Maya History And Religion:

Secrets of Mayan Science/Religion Hunbatz Men,1990 An engaging study that reveals sacred teachings that the Mayan priesthood hid from Spanish conquistadores in Mexico in 1519 The author explores the scientific and spiritual principles underlying the ancient glyphs numbers and language of the Maya **The Popol Vuh** Lewis Spence,1908 *Indigenous Religion and Cultural Performance in the New Maya World* Garrett W. Cook,Thomas A. Offit,2013-06-15 Based on more than thirty years of ethnographic fieldwork in Highland Guatemala this study of Maya diviners shamans ritual dancers and religious brotherhoods describes the radical changes in traditional Maya religious practice wrought by economic globalization and political turmoil Focusing on the primary participants in the annual festival in the K iche Maya village of Santiago Momostenango the authors show how older religious traditionalists and the new generation of cultural activist religious practitioners interact within a single local community and how their competing agendas for adapting Maya religiosity to a new and continually changing political economy are perpetuating and changing Maya religious traditions

Translated Christianities Mark Z. Christensen,2015-06-10 Beginning in the sixteenth century ecclesiastics and others created religious texts written in the native languages of the Nahuatl and Yucatec Maya These texts played an important role in the evangelization of central Mexico and Yucatan Translated Christianities is the first book to provide readers with English translations of a variety of Nahuatl and Maya religious texts It pulls Nahuatl and Maya sermons catechisms and confessional manuals out of relative obscurity and presents them to the reader in a way that illustrates similarities differences and trends in religious text production throughout the colonial period The texts included in this work are diverse Their authors range from Spanish ecclesiastics to native assistants from Catholics to Methodists and from sixteenth century Nahuas to nineteenth century Maya Although translated from its native language into English each text illustrates the impact of European and native cultures on its content Medieval tales popular in Europe are transformed to accommodate a New World native audience biblical figures assume native identities and texts admonishing Christian behavior are tailored to meet the demands of a colonial native population Moreover the book provides the first translation and analysis of a Methodist catechism written in Yucatec Maya to convert the Maya of Belize and Yucatan Ultimately readers are offered an uncommon opportunity to read for themselves the translated Christianities that Nahuatl and Maya texts contained **The Apotheosis of Janaab' Pakal** Gerardo Aldana y Villalobos,2007 Takes up anew the riddles within a number of Maya hieroglyphic inscriptions first recognised by Floyd Lounsbury Gerardo Aldana unpacks these mathematical riddles using an approach grounded in a reading of the texts made possible by recent advances in decipherment Using a history of science methodology he expands upon and sometimes questions the foundational work of archaeoastronomers Aldana follows three lines of investigation a reading of the hieroglyphic inscriptions of the Classic period ad250 900 mathematical analysis to recover Classic Maya astronomical practice and a historiography of Maya astronomy During troubled times in Palenque Aldana contends Kan

Balam II devised a means to preserve the legitimacy of his ruling dynasty. He celebrated a re-creation of the city as a contemporary analogue of a mythical Creation on three levels: monumental construction for a public audience, artistic patronage for an elite audience, and a secret mathematical astronomical language only for rulers elect. Discussing all of these efforts, Aldana focuses on the recovery of the secret language and its historical context.

Maya Sacred Geography and the Creator Deities Karen Bassie-Sweet, 2014-10-22 The K'iche' Maya creation story preserved in the sixteenth century manuscript Popol Vuh describes the origin of the world and its people in a setting long assumed to be the Guatemalan central highlands. Now a scholar with a deep knowledge of Maya history shows that all of these mythological events occurred at specific locations and that this landscape was the template for the Maya worldview. Examining the primary Maya deities, Karen Bassie Sweet links geographic features to gods and beliefs. She reconstructs key elements of the Popol Vuh to argue that the three volcanoes around Lake Atitlan were the three thunderbolt gods and that the lake was the center of the world. She also shows that the Maya view of the creation of humans is centered on corn and examines core beliefs about the corn cycle to propose that the creation myth was established much earlier in Maya history than previously supposed. Generously illustrated, *Maya Sacred Geography and the Creator Deities* is a detailed ethnohistorical analysis of Maya religion, cosmology, and ritual practice that convincingly links mythology to the land. A comprehensive treatment of Maya religion, it provides an essential resource for scholars and will fascinate any reader captivated by these ancient beliefs.

Ancient Maya Arthur Demarest, 2004-12-09 In this new archaeological study, Arthur Demarest brings the lost pre-Columbian civilization of the Maya to life. In applying a holistic perspective to the most recent evidence from archaeology, paleoecology, and epigraphy, this theoretical interpretation emphasises both the brilliant rain forest adaptations of the ancient Maya and the Native American spirituality that permeated all aspects of their daily life. Demarest draws on his own discoveries and the findings of colleagues to reconstruct the complex lifeways and volatile political history of the Classic Maya states of the first to eighth centuries. He provides a new explanation of the long-standing mystery of the ninth-century abandonment of most of the great rain forest cities. Finally, he draws lessons from the history of the Classic Maya cities for contemporary society and for the ongoing struggles and resurgence of the modern Maya peoples who are now re-emerging from six centuries of oppression.

Popol Vuh, 2009 Mayan civilization once flourished in what is today Guatemala and the Yucatan. The Mayan sacred book, the Popol Vuh, tells of the creation of the universe, the world of gods and demi-gods, and the creation of mankind.

The Ancient Spirituality of the Modern Maya Thomas Hart, 2008 The myth and ceremony of Maya beliefs have been sustained for over five hundred years in spite of massacres, persecution, and discrimination.
