Receding Shadow of the Prophet Ray Takeyh, Nikolai K. Gvosdev, 2004-06-30 The tragic events of September 11 2001 in the United States renewed fears of an Islamist wave destabilizing the countries of the Muslim world Yet the alarm raised over a previous wave of Islamism in the early 1990s which threatened to overwhelm Egypt and Algeria and spill into the Balkans and Central Asia proved to be unfounded Takeyh and Gvosdev assert that while Islamism has been successful as an

oppositional ideology of wrath it has failed to provide Islamic societies with any feasible alternative to undertaking fundamental political and economic reforms By detailing the defeat of Islamist movements in the Middle East the Balkans and Central Asia over the last decade this book encourages us not to overestimate the Islamist threat in the current climate and the years to come Radical Islamists have been successful in mobilizing opposition to corrupt regimes yet they have failed to translate their utopian vision into reality Furthermore their emphasis on violence alienates and frightens the middle class and other potential allies Iran's revolution failed to create a model Islamic republic and its government is increasingly losing legitimacy to demands for genuine democracy Islamist governments in Afghanistan and Sudan relied upon violence to remain in power and ultimately collapsed Islamist movements proved unable to dislodge the existing regimes in Egypt and Algeria In the Balkans and Central Asia Islamism has had little attraction for Western oriented populations Indeed throughout the entire Islamic world former radicals are seeking a new accommodation between Islamic values and liberal democracy Takeyh and Gvosdev succinctly and accessibly explore the rise of radical Islam as well as its ultimate demise in various nations

The Eclipse of Liberal Protestantism in the Netherlands Tom-Eric Krijger, 2019-09-16 In *The Eclipse of Liberal Protestantism in the Netherlands* Tom Eric Krijger is the first to offer a synthesis of the development of the Protestant modernist movement in Dutch religious social cultural and political life between 1870 and 1940 In historiography the liberal Protestant community is said to have lost appeal and influence in these decades due to a lack of theological clarity inner harmony and organisation Analysing liberal Protestants self perception vis vis Christian orthodoxy self understanding as a faith community attitude towards other alternatives to orthodoxy class consciousness literary criticism political commitment and involvement with foreign mission Krijger challenges this view Making an international comparison he argues that the Dutch modernist movement failed to make headway primarily due to liberal Protestant expectations and discourse

Nations under God Anna M. Grzymała-Busse, 2015-04-27 Why churches in some democratic nations wield enormous political power while churches in other democracies don't In some religious countries churches have drafted constitutions restricted abortion and controlled education In others church influence on public policy is far weaker Why *Nations under God* argues that where religious and national identities have historically fused churches gain enormous moral authority and covert institutional access These powerful churches then shape policy in backrooms and secret meetings instead of through open democratic channels such as political parties or the ballot box Through an in depth historical analysis of six Christian democracies that share similar religious profiles yet differ in their policy outcomes Ireland and Italy Poland and Croatia and the United States and Canada Anna Grzymała-Busse examines how churches influenced education abortion divorce stem cell research and same sex marriage She argues that churches gain the greatest political advantage when they appear to be above politics Because institutional access is covert they retain their moral authority and their reputation as defenders of the national interest and the common good *Nations under God* shows how powerful church officials in Ireland Canada and Poland

have directly written legislation vetoed policies and vetted high ranking officials It demonstrates that religiosity itself is not enough for churches to influence politics churches in Italy and Croatia for example are not as influential as we might think and that churches allied to political parties such as in the United States have less influence than their notoriety suggests

Ukraine: Perestroika to Independence T. Kuzio, 2016-01-03 The Ukrainian vote for independence in December 1991 effectively ended the existence of the Soviet Union and propelled one of Europe's submerged nations on to the world stage The main theme of the book is the transition in Ukraine from the policies of Perestroika and Glasnost to the ultimate break with Moscow **A Reader's Guide to the Baltic States** , 1991
