## **Matusow Affair:**

**McCarthyism vs. Clinton Jencks** Raymond Caballero, 2019-08-22 For twenty years after World War II the United States was in the grips of its second and most oppressive red scare. The hysteria was driven by conflating American Communists with the real Soviet threat. The anticommunist movement was named after Senator Joseph R. McCarthy, but its true dominant personality was FBI director J. Edgar Hoover, who promoted and implemented its repressive policies and laws. The national fear over communism generated such anxiety that Communist Party members and many left-wing Americans lost the laws' protections. Thousands lost their jobs, careers, and reputations in the hysteria, though they had committed no crime and were not disloyal to the United States. Among those individuals who experienced more of anticommunism's varied repressive measures than anyone else was Clinton Jencks. Jencks, a decorated war hero, adopted as his own the Mexican American fight for equal rights in New Mexico's mining industry. In 1950 he led a local of the International Union of Mine, Mill, and Smelter Workers in the famed Empire Zinc strike, memorialized in the blacklisted 1954 film *Salt of the Earth*, in which wives and mothers replaced strikers on the picket line after an injunction barred the miners themselves. But three years after the strike, Jencks was arrested and charged with falsely denying that he was a Communist and was sentenced to five years in prison. In *Jencks v. United States* (1957), the Supreme Court overturned his conviction in a landmark decision that mandated providing to an accused person previously hidden witness statements, thereby making cross-examination truly effective. In *McCarthyism vs. Clinton Jencks*, Caballero reveals for the first time that the FBI and the prosecution knew all along that Clinton Jencks was innocent. Jencks's case typified the era, exposing the injustice that many suffered at the hands of McCarthyism. The tale of Jencks's quest for justice provides a fresh glimpse into the McCarthy era's oppression, which irrevocably damaged the lives, careers, and reputations of thousands of Americans. *Many Are the Crimes* Ellen Schrecker, 1998 Offers an analysis of the McCarthy phenomenon, tracing the machinations of anticommunism in creating a culture of fear and suspicion. **Hearings, Reports and Prints of the Senate Committee on the Judiciary** United States. Congress. Senate. Committee on the Judiciary, 1952 **The Matusow Affair** Albert Eugene Kahn, 1987 The shocking story of the paid informant who lied to furnish the McCarthy machine with false testimony during the Red Scare, baiting of the 1950s. American Prophet Peter Richardson, 2019-03-05 A fascinating portrait of activism, deepened and sustained by Herculean labors of research and investigation. The *Nation* historian Kevin Starr described Carey McWilliams as the finest nonfiction writer on California ever and the state's most astute political observer. But as Peter Richardson argues, McWilliams was also one of the nation's most versatile and productive public intellectuals of his time. Richardson's absorbing and elegant biography traces McWilliams's extraordinary life and career. Drawing from a wide range of sources, it explores his childhood on a Colorado cattle ranch, his early literary journalism in Los Angeles, his remarkable legal and political activism, his stint in state government, the explosion of first-rate books between 1939 and 1950, and his editorial leadership at *The Nation*. Along the way, it also documents

McWilliams's influence on a wide range of key figures including Cesar Chavez, Hunter S. Thompson, Mike Davis, screenwriter Robert Towne, playwright Luis Valdez, and historian Patricia Limerick. Anti-computing Caroline Bassett, 2022-02-22 We live in a moment of high anxiety around digital transformation. Computers are blamed for generating toxic forms of culture and ways of life. Once part of future imaginaries that were optimistic or even utopian, today there is a sense that things have turned out very differently. Anti-computing is widespread. This book seeks to understand its cultural and material logics, its forms, and its operations. Anti-Computing critically investigates forgotten histories of dissent moments when the imposition of computational technologies, logics, techniques, imaginaries, utopias have been questioned, disputed, or refused. It asks why dissent is forgotten and how, under what circumstances, it revives. Constituting an engagement with media archaeology, medium theory, and working through a series of case studies, this book is compelling reading for scholars in digital media, literary, cultural history, digital humanities, and associated fields at all levels. Encyclopedia of Cold War Espionage, Spies, and Secret Operations Richard Trahair, 2012-01-10 The only comprehensive and up-to-date book of its kind with the latest information. *Palomino* James J. Lorence, 2013-05-15 The first comprehensive biography of progressive labor organizer, peace worker, and economist Clinton Jencks. 1918-2005. This book explores the life of one of the most important political and social activists to appear in the Southwestern United States in the twentieth century. A key figure in the radical International Union of Mine, Mill, and Smelter Workers (IUMMSW) Local 890 in Grant County, New Mexico, Jencks was involved in organizing not only the mine workers but also their wives in the 1951 strike against the Empire Zinc Company. He was active in the production of the 1954 landmark labor film dramatizing the Empire Zinc strike, *Salt of the Earth*, which was heavily suppressed during the McCarthy era and led to Jencks's persecution by the federal government. Labor historian James J. Lorence examines the interaction between Jencks's personal experience and the broader forces that marked the world and society in which he worked and lived. Following the work of Jencks and his equally progressive wife Virginia Derr, Jencks Lorence illuminates the roots and character of Southwestern unionism, the role of radicalism in the Mexican American civil rights movement, the rise of working-class feminism within Local 890 and the Grant County Mexican American community, and the development of Mexican American identity in the Southwest. Chronicling Jencks's five-year-long legal battle against charges of perjury, this biography also illustrates how civil liberties and American labor were constrained by the specter of anticommunism during the Cold War. Drawing from extensive research, as well as interviews and correspondence, this volume highlights Clinton Jencks's dramatic influence on the history of labor culture in the Southwest through a lifetime devoted to progress and change for the social good. *Undercover Girl* Lisa E. Davis, 2017-05-09 At the height of the Red Scare, Angela Calomiris was a paid FBI informant inside the American Communist Party. As a Greenwich Village photographer, Calomiris spied on the New York Photo League pioneers in documentary photography. While local Party officials may have had their suspicions about her sexuality, her apparent dedication to the cause won them over. When Calomiris testified for the prosecution

at the 1949 Smith Act trial of the Party's National Board her identity as an informant but not as a lesbian was revealed Her testimony sent eleven party leaders to prison and decimated the ranks of the Communist Party in the US Undercover Girl is both a new chapter in Cold War history and an intimate look at the relationship between the FBI and one of its paid informants Ambitious and sometimes ruthless Calomiris de ed convention in her quest for celebrity
