# Religion After Metaphysics

**G. Elijah Dann**

## **Religion After Metaphysics:**

*Religion After Metaphysics* Mark A. Wrathall, 2003-11-27 How should we understand religion and what place should it hold in an age in which metaphysics has come into disrepute The metaphysical assumptions which supported traditional theologies are no longer widely accepted but it is not clear how this end of metaphysics should be understood nor what implications it ought to have for our understanding of religion At the same time there is renewed interest in the sacred and the divine in disciplines as varied as philosophy psychology literature history anthropology and cultural studies In this volume leading philosophers in the United States and Europe address the decline of metaphysics and the space which this decline has opened for non theological understandings of religion The contributors include Richard Rorty Charles Taylor Jean Luc Marion Gianni Vattimo Hubert Dreyfus Robert Pippin John Caputo Adriaan Peperzak Leora Batnitzky and Mark Wrathall

*Religion, Metaphysics, and the Postmodern* Christopher Ben Simpson, 2016-08-05 William Desmond's original and creative work in metaphysics is attracting more and more attention from philosophers of religion Putting Desmond in conversation with John D Caputo an important philosopher of religion from the Continental tradition Christopher Ben Simpson casts new light on Desmond's complex multifaceted and nuanced thought The comparative approach allows Simpson to get at the core of recent debates in the philosophy of religion He develops a rich understanding of how ethics and religion are informed by metaphysics and contrasts this approach to the decidedly anti metaphysical stance in Continental philosophy *Religion Metaphysics and the Postmodern* presents a systematic analysis of Desmond's thought as it advances work on Caputo's thinking and on the philosophy of religion

**God After Metaphysics** John Panteleimon

Manoussakis, 2007-05-23 A new way of thinking about God and religious experience

**Metaphysics and God** Kevin

Timpe, 2009-05-07 This volume focuses on contemporary issues in the philosophy of religion through an engagement with Eleonore Stump's seminal work in the field Topics covered include the metaphysics of the divine nature e.g. divine simplicity and eternity the nature of love and God's relation to human happiness and the issue of human agency e.g. the nature of the human soul and hell

**The Metaphysics of Perfect Beings**, *Reading Jean-Luc Marion* Christina M.

Gschwandtner, 2007-11-07 The work of French philosopher and theologian Jean Luc Marion has been recognized as among the most suggestive and productive in the philosophy of religion today In *Reading Marion* Christina M Gschwandtner provides the first comprehensive introduction to Marion's large and conceptually dense corpus Gschwandtner gives particular attention to Marion's early work on Descartes and follows thematic threads through to his most recent publications on charity and eroticism She explores in detail three prominent topics in Marion's thought the desire to overcome metaphysics his reflections on the divine and his reconsideration of the relation of the self to the other in love Gschwandtner reveals Marion's thought as a unified whole and provides context for his theological and phenomenological writings Readers at all levels will find insight into the work of one of the world's most provocative thinkers

*Malebranche:*

*Dialogues on Metaphysics and on Religion* Nicolas Malebranche, 1997-05 A revised edition of the work which presents the most systematic exposition of Malebranche's philosophy      *The Metaphysics of Dante's Comedy* Christian Moevs, 2008-10-13 The recovery of Dante's metaphysics which are very different from our own is essential argues Christian Moevs if we are to resolve what has been called the central problem in the interpretation of the Comedy That problem is what to make of the Comedy's claim to the status of revelation vision or experiential record as something more than imaginative literature In this book Moevs offers the first sustained treatment of the metaphysical picture that grounds and motivates the Comedy and the relation between those metaphysics and Dante's poetics Moevs arrives at the radical conclusion that Dante believed that all of what we perceive as reality the spatio temporal world is in fact a creation or projection of conscious being Armed with this new understanding Moevs is able to shed light on a series of perennial issues in the interpretation of the Comedy

**Aristotle on Religion** Mor Segev, 2017-11-02 Provides a comprehensive account of the socio political role Aristotle attributes to traditional religion despite rejecting its content      **The Experience of Atheism: Phenomenology, Metaphysics and Religion** Claude Romano, Robyn Horner, 2021-05-06 Religious and atheistic belief are presented anew in a volume of essays from leading phenomenologists in both France and the UK Atheism often presented as the negation of religious belief is here engaged with from a phenomenologically informed notion of experience The focus on experience sparks new debates in readings of belief faith and atheism as they relate to and complicate each other What unites the contributors is their relationship to phenomenology as it has developed in France in the wake of Heidegger and Husserl Leading French intellectuals from this context Jean Luc Nancy Quentin Meillassoux and Catherine Malabou amongst others contribute arresting ideas on atheistic faith the death of God and anarchic faith opening up new areas of understanding in a field whose parameters and core concepts are ever shifting Revealing the extent to which religious and atheistic belief must be seen to influence and on a fundamental level to co create one another the pluralistic society in which religious belief is counted as one option amongst many is given primacy The fact that religious faith has become not only optional but also in many contexts strangely alienated from society deeply modifies the experience of the believer as much as that of the non believer A focus on experience over and above belief moves us towards a mode of experiential knowledge which refuses to privilege the atheistic believer and deride the reality of religious belief      *God after Metaphysics* John Panteleimon Manoussakis, 2007-05-23 While philosophy believes it is impossible to have an experience of God without the senses theology claims that such an experience is possible though potentially idolatrous In this engagingly creative book John Panteleimon Manoussakis ends the impasse by proposing an aesthetic allowing for a sensuous experience of God that is not subordinated to imposed categories or concepts Manoussakis draws upon the theological traditions of the Eastern Church including patristic and liturgical resources to build a theological aesthetic founded on the inverted gaze of icons the augmented language of hymns and the reciprocity of touch Manoussakis explores how a relational interpretation of being develops a

fuller and more meaningful view of the phenomenology of religious experience beyond metaphysics and onto theology

**The Significance of Religious Experience** Howard Wettstein, 2014-11-12 In this volume of essays Howard Wettstein explores the foundations of religious commitment His orientation is broadly naturalistic but not in the mode of reductionism or eliminativism This collection explores questions of broad religious interest but does so through a focus on the author's religious tradition Judaism Among the issues explored are the nature and role of awe ritual doctrine religious experience the distinction between belief and faith problems of evil and suffering with special attention to the Book of Job and to the Akedah the biblical story of the binding of Isaac the virtue of forgiveness One of the book's highlights is its literary as opposed to philosophical approach to theology that at the same time makes room for philosophical exploration of religion Another is Wettstein's rejection of the usual picture that sees religious life as sitting atop a distinctive metaphysical foundation one that stands in need of epistemological justification

**After Rorty** G. Elijah Dann, 2010-12-16 **On the Resurrection of the Dead** James T. Turner, Jr., 2018-10-03 Christian tradition has largely held three theological affirmations on the resurrection of the physical body Firstly that bodily resurrection is not a superfluous hope of afterlife Secondly there is immediate post mortem existence in Paradise Finally there is numerical identity between pre mortem and post resurrection human beings The same tradition also largely adheres to a robust doctrine of The Intermediate State a paradisiacal disembodied state of existence following the biological death of a human being This book argues that these positions are in fact internally inconsistent and so a new theological model for life after death is required The opening arguments of the book aim to show that The Intermediate State actually undermines the necessity of bodily resurrection Additionally substance dualism a principle The Intermediate State requires is shown to be equally untenable in this context In response to this the metaphysics of the afterlife in Christian theology is re evaluated and after investigating physicalist and constitutionist replacements for substance dualist metaphysics a new theory called Eschatological Presentism is put forward This model combines a broadly Thomistic hylemorphic metaphysics with a novel theory of Time This is an innovative examination of the doctrine of life after death It will therefore be of great interest to scholars of analytic theology and philosophy of religion

The God of Metaphysics T. L. S. Sprigge, 2006-04-20 Publisher Description *Ineffability and Its Metaphysics* Silvia Jonas, 2018-04-15 Can art religion or philosophy afford ineffable insights If so what are they The idea of ineffability has puzzled philosophers from Laozi to Wittgenstein In *Ineffability and its Metaphysics* The Unspeakable in Art Religion and Philosophy Silvia Jonas examines different ways of thinking about what ineffable insights might involve metaphysically and shows which of these are in fact incoherent Jonas discusses the concepts of ineffable properties and objects ineffable propositions ineffable content and ineffable knowledge examining the metaphysical pitfalls involved in these concepts Ultimately she defends the idea that ineffable insights as found in aesthetic religious and philosophical contexts are best understood in terms of self acquaintance a particular kind of non propositional knowledge Ineffability as a philosophical topic is as old as the history of philosophy

itself but contributions to the exploration of ineffability have been sparse The theory developed by Jonas makes the concept tangible and usable in many different philosophical contexts      William James and the Metaphysics of Experience David C. Lamberth,1999-05-20 William James is frequently considered one of America s most important philosophers as well as a foundational thinker for the study of religion Despite his reputation as the founder of pragmatism he is rarely considered a serious philosopher or religious thinker In this new interpretation David Lamberth argues that James s major contribution was to develop a systematic metaphysics of experience integrally related to his developing pluralistic and social religious ideas Lamberth systematically interprets James s radically empiricist world view and argues for an early dating 1895 for his commitment to the metaphysics of radical empiricism He offers a close reading of *Varieties of Religious Experience* and concludes by connecting James s ideas about experience pluralism and truth to current debates in philosophy the philosophy of religion and theology suggesting James s functional experiential metaphysics as a conceptual aid in bridging the social and interpretive with the immediate and concrete while avoiding naive realism      After Science and Religion Peter Harrison,John Milbank,Paul G. Tyson,2022-05-19 A ground breaking volume of innovative conversations between science and religion which move beyond hackneyed positions of either conflict or dialogue      *Aquinas, Ethics, and Philosophy of Religion* Thomas Hibbs,2007-05-31 In *Aquinas Ethics and Philosophy of Religion* Thomas Hibbs recovers the notion of practice to develop a more descriptive account of human action and knowing grounded in the venerable vocabulary of virtue and vice Drawing on Aquinas who believed that all good works originate from virtue Hibbs postulates how epistemology ethics metaphysics and theology combine into a set of contemporary philosophical practices that remain open to metaphysics Hibbs brings Aquinas into conversation with analytic and Continental philosophy and suggests how a more nuanced appreciation of his thought enriches contemporary debates This book offers readers a new appreciation of Aquinas and articulates a metaphysics integrally related to ethical practice
