Licauco, 2017-12-02 Reading this book requires an open and questioning mind not a mind that has already accepted just one answer I for one have benefited greatly by reading his words and listening to his lectures From the foreword by Sir Jason Winters KGSJ Licauco in this book boldly discourses topics that might be unconventional for most people but very thought provoking Such topics might be disturbing but they will satiate the intellectually curious and those who don't settle only in a single point of view *Beyond Heaven and Earth* Steven H. Parsons, 2013-02-28 A blend of traditional and non traditional approaches toward client centered paranomal investigation The methodology provides a solid structure as compared to random methods used by ghost

investigators     Ghost Hunting Loyd Auerbach, 2010-09-15 GHOSTHUNTING is a common sense approach to the investigation and resolution of cases of reported ghostly happenings including apparitions hauntings and poltergeists Written so that the reader quickly grasps what parapsychologists think ghosts are and how to best deal with the phenomena and the experiences of the people having them Covers the investigative process from the initial call and assessment to the on site investigative techniques and technology Deals with how to come up with solutions and resolutions ways to get rid of the phenomena Includes a discussion of the use of technology and the use of psychics in paranormal investigations and if anyone can prove the existence of ghosts Finally the book covers information resources and organizations that the new ghost hunter and the person who encounters a ghost can find to learn more about the subject and for help with cases they re investigating or phenomena they re experiencing     Reincarnation Lynn Kear, 1996-07-22 Over 500 books are described Each entry includes full bibliographic information a description of the contents and additionally in most cases an excerpt is included that gives the flavor of the book Pro and anti reincarnation sources are featured for this highly controversial subject An appendix lists organizations that are concerned with reincarnation This will be of interest to religious scholars and students and anyone interested in this fascinating topic     The New Age Movement and the Biblical Worldview John P. Newport, 1998 John Newport delivers a comprehensive study of the impact of New Age beliefs on contemporary culture and on Christianity itself while also offering an effective biblical antidote to today s worldview crisis After first surveying the historical development of the New Age worldview from ancient times through important tendencies in nineteenth century America to recent Far Eastern influences Newport explores in depth eleven key areas of the New Age worldview and contrasts each area of belief with the traditional biblical worldview     *Ghost Talk* Robert H. Coddington, 2001 There have been many books written about troubled spirits who are trapped on earth and who continue to haunt the living *Ghost Talk* goes one step further Robert Coddington and his psychic wife Marianne know firsthand that ghosts are among us During a ghost hunt in Richmond Virginia Marianne s body first became the medium for the lost spirit of a teenager named Angelica who forever changed their beliefs about life and death In this spellbinding trip to the other side readers will meet the Coddingtons ghostly subjects in their own words and learn of the Coddingtons extraordinary methods for contacting the lost and frightened souls of the dead Readers will share in another incredible experience how earthbound spirits unaware of their mortal deaths and still trapped on this plane of existence can be guided to the Light     **The Third Path** Bud Carroll, 2013-08-01 When I finished reading this book all I could say was WOW What a stunning piece of literary work It is concise brilliantly written backed by scientific findings with clear human logic and intelligence If this doesn t awaken the masses to delve into who and what they truly are I can t imagine what will Jerry Issa teacher of metaphysics Trenton Michigan This book will change your life if you let it If we are accidental beings on a remote planet in a vast universe existing for merely a blip in cosmic time what s the point of living at all Until we learn life is too significant to be a short lived brilliance that rises out of nothing and

ends in nothing we will continue to live out our lives in what Thoreau saw as quiet desperation We sense the materialistic wall when we ask the question Is that all there is Without resorting to miracles or magic this book provides compelling evidence of life beyond the physical world by logically investigating the limitations of matter in the universe by examining the gaps in scientific theories and by analyzing what the mystics already know about a spiritual existence It takes a dedicated seeker with no preconceived ideas and no intent on arriving to see beyond the materialistic wall This book is intended to expand your awareness of life here and hereafter hopefully providing the spark that will start you on your own personal pilgrimage The mystics tell us we will be guided to the next step along our spiritual path when we are ready Are you ready AWARENESS The following might be the thoughts of those at different levels of awareness as they walk through a rose garden I want I wonder how much I could get for these roses I believe God created roses when He created the world and everything in it I doubt Roses evolved from wild flowering shrubs but most garden varieties are hybrids I seek How could anything as beautiful as a rose happen purely by chance I know Roses like all life on Earth are physical manifestations of spirit

**Handbook for the Amateur Paranormal Investigator Or Ghost Hunter** Brian D. Parsons, 2008-05 How to conduct paranormal investigations

**The Outline of Parapsychology** Jesse Hong Xiong, 2010 This work of systematic parapsychology aims to construct a framework and system of parapsychology taking a comprehensive approach to the field The book states that parapsychology has a different philosophical background from the existing science and religions and posits that pantheism could be the theoretical basis of parapsychology

**Looking for the Other Side** Sherry Suib Cohen, 2012-04-04 If you're going to write a book about worlds with no answers phenomenon that scientists can't explain and skeptics can't fathom you'd better do it with the right equipment the eye of a journalist the voice of a novelist an open mind and compassionate heart In Looking for the Other Side writer Sherry Suib Cohen is perfectly outfitted with these tools in her exploration of the world of the occult It all begins when Cohen a journalist takes an assignment to try and contact the spirit of her deceased mom In her searching she meets astrologers past life channelers numerologists psychics and a host of other practitioners eager to put her in touch with her past her future and her heretofore unexplored spiritual self Cohen will hook readers with her determination wit generosity and astonishing willingness to try anything In the end her personal odyssey becomes ours and even the most devoted skeptics will find themselves rethinking what might and what might not be possible Betsy Carter Editor in Chief New Woman magazine When I saw the words know thyself carved above the Oracle's gate at Delphi I shivered and didn't understand why Now I understand Knowing myself would mean suspending judgment would mean tapping into banks of information I never before thought relevant to my pragmatic lifestyle Well I've tapped This book is the result writes Sherry Suib Cohen And in a spirited narrative Cohen tells us about her experiences wherein she confronts death blame forgiveness faith truth and family in addition to Mom When readers finish this personal odyssey and guidebook into the unknown they may decide just as Cohen did that there's something to these otherworldly spheres after all

*Coast*

*to Coast Ghosts* Leslie Rule, 2012-11-06 Ghosts have been the entertaining subject of many works of fiction but they are even more intriguing and perhaps even scarier when they are the focus of real life hauntings in our own backyard. An employee of the St James Hotel in New Mexico watches in shock as a fair haired toddler with a terribly disfigured face disappears into the floor. This is just one of the paranormal mysteries Leslie Rule shares with us as a result of extensive interviews and research uncovering the reasons behind ghost sightings across the country. *Coast to Coast Ghosts* features dozens of spine tingling real life ghost stories and approximately fifty black and white photographs taken by Rule including some believed to have captured actual apparitions. Only the reader can decide.

*The Channeling Zone* Michael Fobes Brown, 1997 Neither a debunker nor an advocate Michael Brown examines why so many intelligent Americans have turned to channeling as a source of spiritual guidance and how this links with older and more esoteric native religions.

*From Shaman to Scientist* James Houran, 2004 The writers of *From Shaman to Scientist* take the approach that there is no such thing as the supernatural only things we don't yet understand. The ghost experience is examined through case studies, forms and functions ghost hunters have taken throughout history, key historical figures and their influence on the research of ghostly phenomena, ghost hunting in the twenty first century including the exploding trend of Internet ghost hunting organizations and the advances in the theory and technology of the parapsychology field. For those who are skeptical about the reality of ghosts but want to understand how so many individuals claim to have anomalous experiences, this collection reviews the data, offers insight into logical explanations and discusses why this is and has been for centuries such an important and intriguing issue.
