Reinterpreting Rahner A Critical Study Of His Major Themes:

Reinterpreting Rahner Patrick Burke, 2002 Probably no theologian has exercised so profound an influence on Catholic theology during the last half century as Karl Rahner Patrick Burke examines the structure of dialectical analogy as it appears in each of the major themes of Rahner's theology as an indispensable key to the correct interpretation of his thought He also exposes a tension within the system that needs to be addressed if the complex balance of Rahner's vision is to be fully understood The Cambridge Companion to Karl Rahner Declan Marmion, Mary E. Hines, 2005-06-16 Karl Rahner 1904-84 was one of the most significant theological voices of the twentieth century For many his theology has come to symbolise the Catholic Church's entry into modernity Part of his enduring appeal lies in his ability to reflect on a whole variety of issues in theology and spirituality and concentrate this plurality into a few basic convictions This Cambridge Companion provides an accessible introduction to the main themes of Rahner's work Written by an international array of experts it will be of interest to both students and scholars alike Each chapter serves as a guide to its topic and recommends further reading for additional study The contributors also assess Rahner's significance for contemporary theology by bringing his thought into dialogue with many current concerns including religious pluralism spirituality postmodernism ecumenism ethics and developments in political and feminist theologies **Karl Rahner's Theological Aesthetics** Peter Joseph Fritz, 2014 This innovative book discloses Karl Rahner's foremost achievement discovering and delineating an ethos of Catholicism a multi-faceted and comprehensive approach to life in Christ Karl Rahner's Theological Aesthetics does so by placing the German Jesuit and his teacher philosopher Martin Heidegger into a richly detailed dialogue on aesthetics The book treats classic Rahner topics such as anthropology and Christology But it breaks new ground by exploring themes such as angels Mary and the apocalypse juxtaposed with analogous philosophical topics in Heidegger , *Commonwealth and Covenant* Marcia Pally, 2016 In *Commonwealth and Covenant* Marcia Pally argues that in order to address current socioeconomic problems we need not more economic formulas but rather a better understanding of how the world is set up an ontology of how we and the world work Without this good proposals that arise lack political will and go unimplemented Pally describes our basic setup as separability amid situatedness or distinction amid relation Though we are all unique individuals we become our singular selves through our relations and responsibilities to the people and environments around us Pally argues that our culture's overemphasis on separability individualism run amok results in greed adversarial and deceitful political discourse and chicanery resource grabbing broken relationships and anomie Maintaining that separability and situatedness can and must be considered together in public policy Pally draws on intellectual history philosophy and especially historic Christian and Jewish theologies of relationality to construct a new framework for addressing present economic and political ills **Divine Freedom and the Doctrine of the Immanent Trinity** Paul D. Molnar, 2017-02-23 *Divine Freedom and the Doctrine of the Immanent Trinity* is widely acclaimed by scholars in the field of Christian systematic theology Molnar's quest to place the

doctrine of the immanent Trinity on the agenda of the Christian doctrine of God has proven to be a signal contribution to the debate in contemporary Christian theology The material in this second edition has been thoroughly updated it contains a new preface and a new introduction as well as a revised bibliography The book includes a brand new chapter titled Divine Freedom Revisited which addresses those questions that have arisen in connection with Molnar's original presentation of the divine freedom Molnar revisits here his discussion of the Logos Asarkos the theologies of Karl Rahner and Wolfhart Pannenberg He sheds new light on Rahner's and Torrance's discussions of the Resurrection and incorporates modern discussions by contemporary theologians to offer new insights into Eberhard Jüngel's thinking

Touched by Christ: The Sacramental Economy Lawrence Feingold, 2021-05-07 The sacramental economy was instituted by Christ and entrusted to His Church in order to build up the Body of Christ in a twofold communion binding the members together with God and one another Touched by Christ The Sacramental Economy is an introductory course on Sacramental Theology suitable for all who seek a deeper understanding of how the Church's sacraments constitute channels of grace nurture supernatural life and heal us from our sins Lawrence Feingold expertly describes the nature of the sacraments their purpose fittingness and relationship with Christ and the New Covenant their relationship with the Old Covenant rites that prefigured them the character and grace that they communicate and the nature of their causality Touched by Christ shows that the sacraments of the New Covenant should be understood as instruments of Christ's humanity that are used as words of power to communicate the sanctification that they signify infuse grace communicate the Holy Spirit and build up ecclesial communion in those who receive them with the right dispositions

Fullness Received and Returned Seng-Kong Tan, 2014-01-01 Seng Kong Tan argues that human participation in the divine a classical theological axiom most notably associated with the Eastern Orthodox tradition is a central theme in the theology of Jonathan Edwards This notion Tan contends is a defining motif for the entire systematic sweep of Edwards's theology and it serves to focus and determine the contours of Edwards's thought Fullness Received and Returned situates Edwards's theology within the folds of the classical theological tradition while arguing that Edwards's is a unique and creative form of Reformed theology

Living between Science and Belief Charles Villa-Vicencio, 2021-03-02 Most thoughtful people live in an interregnum between science and religion Traditional religious answers concerning the beginning purpose and end of life are questioned by the natural sciences with neuroscience conceivably constituting the last frontier where skeptics and believers explore common ground The question concerns the nature of reflective and creative moments in life Can these be reduced to the intersect between the nerve cells and molecules of the physical brain Does this account for the human sense of mystery or even spirituality Is there a nexus between the physical and unknown dimensions of existence The mutation in the history of theism suggest that progressive theology in the West may be set for a further change

A Creed for Tomorrow Dorr, Donal, 2020-12-02

The Mysticism of Ordinary Life Andrew Prevot, 2023 The Mysticism of Ordinary Life presents a new vision of Christian mystical theology offering critical

interpretations of the theologians philosophers and intersectional feminists who draw on mystical traditions to affirm ordinary life arguing that everyday experiences of divine grace can be an empowering source of social transformation

General Principles of Sacramental Theology Roger W. Nutt, 2017 General Principles of Sacramental Theology addresses a current lacuna in English language theological literature Bernard Leeming's highly respected book Principles of Sacramental Theology was published more than sixty years ago Since that time there has been a noted decrease especially in English language sacramental theology in treatments of the basic topics and principles such as the nature of the sacraments of signs sacramental grace sacramental character sacramental causality sacramental intention the necessity and number of the sacraments sacramental matter and form inter alia which apply to all of the sacraments This book will be of use in seminary graduate and undergraduate courses The sacraments play an irreplaceable role in pursuing a Universal Call to Holiness that is so central to Vatican II's teaching

Signs of the Holy One Uwe Michael Lang, 2015-08-11 Catholic liturgy is far more than its texts It is a synthesis that also includes several other elements gesture music art and architecture which are aspects of the non verbal language of the sacred and are what make the liturgy beautiful Father Lang's consideration of the beauty of the liturgy addresses the modern notion that beauty is in the eye of the beholder that the experience of beauty is entirely subjective This idea makes it difficult to articulate criteria for what is beautiful yet sacred liturgy does indeed have objective measures for evaluating its principal elements Reflecting upon these and quoting from authoritative Church documents Father Lang discusses sacred music art and architecture and demonstrates how the beauty of these elements makes present the sacred Pope Benedict XVI said The greatness of the liturgy depends we shall have to repeat this frequently on its non spontaneity Continuous liturgical experimentation is unable to induce a sense of meaning or peace writes Father Lang because novelty does not satisfy the yearning for the Transcendent within the human psyche which is rarely far from the surface

Francis A. Sullivan, S.J. and Ecclesiological Hermeneutics Michael M. Canaris, 2016-09-27 In Francis A Sullivan S J and Ecclesiological Hermeneutics Canaris traces the significant contributions that Francis A Sullivan S J has made to Catholic ecclesiology paying particular attention to the method and application of his hermeneutical approach to the writings of the magisterium Though highly esteemed by professional theologians in both Catholic and ecumenical circles Sullivan is less well known among general audiences than many of his peers The author addresses this lacuna by arguing that Sullivan's work when viewed through an interpretive lens can aid the faithful to engage seriously with magisterial texts of various genres and levels of authority find meaning within them and encourage an active reception process whereby contemporary understanding of the teaching and learning role of the entire church becomes possible

A Deeper Vision Robert Royal, 2015-10-30 In this wide ranging and ambitious volume Robert Royal a prominent participant for many years in debates about religion and contemporary life offers a comprehensive and balanced appraisal of the Catholic intellectual tradition in the twentieth century The Catholic Church values both Faith and Reason and Catholicism has given risen to

extraordinary ideas and whole schools of remarkable thought not just in the distant past but throughout the troubled decades of the twentieth century Royal presents in a single volume a sweeping but readable account of how Catholic thinking developed in philosophy theology Scripture studies culture literature and much more in the twentieth century This involves great figures recognized as such both inside and outside the Church such as Jacques Maritain Bernard Lonergan Joseph Pieper Edith Stein Alasdair MacIntyre Charles Taylor Romano Guardini Karl Rahner Henri du Lubac Karol Wojtyla Joseph Ratzinger Hans Urs von Balthasar Charles Peguy Paul Claudel George Bernanos Francois Mauriac G K Chesterton Gerard Manley Hopkins Christopher Dawson Graham Greene Sigrid Undset J R R Tolkien Czeslaw Milosz and many more Royal argues that without rigorous thought Catholicism however welcoming and nourishing it might be would become something like a doctor with a good bedside manner but who knows little medicine It has always been the aspiration of the Catholic tradition to unite emotion and intellect action and contemplation But unless we know what the tradition has already produced especially in the work of the great figures of the recent past we will not be able to answer the challenges that the modern world poses or even properly recognize the true questions we face This is a reflective non polemical work that brings together various strands of Catholic thought in the twentieth century A comprehensive guide to the recent past and the future

Metaphysics of Mystery Marijn de Jong, 2020-02-06 How can we theologically reflect on universality in a world that increasingly focuses on particularities and differences Marijn de Jong argues that the question of universality calls for a reconceptualized form of metaphysical theology which he finds in the work of Karl Rahner and Edward Schillebeeckx Casting a new light on these theologians de Jong demonstrates that their methods contain a dialectical interrelation of hermeneutics and metaphysics an interrelation which seemingly has been lost in more recent hermeneutical theology Rahner and Schillebeeckx carefully balance particularity and universality without falling prey to relativist or absolutist ways of reasoning By analyzing fundamental themes such as experience and interpretation nature and grace faith and reason and intelligibility and mystery de Jong reveals the modest theological metaphysics that lies at the heart of their methods This critical retrieval demonstrates the enduring relevance of these thinkers and opens up new avenues of thought for theologians that do not want to shy away from the difficult question of the universality of God

The Encyclopedia of Christianity Erwin Fahlbusch, Geoffrey William Bromiley, 1999 Containing more than 300 articles covering the alphabetical entries P Sh this book also includes articles on significant topics ranging from Paul political theology and the Qur an to religious liberty salvation history and scholasticism

Reinterpreting Rahner Patrick Burke, 2002 A key to understanding Rahner's wide ranging theology is what the author calls a dialectical analogy a unifying concept that helps Rahner hold in distinction the traditional antinomies of Christian thought God and the world spirit and matter grace and nature In this book the author examines the dialectic of each of the major themes of Rahner's theology showing that it is an indispensable key to this thought But he also exposes a very real tension within the system that threatens the complex balance of Rahner's theological

vision *The Routledge Companion to Modern Christian Thought* Chad Meister, James Beilby, 2013-10-28 This Companion provides an unrivalled view of the field of modern Christian thought from the Enlightenment to the twentieth century and beyond Written by an outstanding team of theologians and philosophers of religion it covers the following topics within Christian thought Key figures and influencers Central events and movements Major theological issues and key approaches to Christian Theology Recent topics and trends in Christian thought Each entry is clear and accessible making the book the ideal resource for students of Christian thought and history and philosophy of religion and a valuable reference for professional theologians and philosophers **Will Many Be Saved?** Ralph P. Martin, 2012-08-20 The question of whether and how people who have not had the chance to hear the gospel can be saved goes back to the beginnings of Christian reflection It has also become a much debated topic in current theology In *Will Many Be Saved* Ralph Martin focuses primarily on the history of debate and the development of responses to this question within the Roman Catholic Church but much of Martin's discussion is also relevant to the wider debate happening in many churches around the world In particular Martin analyzes the Dogmatic Constitution on the Church the document from the Second Vatican Council that directly relates to this question Contrary to popular opinion Martin argues that according to this text the conditions under which people who have not heard the gospel can be saved are very often in fact not fulfilled with strong implications for evangelization
