Maya Resurgence In Guatemala:

Maya Resurgence in Guatemala Richard Wilson, 1999-09-01 Across Guatemala Mayan peoples are struggling to recover from decades of cataclysmic upheaval religious conversions civil war displacement military repression Richard Wilson carried out long term research with Q'eqchi' speaking Mayas in the province of Alta Verapaz to ascertain how these events affected social organization and identity He finds that their rituals of fertility and healing abandoned in the 1970s during Catholic and Protestant evangelizations have been reinvented by an ethnic revivalist movement led by Catholic lay activists who seek to renovate the earth cult in order to create a new pan Q'eqchi' ethnic identity Contemporary Maya Spirituality Jean Molesky-Poz, 2009-06-23 An authoritative study of the indigenous religion still practiced in Guatemala based on extensive original research and participant observation Jean Molesky Poz draws on in depth dialogues with Maya Ajq'ijab keepers of the ritual calendar her own participant observation and inter disciplinary resources to offer a comprehensive innovative and well grounded understanding of contemporary Maya spirituality and its theological underpinnings She reveals significant continuities between contemporary and ancient Maya worldviews and spiritual practices Molesky Poz opens with a discussion of how the public emergence of Maya spirituality is situated within the religious political history of the Guatemalan highlands particularly the pan Maya movement She investigates Maya cosmovision and its foundational principles as expressed by Ajq'ijab At the heart of this work Ajq'ijab interpret their obligation lives and spiritual work Molesky Poz then explores aspects of Maya spirituality including sacred geography sacred time and ritual practice She confirms contemporary Maya spirituality as a faith tradition with elaborate historical roots that has significance for individual collective and historical lives reaffirming its own public space and legal right to be practiced *Construction of Maya Space* Thomas H. Guderjan, Jennifer P. Mathews, 2023-11-07 This volume focuses on how powerful people of the ancient historical and contemporary periods in the Maya world used features such as walls roads rails and symbolic boundaries to control those without power and how the powerless pushed back *Mayas in the Marketplace* Walter E. Little, 2010-07-05 2005 Best Book Award New England Council of Latin American Studies Selling handicrafts to tourists has brought the Maya peoples of Guatemala into the world market Vendors from rural communities now offer their wares to more than 500 000 international tourists annually in the marketplaces of larger cities such as Antigua Guatemala City Panajachel and Chichicastenango Like businesspeople anywhere Maya artisans analyze the desires and needs of their customers and shape their products to meet the demands of the market But how has adapting to the global marketplace reciprocally shaped the identity and cultural practices of the Maya peoples Drawing on over a decade of fieldwork Walter Little presents the first ethnographic study of Maya handicraft vendors in the international marketplace Focusing on Kaqchikel Mayas who commute to Antigua to sell their goods he explores three significant issues how the tourist marketplace conflates global and local distinctions how the marketplace becomes a border zone where national and international developed and underdeveloped

and indigenous and non indigenous come together how marketing to tourists changes social roles gender relationships and ethnic identity in the vendors home communities Little s wide ranging research challenges our current understanding of tourism s negative impact on indigenous communities He demonstrates that the Maya are maintaining a specific community based sense of Maya identity even as they commodify their culture for tourist consumption in the world market *Tecpan Guatemala* Edward F Fischer,Carol Hendrickson,2018-04-27 This book discusses the indigenous people of Tecpan Guatemala a predominantly Kaqchikel Maya town in the Guatemalan highlands It seeks to build on the traditional strengths of ethnography while rejecting overly romantic and isolationist tendencies in the genre **Engendering Mayan History** David Carey Jr.,2013-01-11 Presenting Mayan history from the perspective of Mayan women whose voices until now have not been documented David Carey allows these women to present their worldviews in their native language adding a rich layer to recent Latin American historiography and increasing our comprehension of indigenous perspectives of the past Drawing on years of research among the Maya that specifically documents women s oral histories Carey gives Mayan women a platform to discuss their views on education migrant labor work in the home female leadership and globalization These oral histories present an ideal opportunity to understand indigenous women s approach to history the apparent contradictions in gender roles in Mayan communities and provide a distinct conceptual framework for analyzing Guatemalan Mayan and Latin American history Silenced Communities Marcia Esparza,2017-10-01 Although the Guatemalan Civil War ended more than two decades ago its bloody legacy continues to resonate even today In *Silenced Communities* author Marcia Esparza offers an ethnographic account of the failed demilitarization of the rural militia in the town of Santo Tom s Chichicastenango following the conflict Combining insights from postcolonialism subaltern studies and theories of internal colonialism Esparza explores the remarkable resilience of ideologies and practices engendered in the context of the Cold War demonstrating how the lingering effects of grassroots militarization affect indigenous communities that continue to struggle with inequality and marginalization **Crosscurrents in Indigenous Spirituality** Edward Cook,2016-05-18 The resurgence of indigenous cultures and the reappearance of their ancient spiritualities during the 1990s is of great interest to social scientists Several such cultures are featured in this book The indigenous populations of struggling multi ethnic democracies in Latin America are demanding to be integrated into the national mainstream together with their holistic values of family economics and ecology Institutional Christianity is being challenged by indigenous theologies that are critical of both traditional Christianity and liberation theology While some see here a danger of syncretism these developments can be experienced as a breath of fresh air Much has been said about the Mayas but they have not been allowed to speak for themselves anthropologist Rafael Girardi 1962 This book is an attempt to allow religious spokespersons from a very ancient and creative civilization to share their faith which has remained hidden for five centuries **Paradise in Ashes** Beatriz Manz,2004 An account of the violence and repression that defined the murderous Guatemalan civil war of the 1980s Manz an anthropologist spent over

two decades studying the Mayan highlands and remote rain forests of Guatemala In a political portrait of Santa Mar a Tzej where highland Maya peasants seeking land settled in the 1970s Manz describes these villagers plight as their isolated lush but deceptive paradise became one of the centers of the war convulsing the entire country After their village was viciously sacked in 1982 desperate survivors fled into the surrounding rain forest and eventually to Mexico and some even further to the United States while others stayed behind and fell into the military s hands Manz follows their flight and eventual return to Santa Mar a Tzej where they sought to rebuild their village and their lives From publisher description

The Good Life Edward F. Fischer,2014-10-01 What could middle class German supermarket shoppers buying eggs and impoverished coffee farmers in Guatemala possibly have in common Both groups use the market in pursuit of the good life But what exactly is the good life How do we define wellbeing beyond material standards of living While we all may want to live the good life we differ widely on just what that entails In *The Good Life* Edward Fischer examines wellbeing in very different cultural contexts to uncover shared notions of the good life and how best to achieve it With fascinating on the ground narratives of Germans choices regarding the purchase of eggs and cars and Guatemalans trade in coffee and cocaine Fischer presents a richly layered understanding of how aspiration opportunity dignity and purpose comprise the good life

The Chicken and the Quetzal Paul Kockelman,2015-12-30 In *The Chicken and the Quetzal* Paul Kockelman theorizes the creation measurement and capture of value by recounting the cultural history of a village in Guatemala s highland cloud forests and its relation to conservation movements and ecotourism In 1990 a group of German ecologists founded an NGO to help preserve the habitat of the resplendent quetzal the strikingly beautiful national bird of Guatemala near the village of Chicacnab The ecotourism project they established in Chicacnab was meant to provide new sources of income for its residents so they would abandon farming methods that destroyed quetzal habitat The pressure on villagers to change their practices created new values and forced negotiations between indigenous worldviews and the conservationists goals Kockelman uses this story to offer a sweeping theoretical framework for understanding the entanglement of values as they are interpreted and travel across different and often incommensurate ontological worlds His theorizations apply widely to studies of the production of value the changing ways people make value portable and value s relationship to ontology affect and selfhood

Who Counts? Diane M. Nelson,2015-11-05 In Who Counts Diane M Nelson explores the social life of numbers teasing out the myriad roles math plays in Guatemalan state violence economic exploitation and disenfranchisement as well as in Mayan revitalization and grassroots environmental struggles In the aftermath of thirty six years of civil war to count both numerically and in the sense of having value is a contested and qualitative practice of complex calculations encompassing war losses migration debt and competing understandings of progress Nelson makes broad connections among seemingly divergent phenomena such as debates over reparations for genocide victims Ponzi schemes and antimining movements Challenging the presumed objectivity of Western mathematics Nelson shows how it flattens social complexity and becomes a raced classed and gendered skill that colonial powers considered beyond the grasp of indigenous peoples Yet the Classic Maya are famous for the precision of their mathematics including conceptualizing zero long before Europeans Nelson shows how Guatemala s indigenous population is increasingly returning to Mayan numeracy to critique systemic inequalities with the goal of being counted in every sense of the word
