Parenting with Purpose Nina V. Garcia, 2015-09-18 In this practical eye opening and action oriented book Nina Garcia explains how to use connection to raise well behaved kids and strengthen your parent child relationship You ll learn How to diffuse and prevent tantrums and outbursts How to better communicate with your child Practical advice on structuring your day around routines The secret to starting your day off right with your child How to parent calmly and not lose your temper And so much more Maybe you re fed up with your child s outbursts and wonder how many tantrums are too many Or you want to address his behavior with empathy and patience rather than through punishment Perhaps you want to lessen fighting as well as equip your child with the skills to prevent arguments in the first place You ve tried time outs Counting to three before they re really in trouble Maybe you ve lost your temper Except nothing is working at least in the long run You continue to butt heads and you re exhausted with having to deal with yet another day of disciplining And here s why we ve got this discipline thing all wrong We assume discipline is about punishment or we assume it s what we need to take away from them to curb misbehavior We mistakenly believe that the main purpose of discipline is to stop tantrums and outbursts at all costs as quickly as possible Let s get to the real definition of discipline discipline is teaching our kids Because isn t that what parenting really is Your job is to arm them with the skills they need and would serve them well in the future so they grow into kind adults who can regulate emotions or empathize with others They ll be adults who treat others with respect and don t expect the world to bow down to their wishes The kind of person you d want your child to eventually grow up to be With each outburst comes the opportunity to help them develop these skills They learn more about their feelings and appropriate ways to express them A child who can articulate mad can identify that emotion and use techniques to convey frustration So that next time there won t be a tantrum to get their point across but rather a more mature discussion or a different way to control their temper And the best way to discipline is through connection As ironic as it sounds we need to connect with our kids when they re acting up The times when they re most unpleasant are when they need us the most Connection works to prevent outbursts as well as better handle them when they inevitably happen This doesn t mean you ll be permissive You still need to enforce limits and set boundaries You won t let your child continue to jump on the couch or color on the walls when he s not allowed to But you focus on what you want your child to learn from the incident rather than only making sure he doesn t do it again Because yes

it's important your child stops coloring the walls But it's equally important for him to develop the skills to communicate and make better decisions You don't accept the behavior but you are there to guide him through it This book provides you with the tools you need to handle conflict as you see fit What worked one day may not work the next And what worked for your first child may be ineffective with your second You don't have to get it just right Parenting with Purpose is for parents who want to raise their children using intention and mindfulness Are you ready to raise well behaved kids and strengthen your relationship with your child Scroll to the top of the page and get your copy now
