Relearning Politics Survival In The Next Century:

Relearning Politics William Hughes, Ken DeBow, Richard D. Hughes, 1993-07 Surviving Autocracy Masha Gessen, 2021-06-01 When Gessen speaks about autocracy you listen The New York Times A reckoning with what has been lost in the past few years and a map forward with our beliefs intact Interview As seen on MSNBC s Morning Joe and heard on NPR s All Things Considered the bestselling National Book Award winning journalist offers an essential guide to understanding resisting and recovering from the ravages of our tumultuous times This incisive book provides an essential guide to understanding and recovering from the calamitous corrosion of American democracy over the past few years Thanks to the special perspective that is the legacy of a Soviet childhood and two decades covering the resurgence of totalitarianism in Russia Masha Gessen has a sixth sense for the manifestations of autocracy and the unique cross cultural fluency to delineate their emergence to Americans Gessen not only anatomizes the corrosion of the institutions and cultural norms we hoped would save us but also tells us the story of how a short few years changed us from a people who saw ourselves as a nation of immigrants to a populace haggling over a border wall heirs to a degraded sense of truth meaning and possibility Surviving Autocracy is an inventory of ravages and a call to account but also a beacon to recovery and to the hope of what comes next *Speakers and Experts Guide, 1998-2000* California State University, Sacramento. Office of Communications and Public Affairs, 1997 **Subject Guide to Books in Print** , 1997 **Wicked Flesh** Jessica Marie Johnson, 2020-08-28 The story of freedom pivots on the choices black women made to retain control over their bodies and selves their loved ones and their futures The story of freedom and all of its ambiguities begins with intimate acts steeped in power It is shaped by the peculiar oppressions faced by African women and women of African descent And it pivots on the self conscious choices black women made to retain control over their bodies and selves their loved ones and their futures Slavery s rise in the Americas was institutional carnal and reproductive The intimacy of bondage whet the appetites of slaveowners traders and colonial officials with fantasies of domination that trickled into every social relationship husband and wife sovereign and subject master and laborer Intimacy corporeal carnal quotidian tied slaves to slaveowners women of African descent and their children to European and African men In Wicked Flesh Jessica Marie Johnson explores the nature of these complicated intimate and kinship ties and how they were used by black women to construct freedom in the Atlantic world Johnson draws on archival documents scattered in institutions across three continents written in multiple languages and largely from the perspective of colonial officials and slave owning men to recreate black women s experiences from coastal Senegal to French Saint Domingue to Spanish Cuba to the swampy outposts of the Gulf Coast Centering New Orleans as the quintessential site for investigating black women s practices of freedom in the Atlantic world Wicked Flesh argues that African women and women of African descent endowed free status with meaning through active aggressive and sometimes unsuccessful intimate and kinship practices Their stories in both their successes and their failures outline a practice of freedom that laid the

groundwork for the emancipation struggles of the nineteenth century and reshaped the New World

Beyond Survival Leah Lakshmi Piepzna-Samarasinha, Ejeris Dixon, 2020-01-21 Transformative justice seeks to solve the problem of violence at the grassroots level without relying on punishment incarceration or policing Community based approaches to preventing crime and repairing its damage have existed for centuries However in the putative atmosphere of contemporary criminal justice systems they are often marginalized and operate under the radar Beyond Survival puts these strategies front and center as real alternatives to today's failed models of confinement and correction In this collection a diverse group of authors focuses on concrete and practical forms of redress and accountability assessing existing practices and marking paths forward They use a variety of forms from toolkits to personal essays to delve deeply into the how to of transformative justice providing alternatives to calling the police ways to support people having mental health crises stories of community based murder investigations and much more At the same time they document the history of this radical movement creating space for long time organizers to reflect on victories struggles mistakes and transformations

Survival of the Friendliest Brian Hare, Vanessa Woods, 2020-07-14 A powerful new theory of human nature suggests that our secret to success as a species is our unique friendliness Brilliant eye opening and absolutely inspiring and a riveting read Hare and Woods have written the perfect book for our time Cass R Sunstein author of How Change Happens and co author of Nudge For most of the approximately 300 000 years that Homo sapiens have existed we have shared the planet with at least four other types of humans All of these were smart strong and inventive But around 50 000 years ago Homo sapiens made a cognitive leap that gave us an edge over other species What

happened Since Charles Darwin wrote about evolutionary fitness the idea of fitness has been confused with physical strength tactical brilliance and aggression In fact what made us evolutionarily fit was a remarkable kind of friendliness a virtuosic ability to coordinate and communicate with others that allowed us to achieve all the cultural and technical marvels in human history Advancing what they call the self domestication theory Brian Hare professor in the department of evolutionary anthropology and the Center for Cognitive Neuroscience at Duke University and his wife Vanessa Woods a research scientist and award winning journalist shed light on the mysterious leap in human cognition that allowed Homo sapiens to thrive But this gift for friendliness came at a cost Just as a mother bear is most dangerous around her cubs we are at our most dangerous when someone we love is threatened by an outsider The threatening outsider is demoted to sub human fair game for our worst instincts Hare s groundbreaking research developed in close coordination with Richard Wrangham and Michael Tomasello giants in the field of cognitive evolution reveals that the same traits that make us the most tolerant species on the planet also make us the cruelest Survival of the Friendliest offers us a new way to look at our cultural as well as cognitive evolution and sends a clear message In order to survive and even to flourish we need to expand our definition of who belongs

More: The Politics of Economic Growth in Postwar America Robert M. Collins,2000-02-21 James

Carville famously reminded Bill Clinton throughout 1992 that it's the economy, stupid! Yet for the last forty years historians of modern America have ignored the economy to focus on cultural, social and political themes from the birth of modern feminism to the fall of the Berlin Wall. Now a scholar has stepped forward to place the economy back in its rightful place at the center of his historical narrative. In *More*, Robert M. Collins reexamines the history of the United States from Franklin Delano Roosevelt to Bill Clinton, focusing on the federal government's determined pursuit of economic growth. After tracing the emergence of growth as a priority during FDR's presidency, Collins explores the record of successive administrations, highlighting both their success in fostering growth and its partisan uses. Collins reveals that the obsession with growth appears not only as a matter of policy but as an expression of Cold War ideology, both a means to pay for the arms build-up and proof of the superiority of the United States market economy. But under Johnson, this enthusiasm sparked a crisis: spending on Vietnam unleashed runaway inflation while the nation struggled with the moral consequences of its prosperity. Reflected in books such as John Kenneth Galbraith's *The Affluent Society* and Rachel Carson's *Silent Spring*, *More* continues up to the end of the 1990s as Collins explains the real impact of Reagan's policies and astutely assesses Clinton's disciplined growthmanship, which combined deficit reduction and a relaxed but watchful monetary policy by the Federal Reserve. Writing with eloquence and analytical clarity, Robert M. Collins offers a startlingly new framework for understanding the history of postwar America.

[Ask the Astronaut](#) Tom Jones, 2016-03-22 Ever wondered what space is really like? Thanks to his 25 years of training for flying in, consulting on, and writing and speaking about space, astronaut and spacewalker Tom Jones can answer that question and many others. What do you feel on liftoff? What is weightlessness? Where do you sleep in space? Can you see the Great Wall of China? Jones answers every question you have ever had about space in *Ask the Astronaut*. His entertaining blend of wit, personal experience, and technical expertise shines in each answer, and together all the answers illuminate the true space experience from start to finish. His engaging and informative responses remind readers of historic space achievements, acquaint them with exciting new ambitions, make them feel like they have experienced space firsthand, and even inspire an urge to explore space themselves. Jones covers everything from the training process for new astronaut candidates and the physical sensations and challenges of rocketing into orbit to what it's like to live, work, and walk in space. Jones also explores the future of spaceflight, both professional and commercial, in the years to come. *Ask the Astronaut* is a delight for all readers, especially armchair astronauts and younger 21st-century space explorers.

The Light of Knowledge Francis Cody, 2013-11-15 Since the early 1990s, hundreds of thousands of Tamil villagers in southern India have participated in literacy lessons, science demonstrations, and other events designed to transform them into active citizens with access to state power. These efforts to spread enlightenment among the oppressed are part of a movement known as the Arivoli Iyakkam, the Enlightenment Movement, considered to be among the most successful mass literacy movements in recent history. In *The Light of Knowledge*, Francis Cody's ethnography of the Arivoli Iyakkam highlights the paradoxes

inherent in such movements that seek to emancipate people through literacy when literacy is a power laden social practice in its own right The Light of Knowledge is set primarily in the rural district of Pudukkottai in Tamil Nadu and it is about activism among laboring women from marginalized castes who have been particularly active as learners and volunteers in the movement In their endeavors to remake the Tamil countryside through literacy activism workers in the movement found that their own understanding of the politics of writing and Enlightenment was often transformed as they encountered vastly different notions of language and imaginations of social order Indeed while activists of the movement successfully mobilized large numbers of rural women they did so through logics that often pushed against the very Enlightenment rationality they hoped to foster Offering a rare behind the scenes look at an increasingly important area of social and political activism The Light of Knowledge brings tools of linguistic anthropology to engage with critical social theories of the postcolonial state
