Reinventing Eden Carolyn Merchant, 2013 Visionary quests to return to the Garden of Eden have shaped Western culture from Columbus voyages to today's tropical island retreats Few narratives are so powerful and as Carolyn Merchant shows so misguided and destructive as the dream of recapturing a lost paradise A sweeping account of these quixotic endeavors by one of America's leading environmentalists Reinventing Eden traces the idea of rebuilding the primeval garden from its origins to its latest incarnations in shopping malls theme parks and gated communities With eloquence and insight Merchant shows how the drive to conquer nature and to explore and settle the globe springs from this utopian pastoral impulse throughout Western history Time and again human manipulation of the environment is our downfall Eden is achieved by fencing off pristine beauty in national parks and wildlife preserves while leaving the majority of the earth in ruins Challenging both narratives Merchant argues that the green veneer of city park conservation has become a cover for the corruption of the earth and the neglect of its environment Reinventing Eden is a bold new way to think about the earth that includes green political parties sustainable development and a partnership between humans and earth that is nothing short of an ecological revolution

**West of Eden** Iain Boal, Janferie Stone, Michael Watts, Cal Winslow, 2012-04-01 In the shadow of the Vietnam War a significant part of an entire generation refused their assigned roles in the American century Some took their revolutionary politics to the streets others decided simply to turn away seeking to build another world together outside the state and the market West of Eden charts the remarkable flowering of communalism in the 1960s and 70s fueled by a radical rejection of the Cold War corporate deal utopian visions of a peaceful green planet the new technologies of sound and light and the ancient arts of ecstatic release The book focuses on the San Francisco Bay Area and its hinterlands which have long been creative spaces for social

experiment Haight Ashbury's gift economy its free clinic concerts and street theatre and Berkeley's liberated zones Sproul Plaza Telegraph Avenue and People's Park were embedded in a wider network of producer and consumer co-ops food conspiracies and collective schemes Using memoir and flashbacks oral history and archival sources *West of Eden* explores the deep historical roots and the enduring though often disavowed legacies of the extraordinary pulse of radical energies that generated forms of collective life beyond the nuclear family and the world of private consumption including the contradictions evident in such figures as the guru predator or the hippie entrepreneur There are vivid portraits of life on the rural communes of Mendocino and Sonoma and essays on the Black Panther communal households in Oakland the latter day Diggers of San Francisco the Native American occupation of Alcatraz the pioneers of live work space for artists and the Bucky dome as the iconic architectural form of the sixties Due to the prevailing amnesia partly imposed by official narratives partly self imposed in the aftermath of defeat *West of Eden* is not only a necessary act of reclamation helping to record the unwritten stories of the motley generation of communards and antinomians now passing but is also intended as an offering to the coming generation who will find here in the rubble of the twentieth century a past they can use indeed one they will need in the passage from the privations of commodity capitalism to an ample life in common
