-Ṭabarī Vol. 32 Abū Jaʿfar Muḥammad ibn Jarīr al-Ṭabarī, 1987-03-01 The 20 years caliphate of al Ma m n began as a stormy period in Middle Eastern history after the comparatively peaceful reign of his father H r n al Rash d the caliphate was plunged into violent civil warfare in both Iraq and Arabia involving the sons of al Rash d rivals for the supreme authority and various other sectarian rebels and aspirants for power Yet once peace was secured and the caliphate lands united once more al Ma m n s reign settled down into one of the most exciting and innovative of the mediaeval caliphate The Caliph himself was a highly cultivated man who possessed a keen intellectual curiosity and who interested himself in the practical sciences astronomy and mathematics He also encouraged the translating of Greek philosophical scientific and medical works from Greek and Syriac into Arabic and involved himself in theological controversies in which the dialectical techniques of the Greek thinkers were to figure abar s history of this period constitutes a prime source for political and military history His racy and vivid style including many verbatim conversations and documents brings the Caliphate of al Ma m n very much alive A discounted price is available when purchasing the entire 39 volume History of al abar set Contact SUNY Press for more information

Islam, Authoritarianism, and Underdevelopment Ahmet T. Kuru, 2019-08-01 Why do Muslim majority countries exhibit high levels of authoritarianism and low levels of socio economic development in comparison to world averages Ahmet T Kuru criticizes explanations which point to Islam as the cause of this disparity because Muslims were philosophically and socio economically more developed than Western Europeans between the ninth and twelfth centuries Nor was Western colonialism the cause Muslims had already suffered political and socio economic problems when colonization began Kuru argues that Muslims had influential thinkers and merchants in their early history when religious orthodoxy and military rule were prevalent in Europe However in the eleventh century an alliance between orthodox Islamic scholars the ulema and military states began to emerge This alliance gradually hindered intellectual and economic creativity by marginalizing intellectual and bourgeois classes in the Muslim world This important study links its historical explanation to contemporary politics by showing that to this day ulema state alliance still prevents creativity and competition in Muslim countries

Inquisition in Early Islam John Turner, 2013-05-15 In 833 CE the Abbasid Caliph al Ma mun began a period of inquisition mihna one which continued until his successor al Mutawakkil decreed its end fifteen years later During this period the Caliphs in power strove to promote

correct belief in the createdness of the Qur'an thus ordering the interrogation of religious scholars and disqualifying punishing or even executing those who answered incorrectly Here John P Turner examines this major episode viewing it as a pivotal point in the struggle between the temporal authorities and religious law in the Middle East By examining the definition of heresy Turner presents a vivid account of the heresy trials in this period as well as incisive analysis concerning the relationship between secular power and religious authority This book is of particular interest to researchers and scholars of Islamic history comparative religion and the medieval world

The History of al-Ṭabarī Vol. 35 Abū Ja'far Muḥammad ibn Jarīr al-Ṭabarī, 1985-01-01 The period covered in this volume is one of the most tumultuous periods of Islamic history In it al-Ṭabarī details with great success the intricate events that shaped real political power in Samarra and Baghdad during the middle of the ninth century laying bare the dynamics through which the army generals who were mainly of Central Asian Turkish extraction consolidated their grip on the caliphate The political maneuvering that enabled them to pass the reins of real power to their descendants creating a dynasty parallel to the legitimate caliphal dynasty is also clearly revealed A discounted price is available when purchasing the entire 39 volume History of al-Ṭabarī set Contact SUNY Press for more information

The Shi'a of Samarra Imranali Panjwani, 2012-01-30 The assault on Samarra which was built in the period of the Abbasid caliphate in the ninth century CE therefore came to represent for many a symbol of the destructive civil conflict which engulfed Iraq following the 2003 US led invasion The Shi'a of Samarra explores and analyses the cultural architectural and political heritage of the Shi'a in both Samarra and the Middle East thus highlighting how this city functions as a microcosm for the contentious issues and debates which remain at the forefront of efforts to rebuild the modern Iraqi state Its examination of the socio-political context of the Shi'a-Sunni divide provides important insights for students and researchers working on the history and politics of Iraq and the Middle East as well as those interested in the art and architecture of the Islamic world

The Aghlabids and their Neighbors Glair D. Anderson, Corisande Fenwick, Mariam Rosser-Owen, 2017-11-06 The first dynasty to mint gold dinars outside of the Abbasid heartlands the Aghlabid 800-909 reign in North Africa has largely been neglected in the scholarship of recent decades despite the canonical status of its monuments and artworks in early Islamic art history The Aghlabids and their Neighbors focuses new attention on this key dynasty The essays in this volume produced by an international group of specialists in history art and architectural history archaeology and numismatics illuminate the Aghlabid dynasty's interactions with neighbors in the western Mediterranean and its rivals and allies elsewhere providing a state of the question on early medieval North Africa and revealing the centrality of the dynasty and the region to global economic and political networks Contributors Lotfi Abdeljaouad Glair D Anderson Lucia Arcifa Fabiola Ardizzone Alessandra Bagnera Jonathan M Bloom Lorenzo Bondioli Chlo Capel Patrice Cressier Mounira Chapoutot Remadi Abdelaziz Daoulati Claire D l ry Ahmed El Bahi Kaoutar Elbaljan Ahmed Ettahiri Abdelhamid Fenina Elizabeth Fentress Abdallah Fili Mohamed Ghodhbane Caroline

 numismatics **God's Rule** Patricia Crone, 2004 Patricia Crone's *God's Rule* is a fundamental reconstruction and analysis of
 Islamic political thought focusing on its intellectual development during the six centuries from the rise of Islam to the Mongol
 invasions Based on a wide variety of primary sources including some not previously considered from the point of view of
 political thought this is the first book to examine the medieval Muslim answers to questions crucial to any Western
 understanding of Middle Eastern politics today such as why states are necessary what functions they are meant to fulfill and
 whether or why they must be based on religious law The character of Muslim political thought differs fundamentally from its
 counterpart in the West The Christian West started with the conviction that truth both cognitive and moral and political
 power belonged to separate spheres Ultimately both power and truth originated with God but they had distinct historical
 trajectories and regulated different aspects of life The Muslims started with the opposite conviction truth and power
 appeared at the same time in history and regulated the same aspects of life In medieval Europe the disagreement over the
 relationship between religious authority and political power took the form of a protracted controversy regarding the roles of
 church and state In the medieval Middle East religious authority and political power were embedded in a single divinely
 sanctioned Islamic community a congregation and state made one The disagreement therefore took the form of a protracted
 controversy over the nature and function of the leadership of Islam itself Crone makes Islamic political thought accessible by
 relating it to the contexts in which it was formulated analyzing it in terms familiar to today's reader and where possible
 comparing it with medieval European and modern political thought By examining the ideological point of departure for
 medieval Islamic political thought Crone provides an invaluable foundation for a better understanding of contemporary

Middle Eastern politics and current world events *The Prophet and the Age of the Caliphates* Hugh Kennedy, 2015-12-14
The Prophet and the Age of Caliphates is an accessible history of the Near East from c 600 1050AD the period in which Islamic society was formed Beginning with the life of Muhammad and the birth of Islam Hugh Kennedy goes on to explore the great Arab conquests of the seventh century and the golden age of the Umayyad and Abbasid caliphates when the world of Islam was politically and culturally far more developed than the West The arrival of the Seljuk Turks and the period of political fragmentation which followed shattered this early unity never to be recovered This new edition is fully updated to take into account the considerable amount of new research on early Islam and contains a completely revised bibliography Based on extensive reading of the original Arabic sources Kennedy breaks away from the Orientalist tradition of seeing early Islamic history as a series of ephemeral rulers and pointless battles by drawing attention to underlying long term social and economic processes The Prophet and the Age of Caliphates deals with issues of continuing and increasing relevance in the twenty first century when it is perhaps more important than ever to understand the early development of the Islamic world Students and scholars of early Islamic history will find this book a clear informative and readable introduction to the subject
