Religion And Dialogue:

The Problem with Interreligious Dialogue Muthuraj Swamy, 2016-03-24 Muthuraj Swamy provides a fresh perspective on the world religions paradigm and interreligious dialogue By challenging the assumption that world religions operate as essential entities separate from the lived experiences of practitioners he shows that interreligious dialogue is in turn problematic as it is built on this very paradigm and on the myth of religious conflict Offering a critique of the idea of dialogue as it has been advanced by its proponents such as religious leaders and theologians whose aims are to promote inter religious conversation and understanding the author argues that this approach is elitist and that in reality people do not make sharp distinctions between religions nor do they separate political economic social and cultural beliefs and practices from their religious traditions Case studies from villages in southern India explore how Hindu Muslim and Christian communities interact in numerous ways that break the neat categories often used to describe each religion Swamy argues that those who promote dialogue are ostensibly attempting to overcome the separate identities of religious practitioners through understanding but in fact they re enforce them by encouraging a false sense of separation **The Problem with Interreligious Dialogue** Plurality Conflict and Elitism in Hindu Christian Muslim Relations provides an innovative approach to a central issue confronting Religious Studies combining both theory and ethnography

The Faiths of Others Thomas Albert Howard, 2021-01-01 The first intellectual history of interreligious dialogue a relatively new and significant dimension of human religiosity In recent decades organizations committed to interreligious or interfaith dialogue have proliferated both in the Western and non Western worlds Why How so And what exactly is interreligious dialogue These are the touchstone questions of this book the first major history of interreligious dialogue in the modern age Thomas Albert Howard narrates and analyzes several key turning points in the history of interfaith dialogue before examining in the conclusion the contemporary landscape While many have theorized about and practiced interreligious dialogue few have attended carefully to its past connecting its emergence and spread with broader developments in modern history Interreligious dialogue grasped in light of careful critical attention to its past holds promise for helping people of diverse faith backgrounds to foster cooperation and knowledge of one another while contributing insight into contemporary global religious pluralism

Because of Beauvoir Alison E. Jasper, 2012 An original reconciliation of Christianity and feminism Encounters Aaron Rosen, 2018 The 21st century is a new era for interfaith dialogue Leaders of many of the world's faiths have begun often for the first time to sit down together and consider the possibilities for cooperation and dialogue between the practitioners of their religions While in the past such encounters might have been stiff affairs contrived to generate a politically expedient photo op what is remarkable today is the depth of relationships being formed across historically deep divides Acclaimed artist Nicola Green has had a front row seat to many of these encounters spending years accompanying former Archbishop of Canterbury Rowan Williams in meetings with religious leaders across the world In her wide ranging project Only through Others Green presents photographs and paintings inspired by Dr Williams intimate conversations with figures including Pope Emeritus Benedict XVI the Dalai Lama the Grand Mufti of Egypt and former British Chief Rabbi Jonathan Sacks Green's works resulting from unprecedented access yielding thousands of photographs drawings and pages of notes provide a dynamic lens for the authors in this book to analyze what makes for productive and lasting interfaith dialogue By paying attention to neglected factors in such encounters from the set up of physical spaces to bodily gestures and even the clothing of participants this book provides a truly embodied perspective on interfaith dialogue It refuses to see theology in a vacuum placing faith fully within the context of visual material and sensory culture

Why the Science and Religion Dialogue Matters Fraser Watts, Kevin Dutton, 2006-10 Each world faith tradition has its own distinctive relationship with science and the science religion dialogue benefits from a greater awareness of what this relationship is In this book members of the International Society for Science and Religion ISSR offer international and multi faith perspectives on how new discoveries in science are met with insights regarding spiritual realities The essays reflect the conviction that religion and science each proceed best when they're pursued in dialogue with each other and also that our fragmented and divided world would benefit more from a stronger dialogue between science and religion In Part One George F R Ellis John C Polkinghorne and Holmes Rolston III each a Templeton Prize winner discuss their views on why the science and religion dialogue matters They are joined in Part Two by distinguished theologians Fraser Watts and Philip Clayton who place the dialogue in an international context John Polkinghorne's inaugural address to the ISSR in 2002 is also included In Part Three five members of the ISSR look at the distinctive relationships of their faiths to science Carl Feit on Judaism Munawar Anees on Islam B V Subbarayappa on Hinduism Trinh Xuan Thuan on Buddhism Heup Young Kim on Asian Christianity George Ellis the recently elected second president of ISSR summarizes the contributions of his colleagues Ronald Cole Turner then concludes the book

with a discussion of the future of the science and religion dialogue *Christianity, Truth, and Weakening Faith* Gianni Vattimo, Rene Girard, 2010-02-15 The debate over the place of religion in secular democratic societies dominates philosophical and intellectual discourse These arguments often polarize around simplistic reductions making efforts at reconciliation impossible Yet more rational stances do exist positions that broker a peace between relativism and religion in people's public private and ethical lives Christianity Truth and Weakening Faith advances just such a dialogue featuring the collaboration of two major philosophers known for their progressive approach to this issue Seeking unity over difference Gianni Vattimo and Rene Girard turn to Max Weber Eric Auerbach and Marcel Gauchet among others in their exploration of truth and liberty relativism and faith and the tensions of a world filled with new forms of religiously inspired violence Vattimo and Girard ultimately conclude that secularism and the involvement or lack thereof of religion in governance are in essence produced by Christianity In other words Christianity is the religion of the exit from religion and democracy civil rights the free market and individual freedoms are all facilitated by Christian culture Through an exchange that is both intimate and enlightening Vattimo and Girard share their unparalleled insight into the relationships among religion modernity and the role of Christianity especially as it exists in our multicultural world **The Intrareligious Dialogue** Raimon Panikkar, 1978 Dr Panikkar begins by pointing out the prevailing attitudes and critical models for attaining a pluralism standing between unrelated plurality and a monolithic unity For the author this is a pluralism which takes our factual situation as real and affirms that in the actual polarities of our human existence we find our real being He describes an intrareligious dialogue in which faith is not confused with belief in which religious encounter must be a truly religious one and in which the participants overcome temptation to defend themselves The major religions of the world and particularly the Christian Hindu and Buddhist traditions are seen as the response to the human predicament that Man is a being not yet finished a reality unachieved growing becoming on the way a pilgrim It means for each person to touch the shore of nothingness provided he does not rest in that non existing place It means to develop all the human potentialities provided these are not artificially concocted dreams It means finally to know and accept the human predicament and at the same time to recognize that this very human predicament carries with it the constant overcoming of all that Man is now Publisher *Theology and the Dialogue of Religions* Michael Barnes, 2002-03-14 Theology of religions is an area of theological reflection on inter religious relations which raises fundamental questions for all people of faith in a pluralist post modern world How to practise a religious faith with integrity while respecting other claims to ultimate truth Must the other always be regarded as a problematic complication on the fringes of a Christianity centred world Is there a third way between an all dominating exclusivism and a vapid relativism This book contributes to the debate about the place of inter religious relations in the life of the Church by developing a theology of dialogue In offering a critique of much current thinking in this area Michael Barnes SJ proposes instead a theology rooted in the themes of welcome and hospitality He argues for a vision of Christianity as a

school of faith a community called not just to teach others but to learn from them as well Religions in Dialogue Alan Race, Ingrid Shafer, 2017-11-30 This title was first published in 2002 Judaism Christianity and Islam as Abrahamic religions share much theological common ground and the momentum for dialogue between them at theological levels has greatly increased in recent decades This book explores the relationship between religion and the modern democratic state from the perspective of these three monotheistic traditions It investigates how the three religions in dialogue might overcome their historic antagonism as a prelude to working for the development of the global common good As part of the test of religious ideals some of the contributions bring theory down to earth by examining the role of religion in three democratic states with different histories Turkey Indonesia India and also in relation to a culture of human rights Drawing together leading Muslim Christian and Jewish authors from America Europe and Asia the book presents a rare collaboration of faiths and ideas to make a contribution to studies of inter religious dialogue and the changing role of religion in the democratic state

Cultures and Religions in Dialogue Panikkar, Raimon, 2018-12-20 **Christian Theology and Inter-religious Dialogue** Maurice Wiles, 1992 That Professor Wiles has now turned from the field of Christian doctrine and its history for which he is so well known to that of inter faith dialogue is an indication of the importance which that subject is now assuming This is not a book he confesses which he had expected to write but in recent years he has increasingly felt that the close co existence of different faith communities in the modern world is as important a background to Christian theology as the rise of the scientific world view In his book which arises out of lectures at Manchester and Yale universities Professor Wiles begins by asking whether acceptance of the possibility of open dialogue with other religions is not a desertion of the way in which church has understood its faith down the ages He then goes on to argue that pressure to acknowledge other religions is only one of several pressures arising out of changes in contemporary knowledge and experience of the world which Christians face today A third chapter examines how Karl Rahner tried to incorporate these changes into a coherent theological position and the last chapter builds on this approach and offers a personal account of a Christian theology for dialogue At a time of increasing conservatism and opposition to interfaith activity in the churches here is encouragement to those who believe that narrow christocentricity is not the way forward **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved Talking Dialogue Karsten Lehmann, 2021-02-22 Throughout the last two decades the modern dialogue movement has gained worldwide significance The knowledge about its origins is however still very limited This book presents a wide range of insights from eleven case studies into the early history of several important international interreligious interfaith dialogue organizations that have shaped the modern development of interreligious dialogue from the late nineteenth century up to the present Based on new archival research they describe on the one hand how these actors put their ideals into practice and on the other how they faced many challenges as pioneers in the establishment of new interreligious interfaith organizational structures This book concludes with a comparison of those case studies bringing to
