Religion And Community:

Religion and Community Keith Ward, 2000-03-02 Religion is an important social force both for good and evil in the modern world In the final volume of his comparative theology Keith Ward considers the main ways in which religion and society interact and the ways in which the major world religions need to adapt themselves in the modern world These religions are examined as forms of social life ranging from communities which seek to renounce the world to those which seek to embody the laws of God in society those which see religions in critical dialogue with social structures and those which see religion as a primarily individual matter The ideas of eretz Yisrael the umma of Islam the Buddhist sangha the Christian church and the Hindu sampradaya are critically analysed Ward also considers the doctrine of the church in Aquinas Calvin Schleiermacher and Tillich and develops a view of the church in a global perspective by means of both a historical and thematic approach He proposes a radical vision of the church as a person affirming world transforming society in the emerging global community of many faiths and cultures The relation of religious belief and morality and the ambiguous role of religion in society is investigated and the need for a new religious paradigm is defended expressing a global perspective without insistence on uniformity

Community, Religion, and Literature Cleanth Brooks, 1995 As the last collection of Cleanth Brooks's essays before his death Community Religion and Literature represents his final considered views on the reading of literature and the role it plays in our society He argues that the proper and essential role of literature lies in giving us our sense of community Yet he denounces the extent to which literature too is now being usurped by the critics who see writing as pure language He believes that just as religion renders truth of another sort so literature is an expression of the truth about human beings More and more in this age of science literature has assumed the burden of providing civilization with its values Community Religion and Literature offers students of literature the opportunity to understand what Cleanth Brooks was actually saying rather than what others have said he was saying

Religion, Community and Development Gurpreet Mahajan, Surinder S. Jodhka, 2010-06-02 By making religious community a relevant category for discussing development deficit the Sachar Committee Report that was submitted to the Prime Minister of India in 2007 initiated a new political discourse in India While the liberal secular framework privileged the individual over the community and was more inclined to use the category of class rather than the identity of religion the Sachar Committee differentiated citizens on the basis of their religious identity Its conclusions reinforced the necessity of approaching issues of development through the optic of religious community This volume focuses on this shift in public policy The articles in this collection examine the nature and implications of this new

approach to the Indian social reality Taking a close look at the findings of the Sachar Committee Report SCR they highlight the challenges posed by inter community comparisons At another level the articles supplement the debate initiated by the SCR by constructing a profile of religious communities in India so as to factor in their concerns of development into the present discourse and to nuance and modify the simple indicators to which development is often reduced As most religious communities are themselves engaged in development related activities the volume also examines some of these initiatives in order to see what development connotes to the members themselves and what receives attention by the community Students of social sciences and development studies as well as those dealing with issues of marginalization will find this collection an invaluable resource for understanding contemporary India and for undertaking further theoretical and empirical research
