## **Religion And Identity:**

Religion and the Individual Dr Abby Day, 2013-05-28 What does religion mean to the individual How are people religious and what do their beliefs practices and identities mean to them The individual's place within studies of religion has tended to be overlooked recently in favour of macro analyses Religion and the Individual draws together authors from around the world to explore belief practice and identity Using original case studies and other work firmly placed in the empirical contributors discuss what religious belief means to the individual They examine how people embody what religion means to them through practice considering the different meanings that people attach to religion and the social expressions of their personal understandings and the ways in which religion shapes how people see themselves in relation to others This work is cross cultural with contributions from Asia Europe and North America *Youth, Religion, and Identity in a Globalizing Context*, 2018-12-10 Youth Religion and Identity in a Globalizing Context International Perspectives investigates the ways that young people navigate the intersections of religion and identity As part of the Youth in a Globalizing World series this book provides a broad discussion on the various social cultural and political forces affecting youth and their identities from an international comparative perspective Contributors to this volume situate the experiences of young people in Canada the United States Germany and Australia within a globalized context This volume explores the different experiences of youth the impact of community and processes of recognition and the reality of ambivalence as agency Youth Religion and Identity in a Globalizing Context International Perspectives is now available in paperback for individual customers **Religion, Identity and Human Security** Giorgio Shani, 2014-04-03 Religion Identity and Human Security seeks to demonstrate that a major source of human insecurity comes from the failure of states around the world to recognize the increasing cultural diversity of their populations which has resulted from globalization Shani begins by setting out the theoretical foundations dealing with the transformative effects of globalization on identity violence and security The second part of the volume then draws on different cases of sites of human insecurity around the globe to develop these ideas examining themes such as securitization of religious symbols retreat from multiculturalism rise of exclusivist ethno religious identities post 9 11 state religion colonization and the racialization of migration Highlighting that religion can be a source of both human security and insecurity in a globalizing world Shani offers a critical human security paradigm that seeks to de secularize the individual by recognizing the culturally contested and embedded nature of human identities The work argues that religion serves an important role in re embedding individuals deracinated from their communities by neo liberal globalization and will be of interest to students of International Relations Security Studies and Religion and Politics *Religion, Identity and Power* Ahmet Erdi Ozturk, 2021-01-05 This book examines Turkey's ethno religious activism and power related political strategies in the Balkans between 2002 and 2020 the period under the rule of the Justice and Development Party AKP to determine the scopes of its activities in the region Ahmet Erdi Ozturk illuminates an often neglected aspect of Turkey's relations with its

Balkan neighbours that emerged as a result of the much discussed authoritarian turn a broader shift in Turkish domestic and foreign policy from a realist secular to a Sunni Islamic orientation with ethno nationalist policies zt rk draws on personal testimonies given by both Turkish and non Turkish Muslim and non Muslim interviewees in three country cases Bulgaria North Macedonia and Albania The findings shed light on contemporary issues surrounding the continuous redefinition of Turkish secularism under the AKP rule and the emergence of a new Muslim elite in Turkey **Religion and the Racist**

**Right** Michael Barkun,1997 According to Michael Barkun many white supremacist groups of the radical right are deeply committed to the distinctive but little recognized religious position known as Christian Identity In Religion and the Racist Right 1994 Barkun provided the first sustained exploration of the ideological and organizational development of the Christian Identity movement In a new chapter written for the revised edition he traces the role of Christian Identity figures in the dramatic events of the first half of the 1990s from the Oklahoma City bombing and the rise of the militia movement to the Freemen standoff in Montana He also explores the government s evolving response to these challenges to the legitimacy of the state Michael Barkun is professor of political science in the Maxwell School of Citizenship and Public Affairs at Syracuse University He is author of several books including Crucible of the Millennium The Burned over District of New York in the 1840s

Handbook of the Sociology of Religion Michele Dillon,2003-08-18 Table of contents **Punk Rock is My Religion** Francis Stewart,2017-06-26 As religion has retreated from its position and role of being the glue that holds society together something must take its place Utilising a focused and detailed study of Straight Edge punk a subset of punk in which adherents abstain from drugs alcohol and casual sex Punk Rock is My Religion argues that traditional modes of religious behaviours and affiliations are being rejected in favour of key ideals located within a variety of spaces and experiences including popular culture Engaging with questions of identity construction through concepts such as authenticity community symbolism and music this book furthers the debate on what we mean by the concepts of religion and secular Provocatively exploring the notion of salvation redemption forgiveness and faith through a Straight Edge lens it suggests that while the study of religion as an abstraction is doomed to a simplistic repetition of dominant paradigms being willing to examine religion as a lived experience reveals the utility of a broader and more nuanced approach **Christian Identity**

Chester L. Quarles,2014-11-18 The Ku Klux Klan the Aryan Nations and many ultra right wing racist religious organizations adhere to a doctrine called Christian Identity Christian Identity is not a denomination but a loosely organized movement embracing a range of beliefs Its foundation is the theory that Anglo Saxons and Aryans in most cases are the true descendants of the Lost Tribes of Israel and are the chosen people of God Christian Identity is a bloodline religion a belief system irrevocably tied to race As such it lends itself to the violence racism and anti Semitism of its more militant practitioners and its growth and links to domestic terrorism warrant a better understanding of the movement This survey of the Christian Identity Movement traces its development and beliefs from its origins to its modern manifestations It examines

the doctrines and visions of the future of Identity communities and organizations in America The initial chapter explores British Israelism forerunner of most bloodline Identity groups the oral traditions behind the movement are reviewed in the second The third chapter outlines the American Israel Identity and bloodline Identity movements including major figures and groups The following chapters provide an introduction to Christian Identity itself its general religious tenets and post Creation beliefs upon which much of the theory is based Subsequent chapters describe militant bloodline and Identity groups and individual militant Identity leaders The final chapter explores the Third American Revolution predicted by these groups a forthcoming war based on race and religion

**Religion, Identity and Politics** Haldun Gülalp, Günter Seufert, 2013-06-26 German Turkish relations which have a long history and generally unrecognized depth have rarely been examined as mutually formative processes Isolated instances of influence have been examined in detail but the historical and still ongoing processes of mutual interaction have rarely been seriously considered The ruling assumption has been that Germany may have an impact on Turkey but not the other way around Religion Identity and Politics examines this mutual interaction specifically with regard to religious identities and institutions It opposes the commonly held assumption that Europe is the abode of secularism and enlightenment while the lands of Islam are the realm of backwardness and fundamentalism Both historically and contemporarily Germany has treated religion as a core aspect of communal and civilizational identity and framed its institutions accordingly the book explores how there has been and continues to be a mutual exchange in this regard between Germany and both the Ottoman Empire and modern Turkey The authors show that the definition of identity and regulation of communities have been explicitly based on religion until the early and since the late twentieth century the period in between the age of secular nationalism which has always been treated as the norm now appears more clearly as an exception This book will be of interest to students and scholars of sociology politics history and religion

**Collectivistic Religions** Dr Slavica Jakelc, 2012-12-28 Collectivistic Religions draws upon empirical studies of Christianity in Europe to address questions of religion and collective identity religion and nationalism religion and public life and religion and conflict It moves beyond the attempts to tackle such questions in terms of choice and religious nationalism by introducing the notion of collectivistic religions to contemporary debates surrounding public religions Using a comparison of several case studies this book challenges the modernist bias in understanding of collectivistic religions as reducible to national identities A significant contribution to both the study of religious change in contemporary Europe and the theoretical debates that surround religion and secularization it will be of key interest to scholars across a range of disciplines including sociology political science religious studies and geography

**Religion, Migration and Identity** Martha Frederiks, Dorottya Nagy, 2016-09-22 In Religion Migration and Identity scholars from various disciplines explore issues related to identity and religion that people individually and communally encounter when affected by migration dynamics the volume foregrounds methodology as its main concern

**Perspectives on Race, Ethnicity, and Religion** Valerie Martinez-Ebers, Manochehr

Dorraj,2010 Perspectives on Race Ethnicity and Religion is an introductory anthology that examines the history current issues and dynamics of minority groups in the United States Featuring contributions from authors who are not only experts in their fields which include political science sociology history and religion but who also belong to the minority groups about which they are writing this collection provides students with the context to evaluate the roles that race ethnicity and religion play in the outcomes of American politics Perspectives on Race Ethnicity and Religion offers students a uniquely personal yet scientifically informed look at this significant subject It also demonstrates how the structure and operation of our political system can obstruct the efforts of these groups to gain the full benefits of freedom and equal treatment promised under the American Constitution *Religion and Identity in Modern Russia* Marietta Stepaniants,Benjamin Forest,2016-11-10

Focusing on the roles of Russian Orthodoxy and Islam in constituting challenging and changing national and ethnic identities in Russia this study takes Tsarist and Soviet legacies into account paying special attention to the evolution of the relationship between religious teachings and political institutions through the late 19th and 20th centuries The volume explicitly discusses and compares the role of Russia s two major religions Orthodoxy and Islam in forging identity in the modern era and brings an innovative blend of sociological historical linguistic and geographic scholarship to the problem of post Soviet Russian identity This comprehensive volume is suitable for courses on post Soviet politics Russian studies religion and political culture **Religion, Identity and Change** Simon Coleman,Peter Collins,2017-03-02 Religion is of enduring importance in the lives of many people yet the religious landscape has been dramatically transformed in recent decades Established churches have been challenged by eastern faiths revivals of Christian and Islamic fundamentalism and the eclectic spiritualities of the New Age Religion has long been regarded by social scientists and psychologists as a key source of identity formation ranging from personal conversion experiences to collective association with fellow believers This book addresses the need for a reassessment of issues relating to identity in the light of current transformations in society as a whole and religion in particular Drawing together case studies from many different expressions of faith and belief Hindu Muslim Roman Catholic Anglican New Age leading scholars ask how contemporary religions or spiritualities respond to the challenge of forming individual and collective identities in a nation context marked by secularisation and postmodern

decentring of culture as well as religious revitalisation The book focuses on Britain as a context for religious change but asks important questions that are of universal significance for those studying religion How is personal and collective identity constructed in a world of multiple social and cultural influences What role can religion play in creating reinforcing or even transforming such identity **Identity and the Sacred** Hans Mol,1977 **Identity Religion And Values** C. Margaret Hall,2019-01-22 Designed for professionals this handbook focuses on the impact of patients religion and spirituality It presents the identity empowerment theory a clinical sociological theory and includes case studies and intervention strategies

**Human Identity at the Intersection of Science, Technology and Religion** Nancey C. Murphy, Christopher C. Knight, 2010 Science and religion have often been thought to be at loggerheads but much contemporary work in this flourishing interdisciplinary field suggests this is far from the case The Ashgate Science and Religion Series presents exciting new work to advance interdisciplinary study research and debate across key themes in science and religion exploring the philosophical relations between the physical and social sciences on the one hand and religious belief on the other Contemporary issues in philosophy and theology are debated as are prevailing cultural assumptions arising from the post modernist distaste for many forms of reasoning The series enables leading international authors from a range of different disciplinary perspectives to apply the insights of the various sciences theology and philosophy and look at the relations between the different disciplines and the rational connections that can be made between them These accessible stimulating new contributions to key topics across science and religion will appeal particularly to individual academics and researchers graduates postgraduates and upper undergraduate students
