Balderston,1992-05-20 The enormous body of short story anthologies from the nineteen countries of Spanish America and
Brazil testifies to their importance for writers editors readers and especially for schools and universities teachers and
students The study of anthologies and their contents can be particularly revealing for many of the questions looming large in
critical discourse particularly those on canon formation and the relations between literature and cultural institutions but
researching this corpus is difficult because it varies greatly in quality distribution and format The present volume for the first
time gathers this mass of material and organizes it for systematic study The main section comprises annotated listings of
1302 short story anthologies those with stories from all or most of the countries grouped together including a section of
English language anthologies those from countries of a region and those from individual nations For most entries a full listing
of contents is provided along with brief commentary A second section comprises annotated bibliographies of criticism of the
short story similarly arranged with materials for Latin America as a whole as well as regionally and nationally The volume
ends with four indexes of authors of the stories of authors of essays introductions and other critical materials of titles of the
critical works and of themes An essential tool for scholars working on Latin American narrative this bibliography will also
serve as a practical finding aid for individual writers and stories **El Libro español** ,1982 Fichero bibliográfico
