**Redefining Elizabethan Literature** Georgia Brown, 2004-11-18 *Redefining Elizabethan Literature* examines the new definitions of literature and authorship that

emerged in one of the most remarkable decades in English literary history the 1590s Georgia Brown analyses the period's obsession with shame as both a literary theme and a conscious authorial position She explores the related obsession of this generation of authors with fragmentary and marginal forms of expression such as the epyllion paradoxical encomium sonnet sequence and complaint Combining developments in literary theory with close readings of a wide range of Elizabethan texts Brown casts light on the wholesale eroticisation of Elizabethan literary culture the form and meaning of Englishness the function of gender and sexuality in establishing literary authority and the contexts of the works of Shakespeare Marlowe Spenser and Sidney This study will be of great interest to scholars of Renaissance literature as well as cultural history and gender studies     *Raphael and the Redefinition of Art in Renaissance Italy* Robert Williams, 2017-04-03 A comprehensive re

assessment of Raphael's artistic achievement and the ways in which it transformed the idea of what art is     **Redefining**

**Teacher Preparation** Caroline M. Crawford, Ph.D, Sandra L. Hardy, Ph.D, 2017-10-11 The text focuses upon redefining teacher preparation through learning from experience pertaining to advocacy equity leadership and professionalism for classroom teachers as associated teacher educators in all settings The chapters highlight Association of Teacher Educators Standards and offer connections to classroom educators at all stages     **Redefining Recovery from Aphasia** Dalia

Cahana-Amitay, Martin L. Albert, 2015 This book focuses on two fundamental aspects of brain language relations one concerns the neural organization of language in the healthy brain the other challenges current approaches to treatment of aphasia and offers a new theory for recovery from aphasia The essence of the book lies in the phrase neural multifunctionality the constant and dynamic incorporation of non linguistic functions into language models of the intact brain The book makes the claim that language is a construction created as we use it and cannot be understood as being supported by neurally based linguistic networks only Rather language emerges from the constant and dynamic interaction among neural networks subserving cognitive affective and praxic functions with neural networks subserving lexical retrieval naming sentence processing comprehension and discourse communication conversation In persons with stroke induced aphasia neural networks for executive system function attention memory motor system function visual system function and emotion interact with neural networks for language to produce the aphasia profile and to influence recovery from aphasia Consequently neural multifunctionality in aphasia explains individual differences in the lesion deficit model and continued recovery over time redefining the concept of recovery from aphasia and offering new opportunities for treatment

**Redefining Educational Leadership in Central Asia** Mir Afzal Tajik, Tsedisio Michael Makoelle, 2024-03-21 Redefining Educational Leadership in Central Asia brings together the voices views experiences and reflections of educational leaders from both secondary schools and higher education institutions in Kazakhstan and Kyrgyzstan     Multicultural Challenges and Redefining Identity in East Asia Nam-Kook Kim, 2016-04-15 Globalization and increased migration have brought both new opportunities and new tensions to traditional East Asian societies Multicultural Challenges and Redefining Identity in

East Asia draws together a wide range of distinguished local scholars to discuss multiculturalism and the changing nature of social identity in East Asia Regional specialists review specific events and situations in China Korea Japan Thailand Vietnam Singapore Taiwan Malaysia Indonesia and the Philippines to provide a focus on life as it is lived at the local level whilst also tracing macro discourses on the national issues affected by multiculturalism and identity The contributors look at the uneven multicultural development across these different countries and how to bridge the gap between locality and universality They examine how ethnic majorities and minorities can achieve individual rights exert civic responsibility and explain how to construct a deliberative framework to make sustainable democracy possible This book considers the emergence of a new cross national network designed to address multicultural challenges and imagines an East Asian community with shared values of individual dignity and multicultural diversity With strong empirical support it puts forward a regulative ideal by which a new paradigm for multicultural coexistence and regional cooperation can be realized Redefining Health Care

Michael E. Porter, Elizabeth Olmsted Teisberg, 2006-04-24 The U S health care system is in crisis At stake are the quality of care for millions of Americans and the financial well being of individuals and employers squeezed by skyrocketing premiums not to mention the stability of state and federal government budgets In Redefining Health Care internationally renowned strategy expert Michael Porter and innovation expert Elizabeth Teisberg reveal the underlying and largely overlooked causes of the problem and provide a powerful prescription for change The authors argue that competition currently takes place at the wrong level among health plans networks and hospitals rather than where it matters most in the diagnosis treatment and prevention of specific health conditions Participants in the system accumulate bargaining power and shift costs in a zero sum competition rather than creating value for patients Based on an exhaustive study of the U S health care system Redefining Health Care lays out a breakthrough framework for redefining the way competition in health care delivery takes place and unleashing stunning improvements in quality and efficiency With specific recommendations for hospitals doctors health plans employers and policy makers this book shows how to move health care toward positive sum competition that delivers lasting benefits for all **Women Redefining the Experience of Food Insecurity** Janet Page-Reeves, 2014-07-03 In Women Redefining the Experience of Food Insecurity Life Off the Edge of the Table contributors stress the relationship between food insecurity and women s agency By problematizing the mundane world of how women procure and prepare food in a context of scarcity this book edited by Janet Page Reeves reveals dynamics relationships and experiences that would otherwise go unremarked and counters constructions of women s choices as predicated on ignorance irresponsibility or weakness

**Redefining the Modern Military** Nathan K. Finney, Tyrell Mayfield, 2018-10-15 This edited collection will expand upon and refine the ideas on the role of ethics and the profession in the 21st Century The authors delve into whether Samuel Huntington and Morris Janowitz still ring true in the 21st century whether training and continuing education play a role in defining a profession and if there is a universal code of ethics required for the military as a profession Redefining the Modern

Military is unique in how it treats the subject of ethics and the military profession as well as the types of writers it brings on board to address this topic The book puts a significant emphasis on individual agency for military professionalism as opposed to broad organizational or cultural change Such a review of these topics is necessary because the process of serious intellectual self reflection is a requirement especially in a profession that involves life and death of people and nations

**Redefining Virtual Teaching Learning Pedagogy** Rohit Bansal,Ram Singh,Amandeep Singh,Kuldeep

Chaudhary,Tareq Rasul,2023-03-08 Redefining Virtual Teaching Learning Pedagogy Online education is now a growing and critical piece of modern day infrastructure and this book details how virtual teaching and learning can continue to be transformed through leveraging digital platforms In the current technology driven era education systems are undergoing major changes by adopting advanced digital education strategies Schools colleges and universities around the world have swiftly switched to online delivery modes Students are learning via new platforms and the use of narrated lectures podcasts online quizzes and other e learning materials has increased Virtual learning improves the educational experience transforms teaching and learning and provides rich diverse and flexible learning opportunities for the digital generation It also makes students able to gain share and verify knowledge through different sources such as social media communities blogging web based content writing video based learning etc The main focus of Redefining Virtual Teaching Learning Pedagogy is to bring together leading academic scientists researchers and research scholars to exchange and share their experiences and results on all aspects of virtual learning and teaching The chapters mainly focus on 6 critical areas of virtual teaching and learning Curriculum and learning objectives Learning materials Pedagogic processes Classroom assessment frameworks Teacher support in the classrooms School leadership and management development Audience Educators researchers academicians entrepreneurs and corporate professionals will gain knowledge and be updated about the role future of virtual teaching and learning and the latest digital tools used for that purpose

**Integrative Multi-Omics for Diagnosis, Treatments, and Drug Discovery of Aging-Related Neuronal Diseases** Min Tang,Tao Huang,Jialiang Yang,Cheng Guo,2022-11-23 As the cost of high throughput sequencing goes down huge volumes of biological and medical data have been produced from various sequencing platforms at multiple molecular levels including genome transcriptome proteome epigenome metabolome and so on For a long time data analysis on single molecular levels has paved the way to answer many important research questions However many Aging Related Neuronal Diseases ARNDs and Central Nervous System CNS aging involve interactions of molecules from multiple molecular levels in which conclusions based on single molecular levels are usually incomplete and sometimes misleading In these scenarios multi omics data analysis has unprecedentedly helped capture much more useful information for the diagnosis treatment prognosis and drug discovery of ARNDs The first step towards a multi omics analysis is to establish reliable and robust multi omics datasets In the past years a few important ARNDs associated multi omics databases like Allen Brain have been constructed which raised immediate needs like data curation normalization

interpretation and visualization for integrative multi omics explorations Though there have been several well established multi omics databases for ARNDs like Alzheimer s disease similar databases for other ARNDs are still in urgent need After the databases establish many computational tools and experiential strategies should be developed specifically for them First the multi omics data are usually extremely noisy complex heterogeneous and in high dimension which presents the need for appropriate denoising and dimension reduction methods Second since the multi omics and non omics data like pathological and clinical data are usually in different data spaces a useful algorithm to mapping them into the same data space and integrate them is nontrivial In the multi omics era there are numerous data centric tools for the integration of multi omics datasets which could be generally divided into three categories unsupervised supervised and semi supervised methods Commonly used algorithms include but not limited to Bayesian based methods Network based methods multi step analysis methods and multiple kernel learning methods Third methods are needed in studying and verifying the association between two or more levels of multi omics data and non omics data For example expression quantitative trait loci eQTL analysis is widely used to infer the association between a single nucleotide polymorphism SNP and the expression of a gene Recently the association between omics data and more complex data like pathological and clinical imaging data has been a hot research topic The outcomes may reveal the underlying molecular mechanism and promote de novo drug design as well as drug repurposing for ARNDs Here we welcome investigators to share their Original Research Review Mini Review Hypothesis and Theory Perspective Conceptual Analysis Data Report Brief Research Report Code related to multi omics studies of ARNDs which can be applied for better diagnosis treatment prognosis and drug discovery of human diseases in the future era of precision medicine Potential contents include but are not limited to the following Methods for integrating interpreting or visualizing two or more omics data Methods for identifying interactions between different data modalities Methods for disease subtyping biomarker prediction Machine learning or deep learning methods on dimensional reduction and feature selection for big noisy data Methods for studying the association among different omics data or between omics and non omics data like clinical pathological and imaging data Review of multi omics resource about ARNDs and or CNS aging Experimental validation of biomarkers identified from multi omics data analysis Disease diagnosis and prognosis prediction from imaging and non imaging data analysis or both Clinical applications or validations of findings from multi omics data analysis

The Art Museum Redefined Johanna K. Taylor, 2019-10-04 This book presents a critical analysis of the power and opportunity created in the implementation of community engaged practices within art museums by looking at the networks connecting art museums to community organizations artists and residents The Art Museum Redefined places the interaction of art museums and urban neighbourhoods as the central focus of the study to investigate how museums and artists collaborate with residents and local community groups Rather than defining the community solely from the perspective of a museum looking out at its audience the research examines the larger networks of art organizing and creative

activism connected to the museum that are active across the neighbourhood Taylor's research encompasses the grassroots efforts of local groups and their collaboration with museums and other art institutions that are extending their reach outside their physical walls and into the community This focus on social engagement speaks to recent emphasis in cultural policy on cultural equity and inclusion creative place making and community engagement at neighbourhood and city levels and will be of interest to students scholars and policy makers alike

volume     **Redefining Education and Development** Kaitano Dube,2024-10-18 The book aligns with the United Nations Sustainable Development Goals SDGs particularly Goal 4 which focuses on quality education It explores the evolving role of education as a critical driver for achieving all 17 SDGs by providing a platform for discussing innovative educational models and theories that foster sustainable development The book takes an interdisciplinary approach merging educational theory developmental practice and human psychology to address complex global challenges hindering sustainable development The book includes case studies and empirical research such as exploring student entrepreneurship in the agricultural sector and the factors bridging the gap between entrepreneurial intention and venture creation These examples provide readers with practical applications of theoretical concepts and demonstrate the real world impact of educational innovations which is at the core of education delivery for all and how education touches on other areas of the SDGs The book offers valuable insights for policymakers educators and development practitioners by presenting research and theory based analyses It suggests ways to improve the academic environment to foster entrepreneurship and innovation which are key to economic development and job creation especially in regions with high youth unemployment rates The content suggests educational reforms that are responsive to the changing societal and economic landscapes The book s blend of theory and practice targets a broad audience including academic scholars students development agencies non governmental organisations and policymakers It seeks to engage these diverse readers in a conversation about the future of education and its role in achieving sustainable development In summary the book seeks to provide a comprehensive exploration of the nexus between education development and human needs in the context of the SDGs offering innovative perspectives and practical solutions to equip readers to contribute to sustainable global development     **Redefining Organised Crime: A Challenge for the**

**European Union?** Stefania Carnevale,Serena Forlati,Orsetta Giolo,2017-12-28 The definition of organised crime has long been the object of lively debate at national and international level Sociological and legal analysis has not yet led to one definitive answer to the question of what exactly organised crime means Nonetheless many instruments adopted both at international and national levels set forth special legal regimes designed to target criminal groups featuring a stable organisation which are perceived as particularly dangerous to society Therefore identifying the notion of organised crime is crucial to establishing the scope of any legal instrument specifically designed for combating it The aim of this book is to reassess the scope the effectiveness and the overall coherence of existing definitions of organised crime and to identify any need for a reconsideration of these definitions specifically with reference to the EU legal order It will be of interest to academics practitioners and legislators working in the sphere of EU criminal law and of organised crime more generally

Redefining Tourism With AI and the Metaverse Valeri, Marco,Shah, Syed Haider Ali,Al-Ghazali, Basheer M.,2025-03-12 The integration of Artificial Intelligence and the metaverse is revolutionizing the tourism industry creating new possibilities for immersive and personalized travel experiences AI driven algorithms enable tailored recommendations while virtual

environments in the metaverse allow users to explore destinations digitally before ever setting foot there. These advancements enhance accessibility, streamline operations, and redefine how travelers engage with destinations. As technology continues to evolve, understanding its impact on tourism is essential for industry professionals, researchers, and policymakers shaping the future of digital travel. *Redefining Tourism With AI and the Metaverse* explores the mechanisms by which AI's sophisticated algorithms and the metaverse's expansive virtual landscapes are converging to forge innovative travel experiences. It delves into the creation of deeply personalized and interactive journeys leveraging AI for tailored recommendations and the metaverse for creating immersive digital first destinations. This book covers topics such as data analysis, environmental conservation, and artificial intelligence and is a useful resource for engineers, tourism professionals, business owners, environmental scientists, academicians, and researchers.
