**Teachers As Cultural Workers** Paulo Freire, 2005-04-11 Upon its original publication in Portuguese, *Teachers as Cultural Workers* became an instant success. Translated and published in English and now reissued in paperback with new essays from leading education scholars. *Pedagogy and the Politics of the Body* Sherry Shapiro, 2005-07-05 Working within the relatively new perspective on the body as a zone of critical praxis, Shapiro lays the foundation for the theory and practice of a somatically oriented critical pedagogy. **Paulo Freire and Transformative Education** Alethea Melling, Ruth Pilkington, 2018-04-13 This book brings together a range of global and local themes inspired by the work of Paulo Freire. Freire believed in the possibility of change, rejecting the neoliberal discourse that presents poverty as inevitable. His core principle emphasised the prerogative of transforming the world rather than adapting to an unethical world order. This responsibility to intervene in reality as educators is explored in detail in this edited collection. Including such diverse themes as pedagogical approaches to globalisation, social mobility, empowerment and valuing diversity within communities, the volume is highly relevant to pedagogical practice. Sharing the transformative power of being through popular education and the solidarity economy, this innovative book will be of interest to scholars of Paulo Freire, transformative education and diversity in education. *Pentecostal Formation* Cheryl Bridges Johns, 2010-11-01 The Pentecostal movement has been subject to some negative external assumptions. In this enlightening and challenging book, Cheryl Bridges Johns argues that in fact Pentecostals employ a powerful process of formation of catechesis which has enabled millions of believers to own and articulate the Christian story. She engages dialectically with the work of Paulo Freire, a specialist in education among the marginalized. As well as looking more broadly at the nature of all catechesis, there is also an attempt to move beyond the rationalism found in a praxis epistemology. Reading Freire and Habermas Raymond Allen Morrow, Carlos Alberto Torres, 2002-04-27 In this book, two well-known scholars of critical educational studies provide a compelling introduction to the thoughts of Brazilian educator Paulo Freire and German critical theorist Jürgen Habermas. The book compares their theories in depth and situates their thinking in relation to other social theories and philosophies of education. The authors demonstrate that despite their differences, these philosophers share crucial views on science, society, critical social psychology and educational praxis that are mutually illuminating and offer a new point of departure for a critical theory of education. **Teaching, Friendship and Humanity** Nuraan Davids, Yusef Waghid, 2020-08-27 This book extends liberal understandings in and about democratic citizenship education in relation to university pedagogy more specifically higher teaching and learning The authors argument is in defence of cultivating humanity through higher educational encounters on the basis of virtues that connect with the idea of love Unlike romantic and erotic love the book examines love in relation to educational encounters whereby humans or citizens can engage autonomously deliberatively and responsibly yet lovingly The rationale for focussing on the notion of philia love in educational encounters the authors argue is that doing so allows our current understandings of such encounters to be expanded beyond mere talk of reasonable engagements autonomous action deliberative iterations and simple action toward emotive enactments that could enhance human relations in educational encounters
