Union Less than ten percent of Polish Jews came out of the war alive the largest population of Jews who endured for whom Soviet exile was the main chance for survival Ellen G Friedman's *The Seven A Family Holocaust Story* is an account of this displacement Friedman always knew that she was born to Polish Jewish parents on the run from Hitler but her family did not describe themselves as Holocaust survivors since that label seemed only to apply only to those who came out of the concentration camps with numbers tattooed on their arms The title of the book comes from the closeness that set seven individuals apart from the hundreds of thousands of other refugees in the Gulags of the USSR The Seven a name given to them by their fellow refugees were Polish Jews from Warsaw most of them related *The Seven A Family Holocaust Story* brings together the very different perspectives of the survivors and others who came to be linked to them providing a glimpse into the repercussions of the Holocaust in one extended family who survived because they were loyal to one another lucky and endlessly enterprising Interwoven into the survivors accounts of their experiences before during and after the war are their own and the author's reflections on the themes of exile memory love and resentment Based on primary interviews and told in a blending of past and present experiences Friedman gives a new voice to Holocaust memory one that is sure to resonate with today's exiles and refugees Those with an interest in World War II memoir and genocide studies will welcome this unique perspective

Nazi Films in America, 1933-1942 Harry Waldman, 2020-08-05 From 1933 until America's entry into World War II in 1941 nearly 500 Nazi films were shown in American theaters accounting for nearly half of all foreign language film imports during the period These poorly disguised propaganda films were produced by Germany's top studios and featured prominent pro German and Nazi actors directors and technicians The films were replete with overt and covert anti Jewish imagery and themes but in spite of this obvious intent to use the medium to justify Nazi ascendancy viewers and film critics from such prominent publications as the New York Times Variety the Washington Post and the Chicago Times consistently overlooked the films anti Semitic message dubbing them harmless entertainment This is the complete history of German films shown in America from the founding of the Nazi government to America's involvement in the war Summaries descriptions and discussions of these almost 500 films serve to examine the major filmmakers and distributors who kept the German film industry alive during the rule of Hitler and the Third Reich Special emphasis is placed on films directly commissioned by Joseph Goebbels head of the German Ministry for the Enlightenment of the People and Propaganda and the man directly responsible for ensuring that the anti Semitic ideology of the new regime was reflected in all films produced after January 30 1933 Rarely seen photographs and illustrations complete an in depth study of the Nazi use of this global medium
