Max Slevoght:

Max Slevogt Max Slevogt, 1969 **Art Books** Wolfgang M. Freitag, 1997 Expanded to twice as many entries as the 1985 edition and updated with new publications new editions of previous entries titles missed the first time around more of the artists own writings and monographs that deal with significant aspects or portions of an artist s work though not all of it The listing is alphabetical by artist and the index by author The works cited include analytical and critical biographical and enumerative their formats range from books and catalogues raisonnees to exhibition and auction sale catalogues A selection of biographical dictionaries containing information on artists is arranged by country Annotation copyrighted by Book News Inc Portland OR **Artists and Society in Germany, 1850-1914** Robin Lenman, 1997 In times past everyday business might mean making a trip to the pawnbroker giving a loan to a trusted friend of selling off a coat all to make ends meet Both women and men engaged in this daily budgeting but women s roles were especially important in achieving some level of comfort and avoiding penury In some communities the daily practices in place in the seventeenth century persisted into the twentieth whilst other groups adopted new ways such as using numbers to chart domestic affairs and turning to the savings banks that appeared in the nineteenth century These strategies promised respectability and greater access to new consumer goods better clothes and finer furnishings accompanied a newly disciplined behaviour Therefore in the material world of the past and in the changing habits of earlier generations lie crucial turning points This book explores these previously under researched patterns and practices that gave shape to modern consumer society **Between Tradition and Modernity** Mark A. Russell, 2007 Aby Warburg 1866 1929 founder of the Warburg Institute was one of the most influential cultural historians of the twentieth century Focusing on the period 1896 1918 this is the first in depth book length study of his response to German political social and cultural modernism It analyses Warburg s response to the effects of these phenomena through a study of his involvement with the creation of some of the most important public artworks in Germany Using a wide array of archival sources including many of his unpublished working papers and much of his correspondence the author demonstrates that Warburg s thinking on contemporary art was the product of two important influences his engagement with Hamburg s civic affairs and his affinity with influential reform movements seeking a greater role for the middle classes in the political social and cultural leadership of the nation Thus a lively picture of Hamburg s cultural life emerges as it responded to artistic modernism animated by private initiative and public discourse and charged with debate

The Twentieth Century German Art Exhibition Lucy Wasensteiner, 2018-10-09 This book represents the first study dedicated to Twentieth Century German Art the 1938 London exhibition that was the largest international response to the cultural policies of National Socialist Germany and the infamous Munich exhibition Degenerate Art Provenance research into the catalogued exhibits has enabled a full reconstruction of the show for the first time its contents and form its contributors and their motivations and its impact both in Britain and internationally Presenting the research via six case study exhibits the

book sheds new light on the exhibition and reveals it as one of the largest migr projects of the period which drew contributions from scores of German migr collectors dealers art critics and from the degenerate artists themselves The book explores the show s potency as an anti Nazi statement which prompted a direct reaction from Hitler himself **Modern Paintings by German and Austrian Masters** Josef Stransky,1916 Cultural Studies of Modern Germany Russell A. Berman,1993 A study probing the ambiguities of German nationhood Berman takes a theoretical perspective of cultural studies exploring such themes as the constitution of nationhood what holds a citizenry together and history s role in providing a framework for current identities and institutions **Printed graphics** Max Liebermann,Max Slevogt,Lovis Corinth,1982 Max Slevogt Emil Waldmann,Max Slevogt,1923 **The German Fairy Tale Landscape** Thomas L. Johnson,Eberhard Michael Iba,2006 The Original Portrayal of Mozart's Don Giovanni Magnus Tessing Schneider,2021-11-15 The Original Portrayal of Mozart s Don Giovanni offers an original reading of Mozart s and Da Ponte s opera Don Giovanni using as a lens the portrayal of the title role by its creator the baritone Luigi Bassi 1766 1825 Although Bassi was coached in the role by the composer himself his portrayal has never been studied in depth before and this book presents a large number of new sources first and second hand accounts which allows us to reconstruct his performance scene by scene The book confronts Bassi s portrayal with a study of the opera s early German reception and performance history demonstrating how Don Giovanni as we know it today was not only created by Mozart Da Ponte and Luigi Bassi but also by the early German adapters translators critics and performers who turned the title character into the arrogant and violent villain we still encounter in most of today s stage productions Incorporating discussion of dramaturgical thinking of the late Enlightenment and the difficult moral problems that the opera raises this is an important study for scholars and researchers from opera studies theatre and performance studies music history as well as conductors directors and singers

Max Slevogt Franz Josef Kohl-Weigand,Max Slevogt,1960 *The Expressionist Roots of Modernism* Peter Lasko,2003 This book explores the beginnings of the interior design profession in nineteenth century France Drawing on a wealth of visual sources from collecting and advice manuals to pattern books and department store catalogues it demonstrates how new forms of print media were used to sell the idea of the unified interior as a total work of art enabling the profession of interior designer to take shape In observing the dependence of the trades on the artistic and public visual appeal of their work Interior decorating in nineteenth century France establishes crucial links between the fields of art history material and visual culture and design history The Aesthetics of Loss Claudia Siebrecht,2013-09-19 An examination of German women s art produced during the First World War that places the artists visual responses within the civilian war experience Traces the thematic evolution of women s art from visual expressions of support for the national war effort to more nuanced and distraught representations of grief over wartime death **Knowing by Ear** Anette Hoffmann,2024-02-23 During World War I thousands of young African men conscripted to fight for France and Britain were captured and held as prisoners of war in

Germany where their stories and songs were recorded and archived by German linguists In *Knowing by Ear* Anette Hoffmann demonstrates that listening to these acoustic recordings as historical sources rather than linguistic samples opens up possibilities for new historical perspectives and the formation of alternate archival practices and knowledge production She foregrounds the archival presence of individual speakers and positions their recorded voices as responses to their experiences of colonialism war and the journey from Africa to Europe By engaging with the recordings alongside written sources photographs and artworks depicting the speakers Hoffmann personalizes speakers from present day Senegal Somalia Togo and Congo *Knowing by Ear* includes transcriptions of numerous recordings of spoken and sung texts revealing acoustic archives as significant yet under researched sources for recovering the historical speaking positions of colonized subjects and listen to the acoustic echo of colonial knowledge production

Impressionism

John I. Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles

Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes
