Max Ernst Collages The Invention Of The Surrealist Universe:

Max Ernst Collages Werner Spies,1991 Werner Spies: The Eye and the Word Werner Spies,Andreas Gursky,2011-04-01 **Max Ernst** Werner Spies,1991 New York Magazine ,1993-03-29 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Max Ernst** Max Ernst,Werner Spies,1986 Max Ernst used the word frottage to describe a medium invented by him in 1925 which proved to be his most original contribution to automatism in art He created a frottage by placing paper over a textured surface and then rubbing it to yield a print

Werner Spies: The Eye and the Word Werner Spies,Andreas Gursky,2011-04-01 **Max Ernst** Max Ernst,Metropolitan Museum of Art (New York, N.Y.),2005 A comprehensive look at the life and work of a pioneering 20th century artist Max Ernst and Alchemy M. E. Warlick,2013-05-01 Surrealist artist Max Ernst defined collage as the alchemy of the visual image Students of his work have often dismissed this comment as simply a metaphor for the transformative power of using found images in a new context Taking a wholly different perspective on Ernst and alchemy however M E Warlick persuasively demonstrates that the artist had a profound and abiding interest in alchemical philosophy and often used alchemical symbolism in works created throughout his career A revival of interest in alchemy swept the artistic psychoanalytic historical and scientific circles of the late nineteenth and early twentieth centuries and Warlick sets Ernst s work squarely within this movement Looking at both his art many of the works she discusses are reproduced in the book and his writings she reveals how thoroughly alchemical philosophy and symbolism pervade his early Dadaist experiments his foundational work in surrealism and his many collages and paintings of women and landscapes whose images exemplify the alchemical fusing of opposites This pioneering research adds an essential key to understanding the multilayered complexity of Ernst s works as it affirms his standing as one of Germany s most significant artists of the twentieth century **Surrealist Collage in Text and Image** Elza Adamowicz,1998-05-28 A new analysis of Surrealist collage in France leading to a radical reassessment of Surrealism **Marcel Duchamp and Max Ernst** David Hopkins,1998 David Hopkins analyses the extensive network of shared concerns and images in the work of Marcel Duchamp and Max Ernst the greatest names associated with Dada and Surrealist art This book covers a broad period from c 1912 to the mid 1940s during which the emergence of Dada and Surrealism in Europe and the United States challenged earlier movements such as Cubism and Expressionism creating scope for the expression of the unconscious fears and desires of artists acutely sensitive to the troubled nature of their times Examining Duchamp s and Ernst s subversion and manipulation of religious and hermetic beliefs such as Catholicism Rosicrucianism and Masonry David Hopkins demonstrates the ways in

which these esoteric concerns intersect with themes of peculiarly contemporary relevance including the social construction of gender and notions of ordering and taxonomy This detailed comparison of components of Duchamp s and Ernst s work reveals fascinating structural patterns enabling the reader to discover an entirely new way of understanding the mechanisms underlying Dada and Surrealist iconography [Collage in Twentieth-Century Art, Literature, and Culture](#) Rona Cran,2016-05-23 Emphasizing the diversity of twentieth century collage practices Rona Cran s book explores the role that it played in the work of Joseph Cornell William Burroughs Frank O Hara and Bob Dylan For all four collage was an important creative catalyst employed cathartically aggressively and experimentally Collage s catalytic effect Cran argues enabled each to overcome a potentially destabilizing crisis in representation Cornell convinced that he was an artist and yet hampered by his inability to draw or paint used collage to gain access to the art world and to show what he was capable of given the right medium Burroughs formal problems with linear composition were turned to his advantage by collage which enabled him to move beyond narrative and chronological requirement O Hara used collage to navigate an effective path between plastic art and literature and to choose the facets of each which best suited his compositional style Bob Dylan s self conscious application of collage techniques elevated his brand of rock and roll to a level of heightened aestheticism Throughout her book Cran shows that to delineate collage stringently as one thing or another is to severely limit our understanding of the work of the artists and writers who came to use it in non traditional ways [Art and knowledge after 1900](#) James Fox,Vid Simoniti,2023-12-12 This ground breaking new history of modern art explores the relationship between art and knowledge from the beginning of the twentieth century to the present day Each chapter examines artistic responses to a particular discipline of knowledge from quantum theory and theosophy to cybernetics and ethnic futurisms The authors argue that art s incursion into other intellectual disciplines is a defining characteristic of both modernism and postmodernism Throughout the volume poses a series of larger questions is art a source of knowledge If so what kind of knowledge And ultimately can it contribute to our understanding of the world in ways that thinkers from other fields should take seriously **Between the Sign and the Gaze** Herman Rapaport,2018-07-05 A woman turns into a piece of furniture Theodor Fontane s Effi Briest a writer of children s books takes photos of naked little girls Lewis Carroll Mont Blanc becomes the maternal breast Shelley Hamlet mistakes Ophelia for a phallus Lacan s Hamlet seminar and mom turns out to have thermonuclear arms Laurie Anderson s United States Reviewing the ways in which women have been fantasized in nineteenth and twentieth century Western culture Herman Rapaport offers a series of brilliant insights into the concept of the fantasm in modern art *The Nineteenth-Century Novel and the Pre-Cinematic Imagination* Alberto Gabriele,2024-11-14 This book fills a gap in existing scholarship on the history of the novel in relation to visual culture by discussing the visual fascination that novelists such as Nathaniel Hawthorne Herman Melville Honor de Balzac and George Eliot show for several types of pre cinematic spectacle It also identifies a so far neglected aspect of novel theory that nineteenth century authors elaborated by incorporating

suggestions from pre cinematic visual spectacles By shedding light on forms of visibility that were not entertained by the dominant aesthetic modes of painting and photography The Nineteenth Century Novel and the Pre Cinematic Imagination argues that the presence of nineteenth century pre cinematic optical illusions in works of fiction redefines the notion of mimesis as animated movement and points to a continuity between pre cinema the literary imagination and the structures of knowledge production of the modern episteme Cinema by Other Means Pavle Levi,2012-04-10 This title recounts the history of para cinema the long tradition within the avant garde of adapting the tools technologies and techniques of conventional film making Levi s study considers works by filmmakers artists and theorists from France Italy the Soviet Union Germany Hungary and Yugoslavia Reading Claude Cahun's Disavowals JenniferL. Shaw,2017-07-05 The first monograph on a Surrealist cult classic Reading Claude Cahun s Disavowals offers a comprehensive account of Cahun s most important published work Aveux non avenues Disavowals 1930 Jennifer L Shaw provides an encompassing interpretation of this groundbreaking work paying careful attention to the complex interrelationship between the photomontages and writings of Aveux non avenues This study argues that the texts and images of Aveux non avenues not only explore Cahun s own subjectivity they formulate a trenchant social and cultural critique Shaw explores how Cahun s work both calls into question the dominant culture of interwar France with its traditional gender roles religious conservatism and pronatalism and takes to task the era s artistic avant garde and in particular its models of desire This volume cuts across the disciplinary boundaries of interwar art studies demonstrating how one artist s personal exploration intervened in wider contemporary debates about the purpose of art the role of women in French culture and the status of homosexuality in the aftermath of World War I A Homeric Catalogue of Shapes Charlayn von Solms,2019-11-14 In the popular imagination Homer as author of the Iliad and the Odyssey epitomises poetic genius So when scholars proposed that the Homeric epics were not the unique creation of an individual author but instead reflected a traditional compositional system developed by generations of singer poets swathes of assumptions about the poems and their author were swept aside and called into question Much had to be re evaluated through a new lens The creative process described by scholars for the Homeric epics shares many key attributes with the modern visual art forms of collage and its less familiar variant sculptural assemblage A Homeric Catalogue of Shapes describes a series of twelve sculptures that together function as an abstract portrait of Homer not a depiction of him as an individual but as a compositional system The technique by which the artworks were produced reflects the poetic method that scholars termed oral formulaic In both of these creative processes the artwork is constructed from pre existing elements such as phrases characters and plot lines in the epics and objects fragmented items and borrowed forms in the sculptures The artist author presents a largely unknown characterisation of Homeric poetics in a manner that emphasizes the extent and complexity of this Homer s artistry **Machine Art in the Twentieth Century** Andreas Broeckmann,2016-12-23 An investigation of artists engagement with technical systems tracing art historical lineages that connect works of different

periods Machine art is neither a movement nor a genre but encompasses diverse ways in which artists engage with technical systems In this book Andreas Broeckmann examines a variety of twentieth and early twenty first century artworks that articulate people s relationships with machines In the course of his investigation Broeckmann traces historical lineages that connect art of different periods looking for continuities that link works from the end of the century to developments in the 1950s and 1960s and to works by avant garde artists in the 1910s and 1920s An art historical perspective he argues might change our views of recent works that seem to be driven by new media technologies but that in fact continue a century old artistic exploration Broeckmann investigates critical aspects of machine aesthetics that characterized machine art until the 1960s and then turns to specific domains of artistic engagement with technology algorithms and machine autonomy looking in particular at the work of the Canadian artist David Rokeby vision and image and the advent of technical imaging and the human body using the work of the Australian artist Stelarc as an entry point to art that couples the machine to the body mechanically or cybernetically Finally Broeckmann argues that systems thinking and ecology have brought about a fundamental shift in the meaning of technology which has brought with it a rethinking of human subjectivity He examines a range of artworks including those by the Japanese artist Seiko Mikami whose work exemplifies the shift **Lumen Naturae**

Matilde Marcolli,2020-05-26 Exploring common themes in modern art mathematics and science including the concept of space the notion of randomness and the shape of the cosmos This is a book about art and a book about mathematics and physics In *Lumen Naturae* the title refers to a purely immanent non supernatural form of enlightenment mathematical physicist Matilde Marcolli explores common themes in modern art and modern science the concept of space the notion of randomness the shape of the cosmos and other puzzles of the universe while mapping convergences with the work of such artists as Paul Cezanne Mark Rothko Sol LeWitt and Lee Krasner Her account focusing on questions she has investigated in her own scientific work is illustrated by more than two hundred color images of artworks by modern and contemporary artists Thus Marcolli finds in still life paintings broad and deep philosophical reflections on space and time and connects notions of space in mathematics to works by Paul Klee Salvador Dal and others She considers the relation of entropy and art and how notions of entropy have been expressed by such artists as Hans Arp and Fernand L ger and traces the evolution of randomness as a mode of artistic expression She analyzes the relation between graphical illustration and scientific text and offers her own watercolor decorated mathematical notebooks Throughout she balances discussions of science with explorations of art using one to inform the other She employs some formal notation which can easily be skipped by general readers Marcolli is not simply explaining art to scientists and science to artists she charts unexpected interdependencies that illuminate the universe **Dada Magazines** Emily Hage,2020-12-24 Dada magazines made Dada what it was diverse non hierarchical transnational and defiant of the most fundamental artistic conventions This first volume entirely devoted to Dada periodicals retells the story of Dada by demonstrating the centrality of these graphically inventive provocative periodicals

Dada New York Dada Dada Jok and dozens more that began crossing enemy lines during World War I The book includes magazines from well known Dada cities like New York and Paris as well as Zagreb and Bucharest and reveals that Dada continued to inspire art journals into the 1920s Anchored in close material analysis within a historical and theoretical framework Dada Magazines models a novel multifaceted methodology for assessing many kinds of periodicals The book traces how the Dadaists Marcel Duchamp Tristan Tzara Dragan Aleksic Hannah Hoch and many others compiled printed distributed and exchanged these publications At the same time it recognizes the journals as active agents that engendered the Dada network and its thematic chronological structure captures the constant exchanges that took place in this network With in depth scrutiny of these magazines and 1970s Dadazines inspired by them Dada Magazines is a vital source in the histories of art and design periodical studies and modernist studies
