Listening in the Afterlife of Data David Cecchetto,2021-12-27 In Listening in the Afterlife of Data David Cecchetto theorizes sound communication and data by analyzing them in the contexts of the practical workings of specific technologies situations and artworks In a time he calls the afterlife of data the cultural context in which data s hegemony persists even in the absence of any belief in its validity Cecchetto shows how data is repositioned as the latest in a long line of concepts that are at once constitutive of communication and suggestive of its limits Cecchetto points to the failures and excesses of communication by focusing on the power of listening whether through wearable technology internet based artwork or the ways in which computers process sound to pragmatically comprehend the representational excesses that data produces Writing at a cultural moment in which data has never been more ubiquitous or less convincing Cecchetto elucidates the paradoxes that are constitutive of computation and communication more broadly demonstrating that data is never quite what it seems

Consumer Culture Theory in Asia Yuko Minowa,Russell Belk,2021-12-27 We live in times of increasing world uncertainty Consumer culture in Asia has embodied such precariousness with their unprecedented states of both prosperity and vulnerability Works in this

volume examine the consumer cultures that exist in today's precarious Asia. They do this through culturally oriented critical consumer research. How deeply has the consumer precariousness in Asia been intertwined with the sociohistorical patterning of consumption including class, gender and other social categories? How do these problematics affect consumers' identity projects, consumer rituals and marketplace cultures? How is consumer precariousness aggravated by the governmentality of the superpower? How does the changing landscape of inter-Asian and global popular culture impact consumer culture in these nations? Together the authors in this volume attempt to answer these questions through consumer research within the paradigm known as consumer culture theory (CCT). Since most CCT inquiry has been in Western contexts, this volume augments the existing knowledge. It presents the most current critical historical and material consumer studies focused on Asia. This volume will be of interest to seasoned CCT researchers and academics for anyone new to CCT and for postgraduate students interested in CCT or writing a consumer culture related thesis.

Russian Music at Home and Abroad Richard Taruskin, 2016-09-06. This new collection views Russian music through the Greek triad of the Good, the True and the Beautiful to investigate how the idea of nation embeds itself in the public discourse about music and other arts with results at times invigorating at times corrupting. In our divided post-Cold War and now post-9/11 world, Russian music, formerly a quiet corner on the margins of musicology, has become a site of noisy contention. Richard Taruskin assesses the political and cultural stakes that attach to it in the era of Pussy Riot and renewed international tensions, before turning to individual cases from the nineteenth century to the present. Much of the volume is devoted to the resolutely cosmopolitan but inveterately Russian Igor Stravinsky, one of the major forces in the music of the twentieth century and subject of particular interest to composers and music theorists all over the world. Taruskin here revisits him for the first time since the 1990s when everything changed for Russia and its cultural products. Other essays are devoted to the cultural and social policies of the Soviet Union and their effect on the music produced there, as those policies swung away from Communist internationalism to traditional Russian nationalism, to the musicians of the Russian postrevolutionary diaspora and to the tension between the compelling artistic quality of works such as Stravinsky's *Sacre du Printemps* or Prokofiev's *Zdravitsa* and the antihumanistic or totalitarian messages they convey. *Russian Music at Home and Abroad* addresses these concerns in a personal and critical way, characteristically demonstrating Taruskin's authority and ability to bring living history out of the shadows.
