Reincarnation Is A Fact:

European Cases of the Reincarnation Type Ian Stevenson, M.D.,2008-11-13 Many cultures accept that a person may die and then come back to life in another form but Westerners have traditionally rejected the idea Recently however surveys conducted in Europe indicate a substantial increase in the number of Europeans who believe in reincarnation and numerous claims of reincarnation have been reported This book examines particular cases in Europe that are suggestive of reincarnation The first section provides a brief history of the belief in reincarnation among Europeans The second section considers eight cases from the first third of the twentieth century that were not independently investigated but were reported and sometimes published by the persons concerned The third section covers 32 cases from the second half of the twentieth century that were investigated by the author Many of these cases involved either children who exhibited unusual behavior attributed to a previous life or adults who experienced recurrent or vivid dreams attributed to a previous life In the fourth section the author compares European cases suggestive of reincarnation with those of other countries and cultures

Return to Life Jim B. Tucker, M.D.,2013-12-03 Dr Tucker in a follow up to his book Life Before Life explores American cases of young children who report memories of previous lives in the New York Times bestseller Return to Life A first person account of Jim Tucker s experiences with a number of extraordinary children with memories of past lives Return to Life focuses mostly on American cases presenting each family s story and describing his investigation His goal is to determine what happened what the child has said how the parents have reacted whether the child s statements match the life of a particular deceased person and whether the child could have learned such information through normal means Tucker has found cases that provide persuasive evidence that some children do in fact possess memories of previous lives Among others readers will meet a boy who describes a previous life on a small island When Tucker takes him to that island he finds that some details eerily match the boy s statements and some do not Another boy points to a photograph from the 1930s and says he used to be one of the men in it Once the laborious efforts to identify that man are successful many of the child s numerous memories are found to match the details of his life Soon after his second birthday a third boy begins expressing memories of being a World War II pilot who is eventually identified Thought provoking and captivating Return to Life urges its readers to think about life and death and reincarnation and reflect about their own consciousness and spirituality

The Undefeated Mind Alex Lickerman,2012-11-06 Legions of self help authors rightly urge personal development as the key to happiness but they typically fail to focus on its most important objective hardiness Though that which doesn t kill us can make us stronger as Nietzsche tells us few authors today offer any insight into just how to springboard from adversity to strength It doesn t just happen automatically and it takes practice New scientific research suggests that resilience isn t something with which only a fortunate few of us have been born but rather something we can all take specific action to

develop To build strength out of adversity we need a catalyst What we need according to Dr Alex Lickerman is wisdom wisdom that adversity has the potential to teach us Lickerman s underlying premise is that our ability to control what happens to us in life may be limited but we have the ability to establish a life state to surmount the suffering life brings us The Undeclared Mind distills the wisdom we need to create true resilience into nine core principles including A new definition of victory and its relevance to happiness The concept of the changing of poison into medicine A way to view prayer as a vow we make to ourselves A method of setting expectations that enhances our ability to endure disappointment and minimizes the likelihood of quitting An approach to taking personal responsibility and moral action that enhances resilience A process to managing pain both physical and emotional that enables us to push through obstacles that might otherwise prevent us from attaining our goals A method of leveraging our relationships with others that helps us manifest our strongest selves Through stories of patients who have used these principles to overcome suffering caused by unemployment unwanted weight gain addiction rejection chronic pain retirement illness loss and even death Dr Lickerman shows how we too can make these principles function within our own lives enabling us to develop for ourselves the resilience we need to achieve indestructible happiness At its core The Undeclared Mind urges us to stop hoping for easy lives and focus instead on cultivating the inner strength we need to enjoy the difficult lives we all have The Long Trajectory Eric M. Elizabeth Clare Prophet, Erin L. Prophet, 1997 A long time ago Christians believed in reincarnation This groundbreaking work makes the case that Jesus taught reincarnation Elizabeth Clare Prophet traces the history of reincarnation in Christianity from Jesus and early Christians through Church councils and the persecution of so called heretics Using the latest scholarship and evidence from the Dead Sea Scrolls and Gnostic texts she also argues persuasively that Jesus was a mystic who taught that our destiny is to unite with the God within Your view of Jesus and of Christianity will never be the same

Truth of Rebirth Mahesh Sharma, Science tells us that on this earth there is no such phenomenon called as Rebirth and medical science tells us that there is another life after this birth Most of the religions to support this phenomenon but it is still impossible to tell as though how can a person take a rebirth after dying once According to Hindu religion principles of rebirth are very important It tells us that before this birth we already have taken infinite births and passed through this cycle of death and rebirth This world of the cycle of rebirth keeps a dense meaning about it Though everyone is aware of the word cycle of rebirth many do not know the actual meaning of the word Generally everyone takes it as world and worldly things According to Hindu religion we come in this world again and again and afterward we pass into more minute and a bigger world This way we die and take birth again and again If we believe in the Hindu mythology then according to them the soul travels in the atmosphere visits places such as hell and heaven but in the end it has to enter its body again The astrologers also believe this and thus most of their predictions resolve in this matter According to them we are rewarded or punished according to our deeds we either get it in our lifetime or in our next birth Our deeds form our stars and we take birth according to our stars This process can take years or even decades The Hindus strongly believe in it Before becoming a human being our soul has entered almost a thousand bodies The word universe has very deep meaning to which not everyone is known Everybody knows the word but not the meaning and significance behind it A common man may describe it as the world in which we live but the Hindu mythology believes that there are different worlds in which we go according to our deeds In this way we take several births and even die several times Saint Shankaracharya has explained this in his hymns in the book Bhaj Govindam as Rebirth and Redie in other words again and again die and take birth again and again This circle of life and death is referred to as the universe It is not only the Hindus that believe in this process but also the other religions though they have their separate explanations and thus they try to please their ancestors by praying to them on a particular day in this way or the other way The scientists don't believe in hell heaven and rebirth but what evidences they have got cannot also be said to be untruths or simply nothing One such thing is that what is the thing which enters a person's mind after his death and fills it with memories of his past life To answer this question even the scientists have to believe in such things
