# Max Weber An Intellectual Biography

**Wolfgang J. Mommsen, Jürgen  
Osterhammel**

## **Max Weber An Intellectual Biography:**

**Max Weber** Marianne Weber, 2017-07-12 A founder of contemporary social science Max Weber was born in Germany in 1864 At his death 56 years later he was nationally known for his scholarly and political writings but it was the international reception of his oeuvre over the last forty years that has made him world famous The Protestant Ethic and the Spirit of Capitalism The Economic Ethics of the World Religions and his magnum opus Economy and Society with its treatment of the relations of economics politics law and religion belong to the great achievements of 20th century social science The groundwork for the posthumous Weber reception was laid by Weber's widow Marianne a well known feminist writer who followed up her edition of his collected works with one of the greatest biographies in a generation that produced many important accounts of itself Although unavailable in English until a decade ago the importance of Marianne Weber's 1926 work had been widely understood Sociologist Robert A Nisbet called it a moving and deeply felt biographical memoir Historian Gerhard Masur cited the book as the foundation of all further inquiries into Max Weber's life and influence Beginning with Max's ancestry and early years Marianne Weber guides us through his life as student young lawyer scholar and political writer quoting liberally from his voluminous correspondence Her account of his nervous breakdown after 1897 which curtailed his academic career but ultimately strengthened his creative energies provides deep insight into some of the personal tensions that troubled him to the end In addition to her perceptive personal and intellectual life before the First World War describing many scholars social reformers politicians and literary figures within and beyond the famous Heidelberg circle of the Webers The new introduction by Guenther Roth situates Marianne Weber's own role in the contemporary setting and discusses the current state of Weber research and of the international Weber reception

**Max Weber** Reinhard Bendix, 1977 The purpose of this book is to make Weber's sociological work more accessible and more thematically coherent than it is either in the original or in translation This volume is used as an introduction to the study of original Weber texts and gives the reader a systematic presentation of Weber's sociological studies

**Max Weber** Fritz K. Ringer, 2004 *Max Weber* Fritz Ringer, 2010-07-15 Max Weber was one of the most influential and creative intellectual forces of the twentieth century In his methodology of the social sciences he both exposed the flaws and solidified the foundations of the German historical tradition Throughout his life he saw bureaucracy as a serious obstacle to cultural vitality but as an inescapable part of organizational rationality And in his most famous essay on the Protestant ethic he uncovered the psychological underpinnings of capitalism and modern occupational life This searching work offers the first comprehensive introduction to Weber's thought for students and newcomers Fritz Ringer locates Weber in his historical context relating his ideas to the controversies and politics of his day Ringer also considers the importance of Weber to contemporary life discussing his insights into the limits of scholarly research and the future of Western capitalist societies Weber Ringer reminds us believed in democracy liberalism and fundamental human rights his ethic of responsibility remains

as vital to our historical moment as it was to his own. A concise and incisive look at the man and personality behind the thought Max Weber is a masterful outing in intellectual biography and social theory. **The Iron Cage** Arthur Mitzman, This major study of the father of modern sociology explores the intimate relationship between the events of Max Weber's personal history and the development of his thought. When it was first published in 1970 Paul Roazen described *The Iron Cage* as an example of the history of ideas at its very best while Robert A. Nisbet said that we learn more about Weber's life in this volume than from any other in the English language. Weber's life and work developed in reaction to the rigidities of familial and social structures in Imperial Germany. In his youth he was torn by irreconcilable tensions between the Bismarckian authoritarianism of his father and the ethical puritanism of his mother. These tensions led to a psychic crisis when in his thirties he expelled his father, who died soon thereafter, from his house. His reaction to the collapse of the European social order before and during World War I was no less personal and profound. It is the triumph of Professor Mitzman's approach that he convincingly demonstrates how the internalizing of these severe experiences led to Weber's pessimistic vision of the future as an iron cage and to such seminal ideas as the notion of charisma and the concept of the Protestant ethic and its connection with the spirit of capitalism. The author's thesis also serves as a vehicle for describing the social, political, and personal plight of the European bourgeois intellectual of Weber's generation. In synthesizing Weber's life and thought, Arthur Mitzman has expanded and refined our understanding of this central twentieth-century figure. As Lewis Coser writes in the preface, until now there has been little attempt to bring together the work and the man to show the ways in which Weber's cognitive intentions, his choice of problems, were linked with the details of his personal biography. Arthur Mitzman fills this gap brilliantly.

**Max Weber** Joachim Radkau, 2011-04-18. Max Weber (1864-1920) is recognized throughout the world as the most important classic thinker in the social sciences; there is simply no one in the history of the social sciences who has been more influential. The affinity between capitalism and Protestantism, the religious origins of the Western world, the force of charisma in religion as well as in politics, the all-embracing process of rationalization and the bureaucratic price of progress, the role of legitimacy and of violence as offsprings of leadership, the disenchantment of the modern world together with the never-ending power of religion, the antagonistic relation between intellectualism and eroticism—all these are key concepts which attest to the enduring fascination of Weber's thinking. The tremendous influence exerted by Max Weber was due not only to the power of his ideas but also to the fact that behind his theories one perceived a man with a marked character and a tragic destiny. However, for nearly 80 years our understanding of the life of Max Weber was dominated by the biography published in 1926 by his widow, Marianne Weber. The lack of a great Weber biography was one of the strangest and most glaring gaps in the literature of the social sciences. For various reasons the task was difficult, time and again attempts to write a new biography of Max Weber ended in failure. When Joachim Radkau's biography appeared in Germany in 2005 it caused a sensation. Based on an abundance of previously unknown sources and richly

embedded in the German history of the time this is the first fully comprehensive biography of Max Weber ever to appear Radkau brings out in a way that no one has ever done before the intimate interrelations between Weber's thought and his life experience He presents detailed revelations about the great enigmas of Weber's life his suffering and erotic experiences his fears and his desires his creative power and his methods of work as well as his religious experience and his relation to nature and to death By understanding the great drama of his life we discover a new Max Weber until now unknown in many respects and at the same time we gain a new appreciation of his work Joachim Radkau born in 1943 is Professor of Modern History at the Bielefeld University Germany His interest in Max Weber dates back nearly forty years when he worked together with the German American historian George W F Hallgarten Washington a refugee who left Germany in 1933 and who as a student listened to Weber's last lecture in summer 1920 Radkau's main works include Die deutsche Emigration in den USA 1971 Deutsche Industrie und Politik together with G W F Hallgarten 1974 Aufstieg und Krise der deutschen Atomwirtschaft 1983 Technik in Deutschland 1989 Das Zeitalter der Nervosität 1998 Natur und Macht Eine Weltgeschichte der Umwelt 2000

**Hayek's Challenge** Bruce Caldwell, 2008-12-05 Friedrich A Hayek is regarded as one of the preeminent economic theorists of the twentieth century as much for his work outside of economics as for his work within it During a career spanning several decades he made contributions in fields as diverse as psychology political philosophy the history of ideas and the methodology of the social sciences Bruce Caldwell editor of The Collected Works of F A Hayek understands Hayek's thought like few others and with this book he offers us the first full intellectual biography of this pivotal social theorist Caldwell begins by providing the necessary background for understanding Hayek's thought tracing the emergence in fin de siècle Vienna of the Austrian school of economics a distinctive analysis forged in the midst of contending schools of thought In the second part of the book Caldwell follows the path by which Hayek beginning from the standard Austrian assumptions gradually developed his unique perspective on not only economics but a broad range of social phenomena In the third part Caldwell offers both an assessment of Hayek's arguments and in an epilogue an insightful estimation of how Hayek's insights can help us to clarify and reexamine changes in the field of economics during the twentieth century As Hayek's ideas matured he became increasingly critical of developments within mainstream economics his works grew increasingly contrarian and evolved in striking and sometimes seemingly contradictory ways Caldwell is ideally suited to explain the complex evolution of Hayek's thought and his analysis here is nothing short of brilliant impressively situating Hayek in a broader intellectual context unpacking the often difficult turns in his thinking and showing how his economic ideas came to inform his ideas on the other social sciences Hayek's Challenge will be received as one of the most important works published on this thinker in recent decades Max Weber and His Contemporaries Wolfgang J. Mommsen, Jürgen Osterhammel, 1987 Romance and Reason Andrew M. Koch, 2006-01-01 Alienation as a theme deeply pervaded both the work and life of Max Weber one of the pillars of modern sociology In this excellent new book Andrew M Koch analyzes the

genesis of the concept of alienation and then in a brilliant and imaginative turn works to recreate the context in which Weber understood alienation in both the intellectual and lived sense

**Max Weber and 'The Protestant Ethic'** Peter Ghosh, 2014-09-05 Max Weber and The Protestant Ethic Twin Histories presents an entirely new portrait of Max Weber one of the most prestigious social theorists in recent history using his most famous work The Protestant Ethic and the Spirit of Capitalism as its central point of reference It offers an intellectual biography of Weber framed along historical lines something which has never been done before It re evaluates The Protestant Ethic a text surprisingly neglected by scholars supplying a missing intellectual and chronological centre to Weber's life and work Peter Ghosh suggests that The Protestant Ethic is the link which unites the earlier pre 1900 and later post 1910 phases of his career He offers a series of fresh perspectives on Weber's thought in various areas charisma capitalism law politics rationality bourgeois life and not least Weber's unusual religious thinking which was remote from god yet based on close dialogue with Christian theology This approach produces a convincing view of Max Weber as a whole while previously the sheer breadth of his intellectual interests has caused him to be read in a fragmentary way according to a series of specialized viewpoints this volume seeks to put him back together again as a real individual

*Hans J. Morgenthau* Christoph Frei, 2001-04-01 Hans J Morgenthau a founding proponent of political realism remains the central figure in international relations scholarship of the twentieth century His book Politics among Nations literally defined the field in 1948 as it heralded the post World War II paradigm shift in American thinking about diplomacy Yet when Morgenthau died in 1980 at the age of seventy six no one present at his funeral had an inkling about the first half of his life his education his early productive career in Europe and America or the roots of his political philosophy In the first and only volume devoted to the intellectual formation of Morgenthau Christoph Frei draws upon an overwhelming abundance of resources including a lengthy paper trail of previously unseen diaries correspondence notes and manuscripts to disclose the compelling story of a great mind in the making Frei identifies the bases of Morgenthau's ideas and clarifies many misconceptions including Morgenthau's link with Augustinian thought his relationship with Reinhold Niebuhr and the impact of major thinkers such as Max Weber Hans Kelsen and Carl Schmitt on the scholar He offers incontrovertible evidence of Friedrich Nietzsche's predominant influence on Morgenthau Resoundingly praised in the original German Hans J Morgenthau is a brilliant life study that presents the first coherent picture of the European intellectual building blocks Morgenthau brought with him to America

**Democracy & the Political in Max Weber's Thought** Terry Maley, 2011-10-08 Max Weber is best known as one of the founders of modern sociology and the author of the Protestant Ethic and the Spirit of Capitalism but he also made important contributions to modern political and democratic theory In Democracy and the Political in Max Weber's Thought Terry Maley explores through a detailed analysis of Weber's writings the intersection of recent work on Weber and on democratic theory bridging the gap between these two rapidly expanding areas of scholarship Maley critically examines how Weber's realist model of democracy defines and constrains the

possibilities for democratic agency in modern liberal democracies Maley also looks at how ideas of historical time and memory are constructed in his writings on religion bureaucracy and the social sciences Democracy and the Political in Max Weber's Thought is both an accessible introduction to Weber's political thought and a spirited defense of its continued relevance to debates on democracy *The Cambridge Companion to Weber* Stephen Turner, 2000-04-13 Max Weber is indubitably one of the very greatest figures in the history of the social sciences the source of seminal concepts like the Protestant Ethic charisma and the idea of historical processes of rationalization But like his great forebears Adam Smith and Karl Marx Weber's work always resists easy categorisation Prominent as a founding father of sociology Weber has been a major influence in the study of ancient history religion economics law and more recently cultural studies This Cambridge Companion provides an authoritative introduction to the major facets of his thought including several like industrial psychology which have hitherto been neglected A distinguished international team of contributors examines some of the major controversies that have erupted over Weber's specialized work and shows how the issues have developed since he wrote The articles demonstrate Weber's impact on a variety of research areas *Max Weber in Politics and Social Thought* Joshua Derman, 2012-10-18 Max Weber is widely regarded as one of the foundational thinkers of the twentieth century But how did this reclusive German scholar manage to leave such an indelible mark on modern political and social thought *Max Weber in Politics and Social Thought* is the first comprehensive account of Weber's wide ranging impact on both German and American intellectuals Drawing on a wide range of sources Joshua Derman illuminates what Weber meant to contemporaries in the Weimar Republic and Nazi Germany and analyzes why they reached for his concepts to articulate such widely divergent understandings of modern life The book also accounts for the transformations that Weber's concepts underwent at the hands of migr and American scholars and in doing so elucidates one of the major intellectual movements of the mid twentieth century the transatlantic migration of German thought **Adorno** Stefan Müller-Doohm, 2015-10-09 Even the biographical individual is a social category wrote Adorno It can only be defined in a living context together with others In this major new biography Stefan Müller Doohm turns this maxim back on Adorno himself and provides a rich and comprehensive account of the life and work of one of the most brilliant minds of the twentieth century This authoritative biography ranges across the whole of Adorno's life and career from his childhood and student years to his years in emigration in the United States and his return to postwar Germany At the same time Müller Doohm examines the full range of Adorno's writings on philosophy sociology literary theory music theory and cultural criticism Drawing on an array of sources from Adorno's personal correspondence with Horkheimer Benjamin Berg Marcuse Kracauer and Mann to interviews notes and both published and unpublished writings Müller Doohm situates Adorno's contributions in the context of his times and provides a rich and balanced appraisal of his significance in the 20th Century as a whole Müller Doohm's clear prose succeeds in making accessible some of the most complex areas of Adorno's thought This outstanding biography will be the standard work on

Adorno for years to come      **Max Weber's Complete Writings on Academic and Political Vocations** Max Weber, 2008  
Annotation This is the first edition in any language of all of Max Weber's writings on academic and political vocations. The translation is new and liberally annotated, including a look at Weber's personality and what it was that made him such a phenomenon. Max Weber made many significant interpretations of both academic and political vocations in his two lectures on Science as a Vocation (*Wissenschaft als Beruf*, 1917) and Politics as a Vocation (*Politik als Beruf*, 1919) as well as in a series of newspaper articles including those written between 1908 and 1920. Since these writings are of more than historical interest, there was a need to bring them all together in a single volume. Newly translated and annotated, this collection comprises both lectures plus 32 articles which Weber wrote on academia. Most of these have not been translated before. In the Introduction, Prof. John Dreijmanis relates the academic and political vocations to each other conceptually, showing that there is considerable overlap and some convergence: the need for passion, an inward calling, as well as career insecurity, both vocations. Dreijmanis then examines the person of Weber and provides a new view of him in part through the lens of Carl Jung's theory of psychological types, as further developed by the Myers-Briggs Type Indicator (MBTI). As an extravert with a powerful thinking function and intellect, he was driven to take an interest in events outside himself and to speak his mind. Coming after a long line of introverted German philosophers, he was a phenomenon. The new translations by Gordon C. Wells are more faithful to Weber's style of expression and they correct an accumulation of errors of previous translations in the oft-translated essays on Politics and Science. Contains Glossary, Bibliography, Names Index, Subject Index.

**Max Weber and the Idea of Economic Sociology** Richard Swedberg, 2018-06-05 While most people are familiar with *The Protestant Ethic and the Spirit of Capitalism*, few know that during the last decade of his life, Max Weber (1864-1920) also tried to develop a new way of analyzing economic phenomena, which he termed economic sociology. Indeed, this effort occupies the central place in Weber's thought during the years just before his death. Richard Swedberg here offers a critical presentation and the first major study of this fascinating part of Weber's work. This book shows how Weber laid a solid theoretical foundation for economic sociology and developed a series of new and highly evocative concepts. He not only investigated economic phenomena but also linked them clearly with political, legal, and religious phenomena. Swedberg also demonstrates that Weber's approach to economic sociology addresses a major problem that has haunted economic analysis since the nineteenth century: how to effectively unite an interest-driven type of analysis popular with economists with a social one of course preferred by sociologists. Exploring Weber's views of the economy and how he viewed its relationship to politics, law, and religion, Swedberg furthermore discusses similarities and differences between Weber's economic sociology and present-day thinking on the same topic. In addition, the author shows how economic sociology has recently gained greater credibility as economists and sociologists have begun to collaborate in studying problems of organizations, political structures, social problems, and economic culture more generally. Swedberg's book will be sure to further this new cooperation.      *Classical*

*Sociological Theory* Craig Calhoun, Joseph Gerteis, James Moody, Steven Pfaff, Indermohan Virk, 2012-01-17 This comprehensive collection of classical sociological theory is a definitive guide to the roots of sociology from its undisciplined beginnings to its current influence on contemporary sociological debate Explores influential works of Marx Durkheim Weber Mead Simmel Freud Du Bois Adorno Marcuse Parsons and Merton Editorial introductions lend historical and intellectual perspective to the substantial readings Includes a new section with new readings on the immediate pre history of sociological theory including the Enlightenment and de Tocqueville Individual reading selections are updated throughout Max Weber and Thomas Mann Harvey Goldman, 1991 Though they worked in very different disciplines Max Weber and Thomas Mann were engaged from early in their careers in a remarkably similar enterprise converging on questions of personal identity and national self understanding and built upon conceptions drawn from a common intellectual and national heritage Harvey Goldman s ambitious new book is about a part of that enterprise the foundation of their understanding of the relation of self and work as set out in Weber s essays on religion and Mann s pre World War I writings Weber and Mann sought to revitalize a set of ideas of character and action calling and personality to guide their own lives and intellectual creation as well as politics and the life of the nation In their hands these ideas also became explanatory tools for understanding the crisis of their class and of Germany By organizing the interpretation of Weber and Mann around the conceptual nexus of calling and personality the author reveals a number of issues and problems that have been overlooked providing an altogether new approach to Weber s famous explanation of the capitalist spirit and recovering a vital modern debate around the idea and meaning of the person In the convergence of so many themes in their writings Weber and Mann exemplify the self understanding of their age and cast a special light on problems of self identity and social life This work contains fascinating material for students of intellectual history and modern political theory Anyone concerned generally with twentieth century European history politics philosophy and literature will welcome this rich vigorously written book Though they worked in very different disciplines Max Weber and Thomas Mann were engaged from early in their careers in a remarkably similar enterprise converging on questions of personal identity and national self understanding and built upon conceptions drawn from a common intellectual and national heritage Harvey Goldman s ambitious new book is about a part of that enterprise the foundation of their understanding of the relation of self and work as set out in Weber s essays on religion and Mann s pre World War I writings Weber and Mann sought to revitalize a set of ideas of character and action calling and personality to guide their own lives and intellectual creation as well as politics and the life of the nation In their hands these ideas also became explanatory tools for understanding the crisis of their class and of Germany By organizing the interpretation of Weber and Mann around the conceptual nexus of calling and personality the author reveals a number of issues and problems that have been overlooked providing an altogether new approach to Weber s famous explanation of the capitalist spirit and recovering a vital modern debate around the idea and meaning of the person In the convergence of so many themes in their

writings Weber and Mann exemplify the self understanding of their age and cast a special light on problems of self identity and social life This work contains fascinating material for students of intellectual history and modern political theory Anyone concerned generally with twentieth century European history politics philosophy and literature will welcome this rich vigorously written book

**Max Weber Matters** David Chalcraft, Fanon Howell, Marisol Lopez Menendez, Hector Vera, 2016-05-06 This volume clearly communicates that Weber's influence is of great significance to the history of social science and to appreciating the theoretical work of other social scientists in the modern age Its insightful and timely publication comprises topical and innovative work discussing Weber in a range of historical and contemporary questions including the controversy surrounding the Da Vinci code the charismatic role of martyrs the nuclear weapons strategy in a post cold war age and the affinity between Hindu belief systems and disenchanted computer science Max Weber Matters illustrates the multidisciplinary and continued relevance of Weber's work and will be of interest to scholars across a range of disciplines including historians sociologists political scientists and social theorists

## The Enigmatic Realm of **Max Weber An Intellectual Biography**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary. Within the captivating pages of **Max Weber An Intellectual Biography** a literary masterpiece penned by a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting affect the hearts and minds of people who partake in its reading experience.

### **Max Weber An Intellectual Biography Introduction**

In today's digital age, the availability of Max Weber An Intellectual Biography books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Max Weber An Intellectual Biography books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Max Weber An Intellectual Biography books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Max Weber An Intellectual Biography versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Max Weber An Intellectual Biography books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Max Weber An Intellectual Biography books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Max Weber An Intellectual Biography books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works

and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Max Weber An Intellectual Biography books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals.
