Religion And Cyberspace:

Religion and Cyberspace Morten Højsgaard, Margit Warburg, 2005-09-15 In the twenty first century religious life is increasingly moving from churches mosques and temples onto the Internet Today anyone can go online and seek a new form of religious expression without ever encountering a physical place of worship or an ordained teacher or priest The digital age offers virtual worship cyber prayers and talk boards for all of the major world faiths as well as for pagan organisations and new religious movements It also abounds with misinformation religious bigotry and information terrorism Scholars of religion need to understand the emerging forum that the web offers to religion and the kinds of religious and social interaction that it enables *Religion and Cyberspace* explores how religious individuals and groups are responding to the opportunities and challenges that cyberspace brings It asks how religious experience is generated and enacted online and how faith is shaped by factors such as limitless choice lack of religious authority and the conflict between recognised and non recognised forms of worship Combining case studies with the latest theory its twelve chapters examine topics including the history of online worship virtuality versus reality in cyberspace religious conflict in digital contexts and the construction of religious identity online Focusing on key themes in this groundbreaking area it is an ideal introduction to the fascinating questions that religion on the Internet presents *Religion and Cyberspace* Morten T. Højsgaard, Margit Warburg, 2005

Religion and Cyberspace explores how religious individuals and groups are responding to the opportunities and challenges that cyberspace brings *Religion Online* Lorne L. Dawson, Douglas E. Cowan, 2013-05-13 *Religion Online* provides an accessible and comprehensive introduction to this burgeoning new religious reality from cyberpilgrimages to neo pagan chatroom communities A substantial introduction by the editors presenting the main themes and issues is followed by sixteen chapters addressing core issues of concern such as youth religion and the internet new religious movements and recruitment propaganda and the countercult and religious tradition and innovation *Religion in Cyberspace* Jason Collin, 2000

Religion on the Internet David G. Bromley, Douglas E. Cowan, Jeffrey K. Hadden, 2001-02-14 Offers an inquiry into the nature scope and content of religion in cyberspace This volume provides a conceptual mapping of religion in cyberspace It is intended for those who seek to understand how religion is being presented on the Internet and how this topic is likely to unfold

Hashtag Islam Gary R. Bunt, 2018-09-25 Gary R Bunt is a twenty year pioneer in the study of cyber Islamic environments CIEs In his new book Bunt explores the diverse and surprising ways digital technology is shaping how Muslims across vast territories relate to religious authorities in fulfilling spiritual mystical and legalistic agendas From social networks to websites essential elements of religious practices and authority now have representation online Muslims embracing the immediacy and general accessibility of the internet are increasingly turning to cyberspace for advice and answers to important religious questions Online environments often challenge traditional models of authority however One result is the rise of digitally literate religious scholars and authorities whose influence and impact go beyond traditional

boundaries of imams mullahs and shaikhs Bunt shows how online rhetoric and social media are being used to articulate religious faith by many different kinds of Muslim organizations and individuals from Muslim comedians and women s rights advocates to jihad oriented groups such as the Islamic State and al Qaeda which now clearly rely on strategic digital media policies to augment and justify their authority and draw recruits This book makes clear that understanding CIEs is crucial for the holistic interpretation of authority in contemporary Islam

Cyber Worship in Multifaith Perspectives

Mohamed Taher,2006 Cyber Worship in Multifaith Perspectives as is implied by its name explores worship i e Prayer Praise Scripture Sacrament Rituals Confessions Eucharist Rites Pilgrimages Reflection Contemplation etc on the Internet It is not an everything you need to know guide about the subjects of faith and belief religions online religions on the Net or religions in cyberspace Rather it is a book about religious and spiritual experience under the rubric cyber worship which is the variety of ways religious devotion is performed and carried out on the Internet The term Cyber Worship is a catchall phrase which includes variants such as online worship virtual worship electronic prayer cyber puja cyber synagogue and so on Dr Mohamed Taher has thus assembled a quick reference for two groups those communities that are involved in Cyber Worship and business Webs that collaborate in sustaining wired environments As such this book provides an interesting and current perspective on a practice that will continue to grow in the future

Give Me that Online Religion

About

Religion Mark C. Taylor,1999-07 Religion Mark C Taylor maintains is most interesting where it is least obvious From global financial networks to the casinos of Las Vegas from images flickering on computer terminals to steel sculpture material culture bears unexpected traces of the divine In a world where the economies of faith are obscure yet pervasive Taylor shows that approaching religion directly is less instructive than thinking about it Traveling from high culture to pop culture and back again About Religion approaches cyberspace and Las Vegas through Hegel and Kant and reads Melville s The Confidence Man through the film Wall Street As astonishing juxtapositions and associations proliferate formerly uncharted territories of virtual culture disclose theological vestiges showing that faith in contemporary culture is as unavoidable as it is elusive The most accessible presentation of Taylor s revolutionary ideas to date About Religion gives us a dazzling and disturbing vision of life at the end of the old and beginning of the new millennium

The Soul of Cyberspace

Jeffrey P. Zaleski,1997 In a pioneering journey to faith s new frontier cyberspace where traditional religions are reinvented and new ones are created the acclaimed coauthor of Transformations Awakening to the Sacred in Ourselves charts technology s radical impact on the ways in which the world prays worships preaches and believes

The Soul in Cyberspace

Doug Groothuis,1999-03-08 While most Christians are content with a superficial and pragmatic assessment of the new information technologies Douglas Groothuis probes more deeply He wisely recognizes the symbolic power of technology machines don t

just do things they shape us by equipping our imaginations and language with powerful new images metaphors and assumptions Groothuis has done a great service in alerting us to the temptations that will challenge the twenty first century church and in providing the tools to discern what is real what is true and what is to be treasured Ken Myers **The Pearly Gates of Cyberspace** Margaret Wertheim,2000 Cyberspace may seem an unlikely gateway for the soul but as science commentator Wertheim argues in this wonderfully provocative Kirkus Reviews book cyberspace has in recent years become a repository for immense spiritual yearning 37 illustrations Cyber Zen Gregory Price Grieve,2016-12-08 Cyber Zen ethnographically explores Buddhist practices in the online virtual world of Second Life Does typing at a keyboard and moving avatars around the screen however count as real Buddhism If authentic practices must mimic the actual world then Second Life Buddhism does not In fact a critical investigation reveals that online Buddhist practices have at best only a family resemblance to canonical Asian traditions and owe much of their methods to the late twentieth century field of cybernetics If however they are judged existentially by how they enable users to respond to the suffering generated by living in a highly mediated consumer society then Second Life Buddhism consists of authentic spiritual practices Cyber Zen explores how Second Life Buddhist enthusiasts form communities identities locations and practices that are both products of and authentic responses to contemporary Network Consumer Society Gregory Price Grieve illustrates that to some extent all religion has always been virtual and gives a glimpse of possible future alternative forms of religion **The Oxford Handbook of the Sociology of Religion** Peter Bernard Clarke,2009 An expert team of international scholars here provide 51 essays as entry points into the sociological study and understanding of religion as well as in depth surveys into its changing forms and content in the contemporary world Issues discussed range from ecology to law art to cognitive science crime to health care

e-Religion Anastasia Karaflogka,2014-12-18 Religion has flourished in cyberspace bringing individuals together helping to consolidate fringe religions promoting activism and evangelism and providing sites for the promotion and examination of specific issues E Religion is one of the first systematic scholarly studies of religion on the Web Providing a clear outline of Web epistemology and theory the book outlines the key methodologies for the study of e religions The book will be invaluable to students of religion sociology and technology **Speaking for Islam** Gudrun Krämer,Sabine Schmidtke,2006-09-01 Who speaks for Islam To whom do Muslims turn when they look for guidance To what extent do individual scholars and preachers exert religious authority and how can it be assessed The upsurge of Islamism has lent new urgency to these questions but they have deeper roots and a much longer history and they certainly should not be considered in the light of present concerns only The present volume grown out of an international symposium at the Free University Berlin in 2002 is not so much concerned with religious authority but with religious authorities men and women claiming projecting and exerting religious authority within a given context It addresses issues such as the relationship of knowledge conduct and charisma the social functions of the schools of law and theology and the efforts on the part of governments and rulers to organize religious

scholars and to implement state centred hierarchies The volume focuses on Middle Eastern Muslim majority societies in the period from the eighteenth to the twentieth centuries and the individual papers offer case studies elucidating important aspects of the wider phenomenon Individually and collectively they highlight the scope and variety of religious authorities in past and present Muslim societies

Religion Online August E. Grant, Amanda F. C. Sturgill, Chiung Hwang Chen, Daniel A. Stout, 2019-03-07 Religion Online provides new insights about religiosity in a contemporary context offering a comprehensive look at the intersection of digital media faith communities and practices of all sorts Recent research on Apple users video games virtual worlds artificial intelligence digital music and sports as religion supports the idea that media and religion once considered separate entities are in many cases the same thing New media and religious practice can no longer be detached this two volume set discusses how religionists are embracing the Internet amidst cultural shifts of secularization autonomous religious worship millennials affinity for new media and the rise of fundamentalism in the global south While other works describe case studies this book explains how new media are interwoven into the very fabric of religious belief behavior and community Chapters break down the past present and projected future of the use of digital media in relation to faith traditions of many varieties extending from mainline Christianity to new religious movements The book also examines the impacts of digital media on beliefs and practices around the world In exploring these subjects it calls on the study of culture namely anthropology to conceptualize a technological period as significant as the industrial revolution

Exploring Religious Community Online Heidi Campbell, 2005 Exploring Religious Community Online is the first comprehensive study of the development and implications of online communities for religious groups This book investigates religious community online by examining how Christian communities have adopted internet technologies and looks at how these online practices pose new challenges to offline religious community and culture

Predicting Religion Grace Davie, Paul Heelas, Linda Woodhead, 2017-07-05 Religion in the contemporary west is undergoing rapid change In Predicting Religion twenty experts in the study of religion present their predictions about the future of religion in the 21st century predictions based on careful analysis of the contemporary religious scene from traditional forms of Christianity to new spiritualities The range of predictions is broad A number predict further secularization with religion in the west seen as being in a state of terminal decline Others question this approach and suggest that we are witnessing not decline but transformation understood in different ways a shift from theism to pantheism from outer to inner authority from God to self as god and above all from religion to spirituality This accessible book on the contemporary religious scene offers students and scholars of the sociology of religion and theology as well as interested general readers fresh insights into the future of religion and spirituality in the west Published in association with the British Sociological Association Study of Religion group in the Ashgate Religion and Theology in Interdisciplinary Perspective series
