It gets worse. For Davis Moore is a fertility doctor dealing with cutting edge genetic reproductive techniques. It's a controversial and dangerous occupation. Moore has already been the object of a fanatic's assassination attempt. But for a father driven half mad by grief his work presents one startling and dangerous opportunity: the chance to look into the face of his daughter's killer. Two tours of combat duty in Korea had faded into distant memories neatly separated from any feelings destined to be forgotten. They would not lie dormant for very long. The trauma of war hung over him as he sought to find a new life free of violence and killing. Adam was destined to fight on another battlefield as the dreams of combat penetrated his sleep. Loud noises interrupted his days and alcohol helped him through four years of medical school. He had lost hope of ever being able to dodge the dark cloud that hovered over him, casting a shadow of impending doom over any small moment of joy until he met the woman who would become the love of his life. This is a story of the impact and lasting effects of massive psychic trauma, a story of love and being loved, a story of redemption, a story to be told and not forgotten for it's never over when it's over.

Over the years many crude myths have surfaced about Velez, the most notorious that she died with her head in the toilet. This biography not only studies Lupe's personal life and career including her tempestuous marriage to Johnny Weissmuller but also examines her death in detail. It has been almost seven decades since her untimely end, at long last the ugly rumors and myths are debunked for good. Included are never before told family stories and photographs from Lupe's second cousin and an analysis of the actress's lasting influence on popular culture. The foreword by Oscar winning film historian Kevin Brownlow focuses on the fact and fancy behind Lupe Velez's colorful public image. *The Billboard*, 1926 *The Economist*, 1855 *The London Journal: and Weekly Record of Literature, Science, and Art*, 1859
