Elman,2009-07-01 In *On Their Own Terms* Benjamin A Elman offers a much needed synthesis of early Chinese science during the Jesuit period 1600 1800 and the modern sciences as they evolved in China under Protestant influence 1840s 1900 By 1600 Europe was ahead of Asia in producing basic machines such as clocks levers and pulleys that would be necessary for the mechanization of agriculture and industry In the seventeenth and eighteenth centuries Elman shows Europeans still sought from the Chinese their secrets of producing silk fine textiles and porcelain as well as large scale tea cultivation Chinese literati borrowed in turn new algebraic notations of Hindu Arabic origin Tychonic cosmology Euclidian geometry and various computational advances Since the middle of the nineteenth century imperial reformers early Republicans Guomindang party cadres and Chinese Communists have all prioritized science and technology In this book Elman gives a nuanced account of the ways in

which native Chinese science evolved over four centuries under the influence of both Jesuit and Protestant missionaries In the end he argues the Chinese produced modern science on their own terms A Spell in the Forest Roselle Angwin,2021-07 The magic of trees Guides to the wildwood keepers of mysteries tellers of tales *Madness and Civilization* Michel Foucault,2013-01-30 Michel Foucault examines the archeology of madness in the West from 1500 to 1800 from the late Middle Ages when insanity was still considered part of everyday life and fools and lunatics walked the streets freely to the time when such people began to be considered a threat asylums were first built and walls were erected between the insane and the rest of humanity *Theater as Metaphor* Elena Penskaya,Joachim Küpper,2019-05-20 The papers of the present volume investigate the potential of the metaphor of life as theater for literary philosophical juridical and epistemological discourses from the Middle Ages through modernity and focusing on traditions as manifold as French Spanish Italian German Russian and Latin American *Book of the Dead* Foy Scalf,2017 Discover how the ancient Egyptians controlled their immortal destiny This book edited by Foy Scalf explores what the Book of the Dead was believed to do how it worked how it was made and what happened to it Networked Governance of Freedom and Tyranny John Braithwaite,Hilary C. Charlesworth,Adérito Soares,2012-03-01 This book offers a new approach to the extraordinary story of Timor Leste The Indonesian invasion of the former Portuguese colony in 1975 was widely considered to have permanently crushed the Timorese independence movement Initial international condemnation of the invasion was quickly replaced by widespread acceptance of Indonesian sovereignty But inside Timor Leste various resistance networks maintained their struggle against all odds Twenty four years later the Timorese were allowed to choose their political future and the new country of Timor Leste came into being in 2002 This book presents freedom in Timor Leste as an accomplishment of networked governance arguing that weak networks are capable of controlling strong tyrannies Yet as events in Timor Leste since independence show the nodes of networks of freedom can themselves become nodes of tyranny The authors argue that constant renewal of liberation networks is critical for peace with justice feminist networks for the liberation of women preventive diplomacy networks for liberation of victims of war village development networks civil society networks Constant renewal of the separation of powers is also necessary A case is made for a different way of seeing the separation of powers as constitutive of the republican ideal of freedom as non domination The book is also a critique of realism as a theory of international affairs and of the limits of reforming tyranny through the centralised agency of a state sovereign Reversal of Indonesia s 1975 invasion of Timor Leste was an implausible accomplishment Among the things that achieved it was principled engagement with Indonesia and its democracy movement by the Timor resistance Unprincipled engagement by Australia and the United States in particular allowed the 1975 invasion to occur The book argues that when the international community regulates tyranny responsively with principled engagement there is hope for a domestic politics of nonviolent transformation for freedom and justice **The Making of Modern Japan** Marius B.
