Maximum Leonard:

Maximum Bob Elmore Leonard, 2012-02-16 The New York Times bestselling author of *Be Cool and Get Shorty* When someone delivers an alligator to Judge Bob Gibbs porch there s no shortage of suspects hard sentencing womanising redneck Maximum Bob is pretty much the most unpopular man in Florida Throw into the mix the Crowe clan about as primitive and aggressive as any alligator a doped up doctor on early release with a tag quick witted probation officer Kathy Baker a mermaid and a long dead slave girl called Wanda and things get a tad complicated And inevitably they don t work out the way you might expect

Higher Calling Max Leonard, 2019-05-14 Written with verve and enthusiasm *Higher Calling* explores why mountains have such a magnetic appeal to cyclists the world over But Max Leonard himself an accomplished amateur cyclist does not forget the pain the glory the sweat and the tears that go into these grueling climbs After all cycling up a mountain is hard So hard that to many it can seem absurd But for others climbing a mountain gracefully and beating your competitors up the slope represents the pinnacle of cycling achievement It is where legends are forged Many books tell you where the mountains are or how long and how high None of them ask why Why are mountain ranges professional cycling s Coliseum Why do amateurs also make pilgrimages to these high remote roads Why are the roads even there in the first place to lure us on to these obsession inducing climbs Just why are mountains so enthralling This is real cycling where the glory is and where dreams come true according to Bradley Wiggins Mountains are where cycling s greatest heroes have made their names Every amateur rider wishes they could climb better too Are all these people addicted to the pain To the achievement Or to the allure of the peaks Some spend their weekends and holidays cycling up mountains from start to finish But how does a rider push themselves beyond their limits to get up a 10% gradient on pedal power alone What is happening when they do *Higher Calling* explores the central place of mountains in the folklore of road cycling Blending adventure and travel writing with the rich narrative of racing Max Leonard takes the reader from the battles that created the Alpine roads to the shepherds tending their flocks on the peaks and to a Grand Tour climax on the highest road in Europe And he tells stories of courage and sacrifice war and love obsession and even elephants along the way

Lanterne Rouge Max Leonard, 2015-06-15 Froome Wiggins Mercks we know the winners of the Tour de France but *Lanterne Rouge* tells the forgotten often inspirational and occasionally absurd stories of the last placed rider We learn of stage winners and former yellow jerseys who tasted life at the other end of the bunch the breakaway leader who stopped for a bottle of wine and then took a wrong turn the dooper whose drug cocktail accidentally slowed him down and the rider who was recognized as the most combative despite finishing at the back Max Leonard flips the Tour de France on its head and examines what these stories tell us about ourselves the 99% who don t win the trophy and forces us to re examine the meaning of success failure and the very nature of sport

Illiberal Reformers Thomas C. Leonard, 2017-01-24 In *Illiberal Reformers* Thomas Leonard reexamines the economic progressives whose ideas and reform agenda underwrote the Progressive Era dismantling of laissez

faire and the creation of the regulatory welfare state which they believed would humanize and rationalize industrial capitalism But not for all Academic social scientists such as Richard T Ely John R Commons and Edward A Ross together with their reform allies in social work charity journalism and law played a pivotal role in establishing minimum wage and maximum hours laws workmen s compensation progressive income taxes antitrust regulation and other hallmarks of the regulatory welfare state But even as they offered uplift to some economic progressives advocated exclusion for others and did both in the name of progress Leonard meticulously reconstructs the influence of Darwinism racial science and eugenics on scholars and activists of the late nineteenth and early twentieth centuries revealing a reform community deeply ambivalent about America s poor Economic progressives championed labor legislation because it would lift up the deserving poor while excluding immigrants African Americans women and mental defectives whom they vilified as low wage threats to the American workingman and to Anglo Saxon race integrity Economic progressives rejected property and contract rights as illegitimate barriers to needed reforms But their disregard for civil liberties extended much further Illiberal Reformers shows that the intellectual champions of the regulatory welfare state proposed using it not to help those they portrayed as hereditary inferiors but to exclude them Provided by publisher *Timber Set-aside Programs* United States.
