**The Woman's Bible** Elizabeth Cady Stanton, 2021-02-01 The Woman's Bible 1895 1898 is a work of religious and political nonfiction by American women's rights activist Elizabeth Cady Stanton. Despite its popular success, The Woman's Bible caused a rift in the movement between Stanton and her supporters and those who believed that to wade into religious waters would hurt the suffragist cause. Reactions from the press, political establishment, and much of the reading public were overwhelmingly negative, accusing Stanton of blasphemy and sacrilege while refusing to engage with the book's message to reconsider the historical reception of the Bible in order to make room for women to be afforded equality in their private and public lives. Working with a Revising Committee of 26 members of the National American Woman Suffrage Association, Stanton sought to provide an updated commentary on the Bible that would highlight passages allowing for an interpretation of scripture harmonious with the cause of the women's rights movement. Inspired by activist and Quaker Lucretia Mott's use of Bible verses to dispel the arguments of bigots opposed to women's rights and abolition, Stanton hoped to establish a new way of framing the history and religious representation of women that could resist similar arguments that held up the Bible as precedent for the continued oppression of women. Starting with an interpretation of the Genesis story of Adam and Eve, Stanton attempts to show where men and women are treated as equals in the Bible, eventually working through both the Old and New Testaments. In its day, The Woman's Bible was a radically important revisioning of women's place in scripture that Stanton and her collaborators hoped would open the door for women to obtain the rights they had long been systematically denied. With a beautifully designed cover and professionally typeset manuscript, this edition of Elizabeth Cady Stanton's The Woman's Bible is a classic of American literature reimagined for modern readers.

Noise, Water, Meat Douglas Kahn, 2001-08-24 An examination of the role of sound in twentieth-century arts. This interdisciplinary history and theory of sound in the arts reads the twentieth century by listening to it: the emphatic and exceptional sounds of modernism and those on the cusp of postmodernism; recorded sound, noise, silence; the fluid sounds of immersion and dripping; and the meat voices of viruses, screams, and bestial cries. Focusing on Europe in the first half of the century and the United States in the postwar years, Douglas Kahn explores aural activities in literature, music, visual arts, theater, and film. Placing aurality at the center of the history of the arts, he revisits key artistic questions: listening to the sounds that drown out the politics and poetics that generated them. Artists discussed include Antonin Artaud, George Brecht, William Burroughs, John Cage, Sergei Eisenstein, Fluxus, Allan Kaprow, Michael McClure, Yoko Ono, Jackson Pollock, Luigi Russolo, and Dziga Vertov.
