Religion And Politics In Asia Today:

Constitutions, Religion and Politics in Asia Dian A. H. Shah, 2017-10-26 Shah uncovers the complex interaction between constitutional law religion and politics in three key plural societies in Asia Religion and Politics in South Asia Ali Riaz, 2010-02-26 Religion and religious political forces have become potent influences in the domestic politics of many countries irrespective of geographical location stages of economic growth and systems of governance The growing importance of religion as a marker of identity and a tool of political mobilization is reshaping the political landscape in an unprecedented manner and South Asia which contains the world's largest populations of Muslims and Hindus with significant number of Buddhists is no exception to this fact This book presents a comprehensive analysis of the interaction of religion and politics in Afghanistan Bangladesh India Nepal Pakistan and Sri Lanka Although the specific circumstances of each country are different in recent decades religion religious political parties and religious rhetoric have become dominant features of the political scenes in all six countries The contributors offer a thorough examination of these developments by presenting each country's political system and the socio economic environment within which the interactions are taking place The analysis of the various factors influencing the process of the interactions between religion and politics and their impact on the lives of the people of the region and global politics constitute the core of the chapters *The Politics of Religion in South and Southeast Asia* Ishtiaq Ahmed, 2011-05-04 The notion of a politics of religion refers to the increasing role that religion plays in the politics of the contemporary world This book presents comparative country case studies on the politics of religion in South and South Asia including India Pakistan and Indonesia The politics of religion calls into question the relevance of modernist notions of secularism and democracy with the emphasis instead on going back to indigenous roots in search of authentic ideologies and models of state and nation building Within the context of the individual countries chapters focus on the consequences that politics of religion has on inclusive nation building democracy and the rights of individuals minorities and women The book makes a contribution to both the theoretical and conceptual literature on the politics of religion as well as shed light on the implications and ramifications of the politics of religion on contemporary South Asian and South East Asian countries It is of interest to students and scholars of South and South East Asian Studies as well as Comparative Politics *Spirited Politics* Andrew C. Willford, Kenneth M. George, 2018-05-31 The essays in *Spirited Politics* throw light on predicaments that spring from the intersection of religion ethnicity and nationalism in contemporary Southeast Asian public life Covering material from Indonesia Malaysia Thailand and the Philippines the contributors explore the calamities and ironies of Southeast Asian identity politics examining the ways in which religion and politics are made to serve each other

The Politics of Religion, Nationalism, and Identity in Asia Jeff Kingston, 2019-07-30 This comprehensive book provides a comparative analysis of religious nationalism in globalized Asia Through a rich variety of thematic case studies Kingston explores the nexus of religion identity and nationalism across the region He focuses on how religious sentiments

influence how people express nationalism often with extreme and tragic results

Islam after Communism Adeeb Khalid, 2014-02-08 How do Muslims relate to Islam in societies that experienced seventy years of Soviet rule How did the utopian Bolshevik project of remaking the world by extirpating religion from it affect Central Asia Adeeb Khalid combines insights from the study of both Islam and Soviet history to answer these questions Arguing that the sustained Soviet assault on Islam destroyed patterns of Islamic learning and thoroughly de Islamized public life Khalid demonstrates that Islam became synonymous with tradition and was subordinated to powerful ethnonational identities that crystallized during the Soviet period He shows how this legacy endures today and how for the vast majority of the population a return to Islam means the recovery of traditions destroyed under Communism Islam after Communism reasons that the fear of a rampant radical Islam that dominates both Western thought and many of Central Asia s governments should be tempered with an understanding of the politics of antiterrorism which allows governments to justify their own authoritarian policies by casting all opposition as extremist Placing the Central Asian experience in the broad comparative perspective of the history of modern Islam Khalid argues against essentialist views of Islam and Muslims and provides a nuanced and well informed discussion of the forces at work in this crucial region

Religion and Nationalism in Southeast Asia Joseph Chinyong Liow, 2016-08-19 Religion and nationalism are two of the most potent and enduring forces that have shaped the modern world Yet there has been little systematic study of how these two forces have interacted to provide powerful impetus for mobilization in Southeast Asia a region where religious identities are as strong as nationalist impulses At the heart of many religious conflicts in Southeast Asia lies competing conceptions of nation and nationhood identity and belonging and loyalty and legitimacy In this accessible and timely study Joseph Liow examines the ways in which religious identity nourishes collective consciousness of a people who see themselves as a nation perhaps even as a constituent part of a nation but anchored in shared faith Drawing on case studies from across the region Liow argues that this serves both as a vital element of identity and a means through which issues of rights and legitimacy are understood

Varieties of Secularism in Asia Nils Ole Bubandt, Martijn Van Beek, 2012-03-12 Varieties of Secularism is an ethnographically rich theoretically well informed and intellectually coherent volume which builds off the work of Talal Asad Charles Taylor and others who have engaged the issue of secularism s and in socio political life The volume seeks to examine theories of secularism secularity and examine concrete ethnographic cases in order to further the theoretical discussion Whereas Taylor s magisterial work draws up the conditions and problems of a belief in God in Western modernity it leaves unexplored the challenges posed by the spiritual in modernity outside of the North Atlantic rim This anthology seeks to begin that task It does so by suggesting that the kind of secularity described by Taylor is only one amongst others By attending to the shifting relationship between proper religion and bad faiths between politically valorised and embarrassing spiritual phenomena between the new visibilities and silences of magic ancestors and religion in democratic politics this book seeks to outline the particular formations of secularism that

have become possible in Asia from China to Indonesia and from Bahrain to Timor Leste This book will appeal to students and scholars of Asian religion politics and anthropology Religion and Conflict in South and Southeast Asia Linell E.

Cady, Sheldon W. Simon, 2006-09-27 A major new contribution to comparative and multidisciplinary scholarship on the alignment of religion and violence in the contemporary world with a special focus on South and Southeast Asia Religion and Conflict in South and Southeast Asia shows how this region is the site of recent and emerging democracies a high degree of religious pluralism the largest Muslim populations in the world and several well organized terrorist groups making understanding of the dynamics of religious conflict and violence particularly urgent By bringing scholars from religious studies political science sociology anthropology and international relations into conversation with each other this volume brings much needed attention to the role of religion in fostering violence in the region and addresses strategies for its containment or resolution The dearth of other literature on the intersection of religion politics and violence in contemporary South and Southeast Asia makes the timing of this book particularly relevant This book will of great interest to advanced undergraduate and postgraduate students of Asian politics security studies and conflict studies **Kōmeitō** George Ehrhardt, Axel Klein, Levi McLaughlin, Steven R. Reed, 2014 Examines the relationship between religious groups and politics in Japan focusing on K meit Japan s most successful religious party Describes K meit s campaign practices and varying modes of political participation from its founding to its decision to join the ruling Liberal Democratic Party in a coalition government

Religion and Politics in Comparative Perspective Ted Gerard Jelen, Clyde Wilcox, 2002-04-01 Religion is resurgent across the globe In many countries religion is a powerful source of political mobilization and in some a potent social cleavage In some religion reinforces the state in others it provides the space for resistance This book contains a series of detailed studies examining religion and politics in specific countries or regions The cases include countries with one dominant religious tradition and others with two or more competing traditions They include Catholicism Protestantism Islam Hinduism Shinto and Buddhism They include states where religion and politics are closely linked and others with at least a low wall of separation between church and state The cases are organized by the type of religious marketplace but allow many other comparisons as well We develop some generalizations from the cases and hope that they will be a fertile source of theorizing for others

Outrage Paul Rollier, Kathinka Frøystad, Arild Engelsen Ruud , 2019 Whether spurred by religious images or academic history books hardly a day goes by in South Asia without an incident or court case occurring as a result of hurt religious feelings The sharp rise in blasphemy accusations over the past few decades calls for an investigation into why offence politics has become so pronounced and why it is observable across religious and political differences Outrage offers an interdisciplinary study of this growing trend Bringing together researchers in Anthropology Religious Studies Languages South Asia Studies and History all with rich experience in the variegated ways in which religion and politics intersect in this region the volume presents a fine grained analysis that navigates and unpacks the religious sensitivities and political

concerns under discussion Each chapter focuses on a recent case or context of alleged blasphemy or desecration in India Pakistan Bangladesh and Myanmar collectively exploring common denominators across national and religious differences Among the common features are the rapid introduction of social media and smartphones the possible political gains of initiating blasphemy accusations and the growing self assertion of marginal communities These features are turning South Asia into a veritable flash point for offence controversies in the world today and will be of interest to researchers exploring the intersection of religion and politics in South Asia and beyond

Asian Worldviews Rein Raud, 2021-03-15 An ambitious comparative introduction to Asian thought expertly written for undergraduate courses in Asian Studies Asian philosophy and neighboring disciplines Recent decades have witnessed a sharp increase of interest in the cultures and regions of South and East Asia owing in part to the prominent role Asian economies have played in the era of globalization Asian Worldviews Religions Philosophies Political Theories is a unique reader friendly introduction to the intellectual heritage of the region Assuming no previous background in Asian cultural history Asian Worldviews moves beyond chronological and geographic boundaries to present an integrated treatment of the beliefs teachings and ideologies that have shaped the worldviews of approximately half of the global population Rein Raud explores forms of knowledge in China India Tibet Japan Korea and Southeast Asia providing balanced coverage of all historical periods from antiquity to the modern day Asian Worldviews embraces the connections rather than the divisions between the religious and philosophical dimensions of South and East Asian thought and emphasizes a robust engagement with each culture s political social and economic contexts Clear accessible chapters discuss the development of religious philosophical and political thought in India China and Japan and provide succinct overviews of the history of ideas in Korea Tibet and Southeast Asia Throughout the book Raud uses a comparative approach to examine the mutual influence and productive dialogue past and present between Asian cultures as well as with the West and considers the impact of various worldviews on the development of modern Asian societies Comprehensive and well informed by recent developments in the scholarship Asian Worldviews Religions Philosophies Political Theories is an unparalleled resource for a broad range of courses in Asian studies philosophy religious studies and global politics as well as an excellent introduction for non specialist readers looking for a contextual foothold in the rich cultural and intellectual history of South and East Asia

Political Violence in South Asia Ali Riaz, Zobaida Nasreen, Fahmida Zaman, 2018-09-24 Political violence has remained an integral part of South Asian society for decades The region has witnessed and continued to encounter violence for achieving political objectives from above and from below Violence is perpetrated by the state by non state actors and used by the citizens as a form of resistance Ethnic insurgency religion inspired extremism and ideology driven hostility are examples of violent acts that have emerged as challenges to the states which have responded with violence in the form of civil war and through violations of human rights disregarding international norms This book explores various dimensions of political violence in South Asia namely in Bangladesh India

Nepal Pakistan and Sri Lanka Each chapter either speaks to an important aspect of the political violence or provides an overall picture of the nature and scope of political violence in the respective country Political violence is understood in the larger sense of political that is above and beyond institutions and also as an integral part of social relationships where social norms and the role of individual agency play seminal roles The contributions in this book incorporate both institutional and non institutional dimensions of political violence Exploring how everyday life in South Asian states and societies is transformed by the engagement with violence through direct and indirect methods this book adopts an interdisciplinary framework diverse methods are employed from ethnographic readings to more macro level analyses The phenomenon is explored from historical sociological and political perspectives This book will be useful as a supplementary text in courses on South Asian Studies in general and South Asian Politics in particular **India-South Asia Interface** Partha S.

Ghosh,2021-12-22 India South Asia Interface raises the fundamental question How does one make sense of South Asia Conventional wisdom defines it primarily in terms of regional and international politics The failures of the South Asian Association for Regional Cooperation SAARC are emblematic of that wisdom Marking a departure from such approaches Partha Ghosh makes the case that more than merely a political construct South Asia must be understood as a shared social consciousness Through chapters that explore topics such as threats to democracy religion and politics the place of Kashmir different conceptions of regionalism the roles of America and China and the issue of refugees and migrants he demonstrates that there is no escape from reinventing the region from a people s perspective Only this way can South Asia retrieve its soul and replace its cynicism and despair with expectation and hope Based primarily on Ghosh s research articles and newspaper columns written over the last five years the volume can be viewed as an intimate statement of his understanding of the region an understanding that has matured through decades long interactions with the region s academics politicians and the so called man on the street In some sense the volume is also a semi autobiographical treatise which spells out Ghosh s systematic evolution as a confirmed South Asianist The region s destiny ought to be wrested he therefore argues from the hands of its political leaders and returned to the common men and women of the region Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka **Nation and Religion** Peter van der Veer,Hartmut Lehmann,2020-10-06 Does modernity make religion politically irrelevant Conventional scholarly and popular wisdom says that it does The prevailing view assumes that the onset of western modernity characterized by the rise of nationalism the dominance of capitalism and the emergence of powerful state institutions favors secularism and relegates religion to the purely private realm This collection of essays on nationalism and religion in Europe and Asia challenges that view Contributors show that religion and politics are mixed together in complex and vitally important ways not just in the East but in the West as well The book focuses on four societies India Japan Britain and the Netherlands It shows that religion and nationalism in these societies combined to produce such notions as the nation being chosen for a historical task

imperialism for example the possibility of national revival and political leadership as a form of salvation The volume also examines the qualities of religious discourse and practice that can be used for nationalist purposes paying special attention to how religion can help to give meaning to sacrifice in national struggle The book's comparative approach underscores that developments in colonizing and colonized countries too often considered separately are subtly interrelated In addition to the editors the contributors are Benedict R Anderson Talal Asad Susan Bayly Partha Chatterjee Frans Groot Harry Harootunian Hugh McLeod Barbara Metcalf and Peter van Rooden

Religion and Political Conflict in South Asia Douglas Allen, 1992-08-24 One of the most dramatic and surprising developments of the last twenty years was the proliferation of aggressive political movements linked to religion This book examines the interplay of religion and politics in predominantly Hindu India Islamic Pakistan and Buddhist Sri Lanka This collection of studies by internationally known scholars challenges traditional stereotypes and interpretations of South Asian religion and politics and provides a multidisciplinary perspective on contemporary conflicts While the focus of the work is on Pakistan India and Sri Lanka the arguments advanced by the authors are useful for understanding recent developments in religion and politics around the world An informative introduction overviews the link between religion and political conflict in South Asia and offers a framework and synopsis of the chapters that follow These are grouped into three parts by nationality The chapters on India examine recent elections and the growth of militant Hinduism the impact of caste relations on socio economic conditions and the problems of Muslims as the largest religious minority in India The chapters on Pakistan explore how political and economic changes led to the rise of Islamic fundamentalism the historical relationship among gender nationalism and the Islamic state and the evolution of a capitalist social system in an Islamic nation The chapters on Sri Lanka explain the role of Buddhist myth in justifying political oppression the conflict between the ideal of Buddhist pacifism and the reality of political violence and the impact of race class and gender on political conflict Political scientists historians and religion scholars will find this study a timely and valuable addition to their libraries

The Mission of Development , 2018-05-29 The Mission of Development interrogates the complex relationships between Christian mission and international development in Asia from the 19th century to the new millennium Through historically and ethnographically grounded case studies contributors examine how missionaries have adapted to and shaped the age of development and processes of technocratisation as well as how mission and development have sometimes come to be cast in opposition The volume takes up an increasingly prominent strand in contemporary research that reverses the prior occlusion of the entanglements between religion and development It breaks new ground through its analysis of the techno politics of both development and mission and by focusing on the importance of

engagements and encounters in the field in Asia
