

Self-confidence is at the root of most of our confidence in others. We are never as

longer than the good fortune of those we envy. Innocence is very far from finding

unhappy as we think, nor as happy as we hoped. A good woman is a hidden treasure: the finder is well advised not to boast about it. We go to far less trouble about making ourselves happy than about appearing to be so. Love may be delightful, but even more so are the ways in which it reveals itself. Quarrels would not last long if the fault were on one side only. We are lazier in mind than in body. Our envy always lasts

as many defenders as crime. It is easier to know man in general than to understand one man in particular. Not many know how to be old. The most difficult undertaking in friendship is not showing our faults to our friend, but making him see his own. No people are more often wrong than those who cannot bear to be. There are few sensible people, we find, except those who share our opinions. The world is full of pots jeering at kettles.

## **Maxims Of La Rochefoucauld:**

Moral Maxims François duc de La Rochefoucauld,1749      **Collected Maxims and Other Reflections** François de La Rochefoucauld,François duc de La Rochefoucauld,2008-05-08 This is the fullest collection of La Rochefoucauld's writings ever published in English and includes the first complete translation of the Miscellaneous Reflections A table of alternative maxim numbers and an index of topics help the reader to locate any maxim quickly      **Maxims of La Rochefoucauld** François duc de La Rochefoucauld,1903      The Maxims (Bilingual Edition: French Text, with a Revised English Translation) François de La Rochefoucauld,2022-02-14 Of all the French epigrammatic writers La Rochefoucauld 1613 1680 is at once the most widely known and the most distinguished Voltaire said One of the works that most largely contributed to form the taste of the French nation and to diffuse a spirit of justice and precision is the collection of maxims by François duc de La Rochefoucauld though there is scarcely more than one truth running through the book that self love is the motive of everything yet this thought is presented under so many varied aspects that it is nearly always striking And Lord Chesterfield in his letters to his son Till you come to know mankind by your own experience I know no thing nor no man that can in the meantime bring you so well acquainted with them as La Rochefoucauld his little book of Maxims which I would advise you to look into for some moments at least every day of your life is I fear too like and too exact a picture of human nature I own it seems to degrade it but yet my experience does not convince me that it degrades it unjustly The Maxims were first published in 1665 under the title Reflections or sentences and moral maxims and the edition of 1678 the fifth from which the text has been used for the present translation was the last revised by the author and published in his lifetime with maxims numbered 1 to 504 Maxims which appeared in previous editions and were suppressed by La Rochefoucauld can be found in the second part entitled Maxims withdrawn by the author here numbered 505 to 583 The French original of this bilingual edition was reviewed by Philippe Renaud The English translation originally by John William Willis Bund and James Hain Friswell has been thoroughly revised by Rebecca Hazell and Philippe Renaud      The Maxims of François, Duc de La Rochefoucauld François duc de La Rochefoucauld,1939      **Reflections** François Duc De La Rochefoucauld,2007-07 François VI Duc De La Rochefoucauld le Prince de Marcillac 1613 1680 was a noted French author of maxims and memoirs as well as an example of the accomplished 17th century nobleman He was born in Paris in the Rue des Petits Champs at a time when the royal court oscillated between aiding the nobility and threatening it Until 1650 he bore the title of Prince de Marcillac His importance as a social and historical figure is however far inferior to his importance in literature His work in this respect consists of three parts letters Memoirs and the Maxims With a few exceptions La Rochefoucauld's maxims represent the matured result of the reflection of a man deeply versed in the business and pleasures of the world and possessed of an extraordinarily fine and acute intellect on the conduct and motives which have guided himself and his fellows La Rochefoucauld's theories about human nature are based on such topics as self interest and selflove passions and emotions vanity relationships love

conversation insincerity and trickery His writings are very concise straightforward and candid Maxims and Reflections Johann Wolfgang von Goethe,2005-12-01 Throughout his long hectic and astonishingly varied life Johann Wolfgang von Goethe 1749 1832 would jot down his passing thoughts on theatre programmes visiting cards draft manuscripts and even bills Goethe was probably the last true Renaissance Man Although employed as a Privy Councillor at the Duke of Weimar's court where he helped oversee major mining road building and irrigation projects he also painted directed plays carried out research in anatomy botany and optics and still found time to produce masterpieces in every literary genre His fourteen hundred Maxims and Reflections reveal some of his deepest thought on art ethics literature and natural science but also his immediate reactions to books chance encounters or his administrative work Although variable in quality the vast majority have a freshness and immediacy which vividly conjure up Goethe the man They make an ideal introduction to one of the greatest of European writers *Maxims and Moral Reflections* François duc de La Rochefoucauld,1775 **Maxims** François duc de La Rochefoucauld,2001 English and French texts Reflections Or Sentences and Moral Maxims François De La Rochefoucauld,2017-09-16 The philosophy of La Rochefoucauld which influenced French intellectuals as diverse as Voltaire and the Jansenists is captured here in more than 600 penetrating and pithy aphorisms Reflections; Or Sentences and Moral Maxims François Duc De La Rochefoucauld,2015-04-23 stood at the font as sponsor giving his name to that last light of French chivalry Francis I In 1515 he was created a baron and was afterwards advanced to a count on account of his great service to Francis and his predecessors The second count pushed the family fortune still further by obtaining a patent as the Prince de Marsillac His widow Anne de Polignac entertained Charles V at the family chateau at Verteuil in so princely a manner that on leaving Charles observed He had never entered a house so redolent of high virtue uprightness and lordliness as that mansion **Two French Moralists** Odette de Mourgues,2010-06-10 Professor de Mourgues study examines the works of La Rochefoucauld and La Bruyère in regards to the term moralist **Maxims** François de La Rochefoucauld,2003-01 This is the first ever French English edition of La Rochefoucauld's *Reflexions ou sentences et maximes morales* long known in English simply as the *Maxims* The translation the first to appear in forty years is completely new and aims unlike all previous versions at being as literal as possible This involves among other things rendering the same word for example amour propre as self love as consistently throughout as good sense allows This also means that the translators have made every effort to maintain La Rochefoucauld's word order This allows the reader the best vantage point for viewing La Rochefoucauld's dramatic and paradoxical juxtapositions of words and ideas juxtapositions of the utmost importance to understanding his thought Despite the translation's concern with literalness careful attention has been paid to the nuances of the literary character of the *Maxims* *Collected Maxims and Other Reflections* François de La Rochefoucauld,2008-05-08 Our virtues are most often only vices in disguise Deceptively brief and insidiously easy to read La Rochefoucauld's shrewd unflattering analyses of human behaviour have influenced writers thinkers and public figures as

various as Voltaire Proust de Gaulle Nietzsche and Conan Doyle The author gave himself the following advice The reader's best policy is to assume that none of these maxims is directed at him and that he is the sole exception After that I guarantee that he will be the first to subscribe to them This is the fullest collection of La Rochefoucauld's writings ever published in English and includes the first complete translation of the *Reflexions diverses* Miscellaneous Reflections A table of alternative maxim numbers and an index of topics help the reader to locate any maxim quickly and to appreciate the full range of La Rochefoucauld's thought on any of his favourite themes such as self love vice and virtue love and jealousy friendship and self interest passion and pride ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

**Falsehood Disguised** Richard G. Hodgson, 1999-10 Through close textual analysis of La Rochefoucauld's writings Richard Hodgson studies the moralist's use of metaphors such as the mask as well as his very personal concept of what constitutes an *etre vrai* or genuine person The study then traces the impact of La Rochefoucauld's ideas on thinkers from Vauvenargues and Chamfort to Nietzsche Lautreamont and Lacan It concludes by suggesting reasons why La Rochefoucauld's concept of truth continues to have such enormous appeal to the modern reader

Reflections; or Sentences and Moral Maxims François duc de La Rochefoucauld, 2019-11-19 In Reflections or Sentences and Moral Maxims François duc de La

Rochefoucauld presents a profound exploration of human behavior morality and the intricacies of social interactions through succinct epigrammatic insights Written in the 17th century and emerging from the backdrop of the French Renaissance the work reflects a keen psychological acuity employing a distinctive literary style that blends wit and observation La Rochefoucauld's maxims articulate the complex interplay between self interest and virtue challenging the reader to confront the often unflattering truths of human nature and the motivations that drive actions in society François duc de La Rochefoucauld a member of the French nobility was deeply influenced by the turbulent political climate of his time as well as his own experiences of court life and personal disillusionments His background in the aristocracy combined with a sharp intellect and a contemplative spirit led him to craft pithy reflections that capture the essence of moral thought in a changing society His observations reveal a blend of cynicism and insight that resonates with the paradoxes of human relationships providing a timeless commentary on the human condition Reflections or Sentences and Moral Maxims is recommended for readers seeking an incisive compact analysis of human motives and ethical dilemmas La Rochefoucauld's work serves as both a mirror and a lens reflecting our own behavior while prompting a critical examination of the societal norms that shape our lives Whether you are a student of philosophy literature or simply curious about the mechanics of human interaction this collection of maxims is sure to provoke thought and inspire contemplation
