## **May O'Donnell Modern Dance Pioneer:**

May O'Donnell Marian Horosko, 2005 A firsthand account of May O'Donnell's sixty-year career in dance recalls personal memories from her early training in California to tours with Jose Limon based on extensive interviews with O'Donnell herself and a collection of unpublished photographs Original Literature, Modernism, and Dance Susan Jones, 2013-08-01 This book explores the complex relationship between literature and dance in the era of modernism. During this period, an unprecedented dialogue between the two art forms took place based on a common aesthetics initiated by contemporary discussions of the body and gender, language, formal experimentation, primitivism, anthropology, and modern technologies such as photography, film, and mechanisation. The book traces the origins of this relationship to the philosophical antecedents of modernism in the nineteenth century and examines experimentation in both art forms. The book investigates dance's impact on the modernists' critique of language and shows the importance to writers of choreographic innovations by dancers of the fin de siècle of the Ballets Russes and of European and American experimentalists in non-balletic forms of modern dance. A reciprocal relationship occurs with choreographic use of literary text. Dance and literature meet at this time at the site of formal experiments in narrative drama and poetics, and their relationship contributes to common aesthetic modes such as symbolism, primitivism, expressionism, and constructivism. Focussing on the first half of the twentieth century, the book locates these transactions in a transatlantic field, giving weight to both European and American contexts and illustrating the importance of dance as a conduit of modernist preoccupations in Europe and the US through patterns of influence and exchange. Chapters explore the close interrelationships of writers and choreographers of this period, including Mallarmé, Nietzsche, Yeats, Conrad, Woolf, Lawrence, Pound, Eliot, and Beckett, Fuller, Duncan, Fokine, Nijinsky, Massine, Nijinska, Balanchine, Tudor, Laban, Wigman, Graham, and Humphrey, and recover radical experiments by neglected writers and choreographers from David Garnett and Esther Forbes to André Howard and Oskar Schlemmer. **May O'Donnell** Colleen M. Weiher, 2012 A brief biographical history on modern dance pioneer May O'Donnell. Including a small dance dictionary including stage terminology. Also containing the entire O'Donnell warm-up fully notated with accompanying DVD for easier comprehension.

**Martha Graham** Neil Baldwin, 2022-10-25 A major biography, the first in three decades, of one of the most important artistic forces of the twentieth century: the legendary American dancer and choreographer who upended dance, propelling the art form into the modern age and whose profound and pioneering influence is still being felt today. Brings together all the elements of Graham's colorful life with wit, verve, critical discernment, and a powerful lyricism. Mary Dearborn, acclaimed author of *Ernest Hemingway*, *Time* magazine called her the Dancer of the Century. Her technique, used by dance companies throughout the world, became the first long-lasting alternative to the idiom of classical ballet. Her pioneering movements, powerful, dynamic, jagged, edgy, forthright, combined with her distinctive system of training, were the epitome of American modernism performance as art. Her work continued to astonish and inspire for more than sixty years as she choreographed
