Harmony of Some Revelations in Nature and in Grace John Jabez Lanier, 1908 *Empty Revelations* Peter Alward, 2012-10-01 What mysteries lie at the heart of fiction s power to enchant and engage the mind Empty Revelations considers a number of philosophical problems that fiction raises including the primary issue of how we can think and talk about things that do not exist Peter Alward covers thought provoking terrain exploring fictional truth the experience of being caught up in a story and the boundaries between fiction and non fiction At the centre of Alward s argument is a figure known as the narrative informant who mediates the reader s encounter with fictional events through sometimes unreliable reporting Developing a theory in which the author is a sculptor who constructs works of fiction out of words Alward demonstrates that much of the confusion about fiction stems from a failure to properly distinguish between writing fiction and telling stories Combining clarity philosophical sophistication ingenuity and originality Empty Revelations is a rewarding read for both scholars of philosophy and anyone interested in the complex ways that fiction works
