Reliable Partners How Democracies Have Made A Separate Peace:

Reliable Partners Charles Lipson, 2003 Democracies often go to war but almost never against each other Indeed the democratic peace has become a catchphrase among scholars and even U S Presidents But why do democracies avoid fighting each other **Reliable Partners** offers the first systematic and definitive explanation Examining decades of research and speculation on the subject and testing this against the history of relations between democracies over the last two centuries Charles Lipson concludes that constitutional democracies have a contracting advantage a unique ability to settle conflicts with each other by durable agreements In so doing he forcefully counters realist claims that a regime s character is irrelevant to war and peace Lipson argues that because democracies are confident their bargains will stick they can negotiate effective settlements with each other rather than incur the great costs of war Why are democracies more reliable partners Because their politics are uniquely open to outside scrutiny and facilitate long term commitments They cannot easily bluff deceive or launch surprise attacks While this transparency weakens their bargaining position it also makes their promises more credible and more durable for democracies are generally stable Their leaders are constrained by constitutional rules independent officials and the political costs of abandoning public commitments All this allows for solid bargains between democracies When democracies contemplate breaking their agreements their open debate gives partners advance notice and a chance to protect themselves Hence agreements among democracies are less risky than those with nondemocratic states Setting rigorous analysis in friendly vigorous prose **Reliable Partners** resolves longstanding questions about the democratic peace and highlights important new findings about democracies in world politics from rivalries to alliances Above all it shows conclusively that democracies are uniquely adapted to seal enduring bargains with each other and thus avoid the blight of war

independence in Southern Africa Pan Africanists in alliance with Brazzaville Casablanca and Monrovia groups approached continental unity differently and regionalism continued to be a major feature Africa's challenges were often magnified by the capitalist democratic versus communist socialist bloc rivalry but through Africa's use and leveraging of IGOs the UN UNDP UNECA GATT NIEO and others to advance development the formation of the African Economic Community OAU's evolution into the AU and other alliances belied collective actions even as Africa implemented decisions that required cooperation *uti possidetis* maintaining colonial borders containing secession intra and inter state conflicts rebellions and building RECs and a united Africa as envisioned by Pan Africanists worked better collectively

Assessing the Capitalist Peace Gerald Schneider,Nils Petter Gleditsch,2013-10-18 Researchers have recently reinvigorated the idea that key features associated with a capitalist organization of the economy render nation states internally and externally more peaceful According to this adage the contract intensity of capitalist societies and the openness of the economy are among the main attributes that drive these empirical relationships Studies on the Capitalist Peace supplement the broadly received examinations on the role that economic integration in the form of trade and foreign direct investment play in the pacification of states Some proponents of the peace through capitalism thesis controversially contend that this relationship supersedes prominent explanations like Democratic Peace according to which democratic pairs of states face a reduced risk of conflict This volume takes stock of this debate Authors also evaluate the theoretical underpinnings of the relationship and offer an up to date idea history and classification of current research Leading scholars comment on these theoretical propositions and empirical findings This book is an extended and revised version of a special issue of International Interactions

Intentions in Great Power Politics Sebastian Rosato,2021-04-20 Why the future of great power politics is likely to resemble its dismal past Can great powers be confident that their peers have benign intentions States that trust each other can live at peace those that mistrust each other

are doomed to compete for arms and allies and may even go to war Sebastian Rosato explains that states routinely lack the kind of information they need to be convinced that their rivals mean them no harm Even in cases that supposedly involved mutual trust Germany and Russia in the Bismarck era Britain and the United States during the great rapprochement France and Germany and Japan and the United States in the early interwar period and the Soviet Union and United States at the end of the Cold War the protagonists mistrusted each other and struggled for advantage Rosato argues that the ramifications of his argument for U S China relations are profound the future of great power politics is likely to resemble its dismal past

U.S. Army War College Guide to National Security Issues: National security policy and strategy J. Boone

Bartholomees, Army War College (U.S.). Strategic Studies Institute, 2012 Volume II continues the analyses and discussion of national security policy and strategy Promoting Peace with Information Daniel Lindley, 2021-02-09 It is normally assumed that international security regimes such as the United Nations can reduce the risk of war by increasing transparency among adversarial nations The more adversaries understand each other's intentions and capabilities the thinking goes the less likely they are to be led to war by miscalculations and unwarranted fears But how is transparency provided how does it actually work and how effective is it in preserving or restoring peace In Promoting Peace with Information Dan Lindley provides the first scholarly answer to these important questions Lindley rigorously examines a wide range of cases including U N peacekeeping operations in Cyprus the Golan Heights Namibia and Cambodia arms control agreements including the Nuclear Non Proliferation Treaty and the historical example of the Concert of Europe which sought to keep the peace following the defeat of Napoleon in 1815 Making nuanced arguments based on extensive use of primary sources interviews and field research Lindley shows when transparency succeeds in promoting peace and when it fails His analysis reveals for example that it is surprisingly hard for U N buffer zone monitors to increase transparency yet U N nation building missions have creatively used transparency to refute harmful rumors and foster democracy For scholars Promoting Peace with Information is a major advance into the relatively uncharted intersection of institutionalism and security studies For policymakers its findings will lead to wiser peacekeeping public diplomacy and nation building **European Security**

Governance Charlotte Wagnsson, James Sperling, Jan Hallenberg, 2009-05-11 This book focuses on the problems of and prospects for strengthening the global system of security governance in a manner consistent with the aspirations and practices of the EU The EU approach to security governance has been successful in its immediate neighbourhood it has successfully exported its preferred norms and principles to applicant countries thereby pacifying its immediate neighbourhood and making all of Europe more secure The EU governance orientation ultimately seeks to enlarge the European security community and expand the geopolitical area within which armed conflicts are inconceivable and where state and private actors converge around a set of norms and rules of behaviour and engagement The EU's success along its immediate boundaries has not yet been replicated on a global scale it remains an open question whether the EU system of

governance can be exported globally owing to different normative structures for example a tolerance of armed conflict or non democratic governance internally great power competition such as US China or ongoing processes of securitization that has made it difficult to find a commonly accepted definition of security Moreover the EU system of security governance clashes with the continuing unwillingness of other major powers to cede or pool sovereignty as well as varying preferences for unilateral as opposed to multilateral forms of statecraft This edited volume addresses both the practical and political aspects of security governance and the barriers to the globalization of the EU system of security governance particularly in the multipolar post Cold War era This book will be of great interest to students of security governance EU politics European Security and IR in general James Sperling is Professor of Political Science at the University of Akron Ohio USA Jan Hallenberg is Professor of Political Science at the Department of Security and Strategic Studies Swedish National Defence College Charlotte Wagnsson is Assistant Professor in the Department of Strategic and Security Studies at the Swedish National Defence College

Ethnic Conflict in Asymmetric Federations Gorana Grgić, 2016-12-19 In the last years of their existence the Union of Soviet Socialist Republics USSR and the Socialist Federal Republic of Yugoslavia SFRY found themselves facing a similar and very grim state of affairs After their disintegration the former Yugoslav republics spiralled into a set of ethnic conflicts that did not leave a single one of them unscathed and in the ex Soviet space conflicts were far more limited This book offers an in depth analysis of the difference in state collapses and ensuing conflicts in the Soviet Union and Yugoslavia by focusing on their asymmetric ethnofederal structure and the different dynamics of ethnic mobilization that the federal units experienced Moreover it explores the links between identity politics and international relations as the latter has been a latecomer in research on ethnonationalism and ethnic conflict Finally it contributes to the literature on the democratization conflict nexus by proposing that the sequencing of ethnic mobilization and political liberalization has significant effects on the likelihood of conflict This text will be of key interest to scholars and students of Post Soviet politics Balkan politics ethnic conflict peace and conflict studies federalism and more broadly to comparative politics and international relations
