Treating Nonoffending Parents in Child Sexual Abuse Cases Jill S. Levenson, John W. Morin, 2001 Part of a comprehensive psychoeducational program for nonoffending parents and partners of sex offenders this

book helps therapists determine if and when children can live safely in homes with known sexual offenders and presents a model for treating the nonoffending members of families who plan reunification. While the authors do not advocate reunification, the book describes a unification plan that keeps family safety through relapse prevention as the first priority. *Treating Nonoffending Parents in Child Sexual Abuse Cases* begins by bringing the therapist into the confused, anxious, and sometimes shattered world of the nonoffending parent. Guidelines are then offered for conducting a comprehensive family assessment to determine if a family is a realistic candidate for reunification. A structured group treatment program for the nonoffending parents/partners follows, including a treatment module covering such issues as denial, the effects of sexual abuse on children, and families' understanding of sex offenders and sex offender treatment, and creating realistic family safety plans. Therapists are instructed in conducting follow-up couples sessions to engage the nonoffending partner in challenging the offender to prove he is ready to live safely with children. In family sessions with the children, sexual abuse prevention, clarification, and family safety planning are addressed. The book concludes with valuable information on report writing and making responsible recommendations following treatment. *Treating Nonoffending Parents in Child Sexual Abuse Cases* comes with a copy of the *Connections Workbook*, the companion manual for the nonoffending parent/partner. The authors, who specialize in treating sex offenders, originally developed and field tested this book with the partners of their own clients. Since 1997, an earlier version of the program has been in use throughout North America. Therapists, probation officers, and CPS workers who work with families that are recovering from incest or have any kind of sex offender as one of their parents will find *Treating Nonoffending Parents in Child Sexual Abuse Cases* and its accompanying workbook an useful tool in helping a particularly complex and vulnerable client.

Sourcebook of Treatment Programs for Sexual Offenders William Lamont Marshall, Yolanda M. Fernandez, Stephen M. Hudson, Tony Ward, 2013-11-22. A guide for the design and implementation of treatment programs, the *Sourcebook* emphasizes clinical issues over research and offers valuable suggestions for dealing with problems that arise in treatment. Contributors from around the world describe their work in prisons, psychiatric institutions, and community settings. Special attention is given to culturally sensitive treatments and to special populations, including professionals, clergy, juveniles, women, and the physically challenged.

Sexual Deviance Tony Ward, D. Richard Laws, Stephen M. Hudson, 2003. Ward, Laws, and Hudson are among the world's leading authorities in the area of understanding and treating sex offenders. They address the biological, developmental, cultural, and learning factors in the genesis and development of sexual deviancy and link those theories to interventions with sex offenders. *Sexual Deviance* examines why sex offenses are committed and covers the controversies surrounding what to do about it. It discusses cutting-edge theoretical developments in etiology, rehabilitation, and practice. *Sexual Deviance* is divided into two sections. The first covers explanations of sexual deviance, including ethical issues and classification systems for sexually deviant disorders. The second section addresses responses to

sexual deviance including traditional and newer intervention approaches This is an area fraught with controversies both within the clinical community and in the public policy sector and the authors seek to discuss those issues that are particularly controversial
