Dennis Ford, 2007-09-10 In The Search for Meaning A Short History Dennis Ford explores eight approaches human beings have pursued over time to invest life with meaning and to infuse order into a seemingly chaotic universe These include myth philosophy science postmodernism pragmatism archetypal psychology metaphysics and naturalism In engaging companionable prose Ford boils down these systems to their bare essentials showing the difference between viewing the world from a religious point of view and that of a naturalist and comparing a scientific worldview to a philosophical one Ford investigates the contributions of the Greeks Kant and William James and brings the discussion up to date with contemporary thinkers He proffers the refreshing idea that in today s world the answers provided by traditional religions to increasingly difficult questions have lost their currency for many and that the reductive or rationalist answers provided by science and postmodernism are themselves rife with unexamined assumptions *The Great Partnership* Jonathan Sacks, 2012-09-11 A

Finding Meaning in the Second Half of Life James Hollis, 2005-05-05

What does it really mean to be a grown up in today's world We assume that once we get it together with the right job marry the right person have children and buy a home all is settled and well But adulthood presents varying levels of growth and is rarely the respite of stability we expected Turbulent emotional shifts can take place anywhere between the age of thirty five and seventy when we question the choices we've made realize our limitations and feel stuck commonly known as the midlife crisis Jungian psychoanalyst James Hollis believes it is only in the second half of life that we can truly come to know who we are and thus create a life that has meaning In Finding Meaning in the Second Half of Life Hollis explores the ways we can grow and evolve to fully become ourselves when the traditional roles of adulthood aren't quite working for us revealing a new way of uncovering and embracing our authentic selves Offering wisdom to anyone facing a career that no longer seems fulfilling a long term relationship that has shifted or family transitions that raise issues of aging and mortality Finding Meaning in the Second Half of Life provides a reassuring message and a crucial bridge across this critical passage of adult development A Secular Age Charles Taylor, 2018-09-17

Science and Religion in Search of Cosmic Purpose John F. Haught, 2000-03-03 Many scientists today think of the universe as essentially purposeless Likewise modern and postmodern philosophers have often been suspicious of any religious claims that the natural world embodies and eternal meaning or teleology Not all scientific thinkers subscribe to this cosmic pessimism however and some would even argue that contemporary knowledge is consistent with a religious sense of cosmic purpose This stimulating book offers candid reflections on the question of cosmic purpose written both by prominent scientists and by scholars representing the world's religious traditions Examining the issue from a wide variety of perspectives this is the only current book to deal with cosmic purpose from an interreligious and interdisciplinary perspective Here scientists such as physicist Andrei Linde and biologist

Francisco Ayala come face to face with Islamic scholar Seyyed Hossein Nasr Hindu philosopher Anindita Niyogi Balslev and others They examine such perplexing issues as the possible existence of multiple universes and the implications of seemingly purposive features in life The contributions address the question of whether a religiously based notion of a purposeful cosmos is consistent with the latest scientific understanding of nature and whether theology can affirm the presence of divine action without contradicting science These essays will challenge readers to ponder their own place in the cosmos as they seek to interpret the visions of the world s great spiritual traditions in the light of natural science **Finding Your Religion** Scotty McLennan, 2000-12-26 An Indispensable Guidebook for Those Seeking a New Spiritual Path or Wishing to Reconnect to the Religion of Their Youth
