May The Circle Be Unbroken An Intimate Journey Into The Heart Of Adoption:

May the Circle be Unbroken Lynn C. Franklin, Elizabeth Ferber, 1999-11-30 In the 1960s when she was an unmarried college sophomore Lynn Franklin gave up her newborn son for adoption Using her own story as a point of departure Franklin examines the changing face of adoption and explores the uncertainties and emotions that surround it with rare honesty and perception In *May the Circle Be Unbroken* Franklin covers virtually every possible form of adoption but perhaps most important she speaks to adoptees wondering if they should search for their mothers and to women who have given up a child and are wondering if they are emotionally able to reconnect While her own powerful story anchors the book it is her voice as a birthmother that will distinguish this book from others on the subject Since finding her son Franklin has come to know his wife and children and they too have become an important part of her life In so doing she has closed one of life's most precious circles *May the Circle Be Unbroken* will prove invaluable for readers concerned with the practical emotional and legal aspects of adoption whether they are thinking of making an adoption plan for their child or hoping to be chosen as suitable parents for someone else's child *May the Circle Be Unbroken* is both a moving memoir of a woman who reunited with a child she gave up for adoption and a no nonsense book that gives readers an intelligent and well informed approach to adoption

Adoption Phyllis Conner Free,2003 **Contemporary Authors** Scot Peacock,2002-12 Your students and users will find biographical information on approximately 300 modern writers in this volume of Contemporary Authors R **Historical and Multicultural Encyclopedia of Women's Reproductive Rights in the United States** Judith A. Baer,2002-04-30 eproductive rights refers to a range of claims concerning whether when and how to have children Beneath this clear statement lays the most contentious political legal and cultural issue in America today Involving the self the family and the

State women's reproductive rights generates much impassioned argument but painfully little agreement. Topics and authors take on diverse and often clashing positions highlighting this issue's complex and highly charged nature. Arranged alphabetically by topic, articles representing racial and ethnic groups' experiences figure prominently, as do the effects of age, class, education, health, religion, and sexual preference on childbearing and rearing practices in and out of wedlock. It also includes articles on laws, court cases, political attitudes, prominent activists, and technological advances as they relate to reproductive rights. Entries are written by highly regarded scholars, are cross-referenced, and conclude with suggested further readings. Designed to introduce and inform the reader to this extremely difficult topic, Baer's ecumenical approach exposes us to a variety of opinions, from support for current abortion policies to the building movement for fetal rights. Only reasoned opinions supported by hard evidence are included, and no attempt was made to mute the often incommensurable opinions expressed within. This book will be a valuable resource for students, scholars, and any person interested in learning about the multiplicity of perspectives on this important issue that is at the heart of our current culture wars.

Journeys After Adoption Jayne E. Schooler, Betsie L. Norris, 2002-07-30. What can we learn about the experience of adoption from those who have taken that journey? How can those touched by adoption navigate successfully through the issues of search, reunion, and aftermath? Will those answers have a positive impact on adoption today? Drawing upon the experiences of dozens of triad members, adopted persons, birth parents, and adoptive parents, the authors offer insight into the concerns, issues, joys, and pain experienced by those whose lives are framed by adoption. The book explores such questions as: How do I make the decision to search for my parents? How do I prepare emotionally? What are my adoptive parents feeling and thinking? What if I am rejected, encounter death, or reach a dead end? How do I develop a relationship with siblings I've never known? The authors deal sensitively with these and many other issues. Attention is also given to the needs and concerns of adoptive parents as their children grow into adults. Practical advice helps prepare triad members to deal emotionally and psychologically with the process of search and reunion.

El mundo de la adopción Lynn C. Franklin, Elizabeth Ferber, 2003. **Lifegivers** James L. Gritter, 2000. In this book, open adoption practitioner Jim Gritter examines all the ways in which birthparents are marginalized. He provides a glimpse of birthparents' emotional roller coaster ride as they struggle with grief, ambivalence, and regret. Most importantly, he makes the case that if adoption exists to benefit children, then adopted children are best served when birthparents and adoptive parents work together.

Issues in Adoption William Dudley, 2004. Discusses issues surrounding adoption.

Culture Keeping Heather Jacobson, 2008. Since the early 1990s, close to 250,000 children born abroad have been adopted into the United States. Nearly half of these children have come from China or Russia. *Culture Keeping: White Mothers, International Adoption, and the Negotiation of Family Difference* offers the first comparative analysis of these two popular adoption programs. Heather Jacobson examines these adoptions by focusing on a relatively new social phenomenon: the practice by international adoptive parents, mothers in particular, of incorporating aspects of their children's cultures of

origin into their families lives Culture keeping is now standard in the adoption world though few adoptive parents the majority of whom are white and native born have experience with the ethnic practices of their children s homelands prior to adopting Jacobson follows white adoptive mothers as they navigate culture keeping from their motivations to the pressures and constraints they face to the content of their actual practices concerning names food toys travel cultural events and communities of belonging Through her interviews she explores how women think about their children their families and themselves as mothers as they labor to construct or resist ethnic identities for their children who may be perceived as birth children because they are white or who may be perceived as adopted because of racial difference The choices these women make about culture Jacobson argues offer a window into dominant ideas of race and the American Family and into how social differences are conceived and negotiated in the United States
