Religion And Politics In Enlightenment Europe:

Religion and Politics in Enlightenment Europe James E. Bradley, Dale K. Van Kley, 2001 This work shows that the collapse of the post reformation confessional state was more the result of religious dissent from within much of it orthodox than attacks of an anti religious Enlightenment In sharp contrast to the Reformation era religious conflicts which tended to pit Protestant and Catholic confessions and states against each other the 18th century religious conflicts described in this work took place within the various confessional establishments and states that founded and maintained them such as Russian Orthodoxy in the East and the Anglican Establishment in England and Ireland In the course of its analysis this work destroys the notion of any kind of privileged relationship between religion and political or social reaction This work reveals the religious roots of modern ideas of individual rights and limitations on government as well as the imperative of political order and the need for social hierarchy

The Religious Enlightenment David Jan Sorkin, 2008 Sorkin is right to argue that enlightenment and faith went together for most participants in the Enlightenment and that this is a major topic that has been relatively neglected He has written an outstanding and eminently accessible book bringing the whole question centrally to scholars attention He skillfully demonstrates that all confessions and religious traditions found themselves very much in a common predicament and sought similar solutions Jonathan Israel Institute for Advanced Study Powerfully cogent Sorkin seeks to show that the religious Enlightenment was not a contradiction in terms but was an integral and central part of the Enlightenment Anyone interested in the history of the Enlightenment in particular or the eighteenth century in general will want to read this book Sorkin is one of the leading scholars working in the field His scholarship is as wide as it is deep Tim Blanning University of Cambridge

Religion, the Enlightenment, and the New Global Order John M. Owen IV, J. Judd Owen, 2011-01-17 Largely due to the cultural and political shift of the Enlightenment Western societies in the eighteenth century emerged from sectarian conflict and embraced a more religiously moderate path In nine original essays leading scholars ask whether exporting the Enlightenment solution is possible or even desirable today Contributors begin by revisiting the Enlightenment s restructuring of the West examining its ongoing encounters with Protestant and Catholic Christianity Judaism Islam and Hinduism While acknowledging the necessity of the Enlightenment emphasis on toleration and peaceful religious coexistence these scholars nevertheless have grave misgivings about the

Enlightenment's spiritually thin secularism The authors ultimately upend both the claim that the West's experience offers a ready-made template for the world to follow and the belief that the West's achievements are to be ignored despised or discarded

Civil Religion and the Enlightenment in England, 1707-1800 Ashley Walsh, 2024-05-14 This innovative book reveals how Enlightened writers in England both lay and clerical proclaimed public support for Christianity by transforming it into a civil religion despite the famous claim of Jean Jacques Rousseau that Christians professed an uncivil faith This innovative book reveals how Enlightened writers in England both lay and clerical proclaimed public support for Christianity by transforming it into a civil religion despite the famous claim of Jean Jacques Rousseau that Christians professed an uncivil faith In the aftermath of the seventeenth century European wars of religion civil religionists such as David Hume Edward Gibbon the third earl of Shaftesbury and William Warburton sought to reconcile Christian ecclesiology with the civil state and Christian practice with civilized society They built their arguments in the context of England's long Reformation syncretizing primitive gospel Christianity with ancient paganism as they attempted to render Christianity a modern version of Roman republican civil religion They believed that outward observance of the reformed Protestant faith was vital for belonging to the Christian commonwealth of Hanoverian England Uncovering a major theme in eighteenth century intellectual and religious history that connected classical Rome with Italian Renaissance humanism and the Enlightenment this deeply interdisciplinary book draws from recent post secular trends in social and political theory Combining intellectual history with the political and ecclesiastical history of the Church of England it will prove as indispensable for historians as students of political theory theology and literature

Is Europe Christian? Olivier Roy, 2020-03-01 As Europe wrangles over questions of national identity nativism and immigration Olivier Roy interrogates the place of Christianity foundation of Western identity Do secularism and Islam really pose threats to the continent s Christian values What will be the fate of Christianity in Europe Rather than repeating the familiar narrative of decline Roy challenges the significance of secularized Western nations reduction of Christianity to a purely cultural force relegated to issues such as abortion euthanasia and equal marriage He illustrates that globally quite the opposite has occurred Christianity is now universalized and detached from national identity Not only has it taken hold in the Global South generally in a more socially conservative form than in the West but it has also returned to Europe following immigration from former colonies Despite attempts within Europe to nationalize or even racialize it Christianity s future is global non European and immigrant as the continent s Churches well know This short but bracing book confirms Roy s reputation as one of the most acute observers of our times It represents a persuasive and novel vision of religion s place in national life today

The Secular Enlightenment Margaret C. Jacob, 2019-02-19 A major new history of how the Enlightenment transformed people s everyday lives The Secular Enlightenment is a panoramic account of the radical ways that life began to change for ordinary people in the age of Locke Voltaire and Rousseau In this landmark book familiar Enlightenment figures share places with voices that have remained largely unheard until now from freethinkers and freemasons to French materialists anticlerical Catholics pantheists pornographers readers and travelers Margaret Jacob one of our most esteemed historians of the Enlightenment reveals how this newly secular outlook was not a wholesale rejection of Christianity but rather a new mental space in which to encounter the world on its own terms She takes readers from London and Amsterdam to Berlin Vienna Turin and Naples drawing on rare archival materials to show how ideas central to the emergence of secular democracy touched all facets of daily life Human frailties once attributed to sin were now viewed through the lens of the newly conceived social sciences People entered churches not to pray but to admire the architecture and spent their Sunday mornings reading a newspaper or even a

risk book The secular minded pursued their own temporal and commercial well being without concern for the life hereafter regarding their successes as the rewards for their actions their failures as the result of blind economic forces A majestic work of intellectual and cultural history The Secular Enlightenment demonstrates how secular values and pursuits took hold of eighteenth century Europe spilled into the American colonies and left their lasting imprint on the Western world for generations to come

The Catholic Enlightenment Ulrich L. Lehner, 2016 Whoever needs an act of faith to elucidate an event that can be explained by reason is a fool and unworthy of reasonable thought This line spoken by the notorious 18th century libertine Giacomo Casanova illustrates a deeply entrenched perception of religion as prevalent today as it was hundreds of years ago It is the sentiment behind the narrative that Catholic beliefs were incompatible with the Enlightenment ideals Catholics many claim are superstitious and traditional opposed to democracy and gender equality and hostile to science It may come as a surprise then to learn that Casanova himself was a Catholic In The Catholic Enlightenment Ulrich L. Lehner points to such figures as representatives of a long overlooked thread of a reform minded Catholicism which engaged Enlightenment ideals with as much fervor and intellectual gravity as anyone Their story opens new pathways for understanding how faith and modernity can interact in our own time Lehner begins two hundred years before the Enlightenment when the Protestant Reformation destroyed the hegemony Catholicism had enjoyed for centuries During this time the Catholic Church instituted several reforms such as better education for pastors more liberal ideas about the roles of women and an emphasis on human freedom as a critical feature of theology These actions formed the foundation of the Enlightenment's belief in individual freedom While giants like Spinoza Locke and Voltaire became some of the most influential voices of the time Catholic Enlighteners were right alongside them They denounced fanaticism superstition and prejudice as irreconcilable with the Enlightenment agenda In 1789 the French Revolution dealt a devastating blow to their cause disillusioning many Catholics against the idea of modernization Popes accumulated ever more power and the Catholic Enlightenment was snuffed out It was not until the Second Vatican Council in 1962 that questions of Catholicism's compatibility with modernity would be broached again Ulrich L. Lehner tells for the first time the forgotten story of these reform minded Catholics As Pope Francis pushes the boundaries of Catholicism even further and Catholics once again grapple with these questions this book will prove to be required reading

Nation and Religion Peter van der Veer, Hartmut Lehmann, 2020-10-06 Does modernity make religion politically irrelevant Conventional scholarly and popular wisdom says that it does The prevailing view assumes that the onset of western modernity characterized by the rise of nationalism the dominance of capitalism and the emergence of powerful state institutions favors

secularism and relegates religion to the purely private realm This collection of essays on nationalism and religion in Europe and Asia challenges that view Contributors show that religion and politics are mixed together in complex and vitally important ways not just in the East but in the West as well The book focuses on four societies India Japan Britain and the Netherlands It shows that religion and nationalism in these societies combined to produce such notions as the nation being chosen for a historical task imperialism for example the possibility of national revival and political leadership as a form of salvation The volume also examines the qualities of religious discourse and practice that can be used for nationalist purposes paying special attention to how religion can help to give meaning to sacrifice in national struggle The book s comparative approach underscores that developments in colonizing and colonized countries too often considered separately are subtly interrelated In addition to the editors the contributors are Benedict R Anderson Talal Asad Susan Bayly Partha Chatterjee Frans Groot Harry Harootunian Hugh McLeod Barbara Metcalf and Peter van Rooden
