Relatedness Harold H. Oliver, 1984 **The Elements and Patterns of Being** Donald C. Williams, 2018 Donald C Williams 1899 1983 was a key figure in the development of analytic philosophy This book will be the definitive source for his highly original work which did much to bring metaphysics back into fashion It presents six classic papers and six previously unpublished revealing his full philosophical vision for the first time *Metaphysics, Theology, and Self* Harold H. Oliver, 2006 Professor Oliver s essays propose a system of relational philosophy and theology extending his monograph *A Relational Metaphysic* along new lines Themes developed include the following on the issue of truth in scientific and religious discourse as seen from the claim of their complementarity the problem of Western substantialism as answered by a proposed non and antisubstantialist theory of selfhood as an alternative to the Western ego certain hermeneutical themes and several themes introducing new facets of relational thought **Metaphysics and God** Kevin Timpe, 2009-05-07 This volume focuses on contemporary issues in the philosophy of religion through an engagement with Eleonore Stump s seminal work in the field Topics covered include the metaphysics of the divine nature e g divine simplicity and eternity the nature of love and God s relation to human happiness and the issue of human agency e g the nature of the human soul and hell *Analytic Theology* Oliver Crisp, Michael C. Rea, 2009-02-12 that offer some more critical perspectives Book Jacket **Between Naturalism and Religion** Jürgen Habermas, 2008-06-03 In this book Habermas examines the tension between the spread of naturalistic scientific views on the one hand and the rise of religious orthodoxies and revitalization of religious traditions on the other God after Metaphysics John Panteleimon Manoussakis, 2007-05-23 While philosophy believes it is impossible to have an experience of God without the senses theology claims that such an experience is possible though potentially idolatrous In this engagingly creative book John Panteleimon Manoussakis ends the impasse by proposing an aesthetic allowing for a sensuous experience of God that is not subordinated to imposed categories or concepts Manoussakis draws upon the theological traditions of the Eastern Church including patristic and liturgical resources to build a theological aesthetic founded on the inverted gaze of icons the augmented language of hymns and the reciprocity of touch Manoussakis explores how a relational interpretation of being develops a fuller and more meaningful view of the phenomenology of religious experience beyond metaphysics and onto theology *The Cosmic Breath* Amos Yong, 2012-05-10 The interjection of pneumatology in both theologies of interreligious dialogue and in the theology and science conversation comes together in this volume The resulting Christianity Buddhism science triologue opens up to new pneumatological perspectives on philosophical cosmology and anthropology in interdisciplinary and global context **Soul, Body, and Survival** Kevin Corcoran, 2001 How are soul and body related to one another Are human beings immaterial souls or complex physical organisms Will we survive the death of our bodies Does only the dualist view allow the possibility of life after death This collection brings together cutting edge research on the metaphysics of human nature and the possibility of post mortem survival Kevin Corcoran s collection *Soul*

Body and Survival includes chapters from those who embrace traditional soul body dualism those who assert person body identity and those who propose entirely new views that fall outside the categories of monism and dualism The first book to connect the metaphysics of persons with the belief in life after death thus intersecting with theological as well as philosophical inquiry it blurs the divide between metaphysics and the philosophy of mind

Witness and Existence Philip E. Devenish, George L. Goodwin, 1989-06-05 For over thirty years Schubert Ogden has championed and exemplified a particular understanding of the task and content of Christian theology The task of theology is to examine the meaning and truth of Christian faith in terms of human experience All theological claims therefore are assessable by two criteria their appropriateness to the normative Christian witness and their credibility in terms of human existence The content of Christian theology may be accurately and succinctly stated in two words radical monotheism The point of all theological doctrines from christology to ethics is to reflect on the gift and demand of God's love It may be said then that Ogden's entire theological project consists in the attempt to show that radical monotheism which is the essential point of the Christian witness is also the inclusive end of human existence Witness and Existence pays tribute to Ogden by bringing together essays by eminent scholars in New Testament studies and philosophical theology two fields which directly reflect his methodological concerns and his substantive contributions The book honors Ogden precisely by engaging the fundamental issues which Ogden himself has taken so seriously The first group of essays presents careful analyses of issues basic to the early Christian witness the second group examines the credibility of the Christian claim about God in terms of human experience The editors introductory essay provides the first comprehensive analysis yet to appear of Ogden's theology A complete bibliography of his published writings is included as an appendix

Being and Reason Martin Lin, 2019 In Spinoza's metaphysics there is only one substance God or nature Martin Lin offers a new interpretation arguing against idealist readings where the metaphysical is grounded in something epistemic logical or psychological In Lin's realist interpretation finite natural creatures stand to God or nature as waves stand to an ocean

Whitehead's Philosophy Janusz A. Polanowski, Donald W. Sherburne, 2012-02-01 This volume explores the range of Alfred North Whitehead's philosophy and his relevance to contemporary philosophical traditions While philosophers and theologians with only a passing acquaintance with Whitehead might think that his philosophy is unconnected to our Western philosophical tradition the contributors prove that nothing could be further from the truth The most respected scholars in the field George Allan Lisa Bellantoni John B Cobb Jr Frederick Ferr David L Hall William S Hamrick Robert Cummings Neville Janusz A Polanowski Patrick Shade and Donald W Sherburne illustrate points of connection between Whitehead's ideas to the following Descartes the so called Father of Modern Philosophy classical American thought several contemporary American thinkers including Richard Rorty and Alasdair MacIntyre aspects of European philosophy and current reflections upon the environment and technology

Finding God Again John J. Shea, 2005 Growing out of two decades of teaching and practice John Shea addresses in an

experiential and pastoral way the need to re envision God as we grow from an adolescent to adult spirituality **The Entangled God** Kirk Wegter-McNelly, 2012-03-12 In *The Entangled God* Kirk Wegter McNelly addresses the age old theological question of how God is present to the world by constructing a novel scientifically informed account of the God world relation Drawing on recent scientific and philosophical work in quantum entanglement Wegter McNelly develops the metaphor of divine entanglement to ground the relationality and freedom of physical process in the power of God s relational being *The Entangled God* makes a three fold contribution to contemporary theological and religious discourse First it calls attention to the convergence of recent theology around the idea of relationality Second it introduces theological and religious readers to the fascinating story of quantum entanglement Third it offers a robust plerotic alternative to kenotic accounts of God s suffering presence in the world Above all this book takes us beyond the view of theology and science as adversaries and demonstrates the value of constructively relating these two important areas of intellectual investigation *The Voice of the Earth* Theodore Roszak, 2001-01-01 What is the bond between the human psyche and the living planet that nurtured us and all of life into existence What is the link between our own mental health and the health of the greater biosphere In this bold ambitious philosophical essay Publishers Weekly historian and cultural critic Roszak explores the relationships between psychology ecology and new scientific insights into systems in nature Drawing on our understanding of the evolutionary self organizing universe Roszak illuminates our rootedness in the greater web of life and explores the relationship between our own sanity and the larger than human world *The Voice of the Earth* seeks to bridge the centuries old split between the psychological and the ecological with a paradigm which sees the needs of the planet and the needs of the person as a continuum The Earth s cry for rescue from the punishing weight of the industrial system we have created is our own cry for a scale and quality of life that will free us to become whole and healthy This second edition contains a new afterword by the author **Planetary Loves** Stephen D. Moore, Mayra Rivera, 2011 Postcolonial theology has recently emerged as a site of intense intellectual and political energy and has taken its place in the interdisciplinary field of postcolonial studies This volume is animated by the conviction that postcolonial theology is now ready for a second deeper phase of engagement with postcolonial theory one that moves beyond the general to the specific No critic has been more emblematic of the challenging and contested field of postcolonial theory than Gayatri Chakravorty Spivak In this volume the product of a theological colloquium in which Spivak herself participated theologians and biblical scholars engage with her thought in order to catalyze a diverse range of original theological and exegetical projects The volume opens with a topography of postcolonial theology and also includes other valuable introductory essays At the center of the collection are transcriptions of two extended public dialogues with Spivak on theology and religion in general A further dozen essays appropriate Spivak s work for theological and ethical reflection The volume is also significant for the larger field of postcolonial studies in that it is the first to focus centrally on Spivak s immensely suggestive and vital concept of planetarity *Circling the Elephant* John J.

Thatamanil, 2020-06-02 Christian theologians have for some decades affirmed that they have no monopoly on encounters with God or ultimate reality and that other religions also have access to religious truth and transformation. If that is the case, the time has come for Christians not only to learn about but also from their religious neighbors. *Circling the Elephant* affirms that the best way to be truly open to the mystery of the infinite is to move away from defensive postures of religious isolationism and self-sufficiency and to move in vulnerability and openness toward the mystery of the neighbor. Employing the ancient Indian allegory of the elephant and blindfolded men, John J. Thatamanil argues for the integration of three often separated theological projects: theologies of religious diversity, the work of accounting for why there are so many different understandings of the elephant, comparative theology, the venture of walking over to a different side of the elephant, and constructive theology, the endeavor of re-describing the elephant in light of the other two tasks. *Circling the Elephant* also offers an analysis of why we have fallen short in the past. Interreligious learning has been obstructed by problematic ideas about religion and religions. Thatamanil argues while also pointing out the troubling resonances between reified notions of religion and race. He contests these notions and offers a new theory of the religious that makes interreligious learning both possible and desirable. Christians have much to learn from their religious neighbors even about such central features of Christian theology as Christ and the Trinity. This book envisions religious diversity as a promise, not a problem, and proposes a new theology of religious diversity that opens the door to robust interreligious learning and Christian transformation through encountering the other.

William Desmond and Contemporary Theology Christopher Ben Simpson, Brendan Thomas Sammon, 2017-11-15 In *William Desmond and Contemporary Theology* Christopher Simpson and Brendan Sammon coordinate through a collection of scholarly essays a timely exploration of William Desmond's work on theology and metaphysics, bringing the disciplines of philosophy and theology together in new and vital ways. The book examines the contribution that Desmond's metaphysics makes to contemporary theological discourse and to the renewal of metaphysics. A central issue for the contributors is the renewal of metaphysics within the post-metaphysical or anti-metaphysical context of late modernity. This volume not only capably demonstrates the viability of the metaphysical tradition but also illuminates its effectiveness and value in dealing with the many issues in contemporary theological conversation. *William Desmond and Contemporary Theology* presents Desmond's contemporary yet historically aware continental metaphysics as able to provide revealing insights for the discussion of the relation between philosophy and theology. Simpson and Sammon argue moreover that Desmond's contribution to linking these two fields makes him an important voice in the academic conversation. Students and scholars of Desmond, contemporary philosophy, theology, and literature will find much to provoke thought in this collection.
