**Reinventing Nature?** Michael E. Soulé, Gary Lease, 1995

Reinventing Nature is an interdisciplinary investigation of how perceptions and conceptions of nature affect both the individual experience and society's management of nature. Leading thinkers from a variety of fields: philosophy, sociology, zoology, history, ethnobiology, and others address the conflict between the perception and reality of nature each from a different perspective.

**Bend Reality: Timeless Tools to Shift the Illusion of Reality, Reinvent Yourself, and Master Life** Shivendra Nath Misra, What is reality? Is it real? Is it an illusion? If it's an illusion, can we bend our way around it? These questions are not only in our minds; they've troubled great scientists and philosophers throughout the ages. But the answers to them are not so easy to understand. You see, our world seems quite real to us. Well, most people think so. But I've seen how this leads to huge problems in life. We believe we can't change it; we believe we're at the behest of faith, or worst, we believe that God is controlling everything. All these thoughts have put us in victim consciousness for too long. All your problems: lack of money, lack of relationships, lack of success, lack of fame, lack of recognition, lack of this and lack of that, cease to make any sense once you understand really what we're talking about. Even your successes in life will just be another feather on your hat once you develop a deep inner sense of purpose, peace, joy, and happiness. You don't need specific steps to achieve your specific goal; instead, you need a better model of living. A systemic upgrade, top to bottom, so that you can start looking at things in a different way and guess what? You're at the right place. Mixing the knowledge of ancient eastern sages along with modern scientific evidence, you'll see how you've been blind-sighted your whole life, and this book will do the simple act of removing the blindfold from your eyes. This is not another book.

**State of Madness** Rebecca Reich,2018-03-13 What madness meant was a fiercely contested question in Soviet society State of Madness examines the politically fraught collision between psychiatric and literary discourses in the years after Joseph Stalin's death State psychiatrists deployed set narratives of mental illness to pathologize dissenting politics and art Dissidents such as Aleksandr Vol pin Vladimir Bukovskii and Semen Gluzman responded by highlighting a pernicious overlap between those narratives and their life stories The state they suggested in their own psychiatrically themed texts had crafted an idealized view of reality that itself resembled a pathological work of art In their unsanctioned poetry and prose the writers Joseph Brodsky Andrei Siniavskii and Venedikt Erofeev similarly engaged with psychiatric discourse to probe where creativity ended and insanity began Together these dissenters cast themselves as psychiatrists to a sick society By challenging psychiatry's right to declare them or what they wrote insane dissenters exposed as a self serving fiction the state's renewed claims to rationality and modernity in the post Stalin years They were as they observed like the child who breaks the spell of collective delusion in Hans Christian Andersen's story The Emperor's New Clothes In a society where normality means insisting that the naked monarch is clothed it is the truth teller who is pathologized Situating literature's encounter with psychiatry at the center of a wider struggle over
